

### **The year 2020...**

We publish the first issue of our journal in 2020 while our country and the world are fighting with our Covid -19 pandemic. We have taken care not to disrupt our academic studies while we are fighting with this infectious disease as a country in this challenging period.

In this issue of our journal, there are 19 articles, a case report and a review in the fields of dentistry, nursing, anesthesia, orthopedics, family medicine, gynecology, nephrology, emergency medicine, general surgery, neurosurgery, medical biology and histology. Endless thanks to everyone who contributed in this issue.

We hope to publish the second issue of our journal on beautiful days.

**PhD, Assoc. Prof. Ülkü KARAMAN**
