EDITORIAL POLICIES

Originality of Manuscript
The corresponding author must certify that their article is original, has not been published previously, and is not under consideration for publication by another journal. The corresponding author should affirm originality of the work in the Article Submission Form. If the work has been presented previously at a meeting as an oral or poster presentation, corresponding author must state the name, date and place of the meeting at the Title Page.

Autorship
An individual who has made substantial intellectual contributions to the article should be an author. Each author must have a role in the following areas:
1. Conception and designing of study, or data collection, or analysis and interpretation of data.
2. Writing article or revising it substantially.
3. Final approval of the submitted version.

Other contributors who perform technical support, identify patients for study, translate the texts, supply materials, provide funding have not been qualified as author. These contributions may be acknowledged in the manuscript. Author roles are stated at Article Submission Form.

Human Rights
The Koşuyolu Heart Journal accepts the Declaration of Helsinki Principles as the policy of the Journal. Therefore, all studies concerning human subjects must be approved by the Institutional Review Board. All study subjects should be informed and written consent should be obtained. The editor ask for a copy of the approval document.

Animal Rights

ARTICLE SUBMISSION FORM

Manuscript Title ..............................................................................................................................................................................

By submitting this form, the corresponding author acknowledges that each author has read and agrees with the information contained in the Originality, Author Role and Competition of Interest Form completed at the time of initial manuscript submission.

Originality of Research

The authors certify that this manuscript is original, has been written by the stated authors, has not been published previously, and is not under consideration for publication by another journal. If parts of the work or patients included in this manuscript have been previously published, the authors are required to disclose this information to the Editors.

Authorship

Koşuyolu Heart Journal has required that authors specify their roles and meet the requirements for authorship as listed in the “Uniform Requirements for a Manuscript Submitted to Biomedical Journals.” These indicate that each author must contribute to a manuscript in each of the following 3 areas:

1. Substantial contribution to conception and design; or acquisition of data; or analysis and interpretation of data.
2. Drafting the article or revising it critically for important intellectual content.
3. Final approval of the version to be published.

If someone has contributed to the manuscript but does not meet these criteria, they should be listed in the Acknowledgements section rather than on the author byline.

Author Role

Koşuyolu Heart Journal requires that the corresponding author complete the statement below, filling in the blanks with the appropriate author initials. This statement will be reproduced at the end of your manuscript in the printed and online journal, just prior to the reference section, for all clinical and basic research manuscripts. The overall responsibility line should list the single individual who guarantees the scientific integrity of the work as a whole. All other blanks should be completed as necessary, by all authors who played a significant role in that capacity. Please list only 2 initials for each author, without periods, but separated by commas (e.g. MY, HS). In the case of two authors with the same initials, please use their middle initial (e.g. AME, ASE), or full names to differentiate between them.

Conception and design: ___
Analysis and interpretation: ___
Data collection: ___
Writing the article: ___
Critical revision of the article: ___
Final approval of the article: ___

Competition of Interest Disclosure

The Journal requires that each author disclose any sponsor that provided financial support for the study. Such a statement should indicate the details of corporate funding, as well as any involvement by a sponsor of this study in the design; collection, analysis, and interpretation of data; manuscript writing; or the decision to submit the manuscript for publication. This information must be included below in the Competition of Interest statement.

In addition, the Journal requires that each author disclose any personal financial arrangements that might be perceived as a competitive interest with respect to this study. Specifically, for each author:

1. Has the author received a financial contribution from a company or organization that might benefit (or lose) financially from the results, conclusions or discussion presented in the paper/letter? Examples include:
   • royalties
   • patents (or patents pending)
   • fees for consulting
   • fees for speaking when organized by a corporate sponsored speakers’ bureau
   • funds for a member of the author’s staff or family
2. Does the author own stocks, shares or have options in a company or organization that might benefit (or lose) financially from the results, conclusion or discussion presented in the paper/letter?

3. Does the author have any other competing financial interests that should be disclosed? In response to these questions, you must check one of the boxes below:

…… No The authors have no competing interests to declare. Please print "No competing interest declared" with the article

…… Yes The authors do have competing interests to declare. Please print the following statement with the article:

Example: “CK has been paid a consulting fee by ABC Company and is on their speakers bureau; ASE has shares in the company; AH received funding for a research assistant from the ABC Company. The study was funded by corporation ABC.”

Although the above language emphasizes financial disclosure, each author may choose to disclose other potential conflicts which could include an academic association or antagonism with someone whose interest might be affected by the publication, membership in a special interest group whose interests might be affected by the paper, or other strong convictions that might have affected.

Ethical Approval
All of the original investigations concerning human subjects and the laboratory animals must be approved by the Institutional Review Boards.
