*In Table 2: The °C unit at boiling point section should be changed as °C.

*At saponification value section: ‘It is also effected on biodiesel yield’ should be changed as ‘It is also affected on biodiesel yield’

*At Instrumental characterization section: ‘Functional groups of castor oil, castor biodiesel and B_{10}, B_{20} and B_{30} were determined by using FTIR spectrometer. Fig. 8a-8e.’ should be arranged as ‘Functional groups of castor oil, castor biodiesel and B_{10}, B_{20} and B_{30} were determined by using FTIR spectrometer (Fig. 8a-8e).

* The sentence of ‘B_{10} just showed the indication of the –CH_{3} group and –C-H group. All this is because of a high volume of petro diesel hydrocarbons, the biodiesel character disappeared.’ should be arranged as ‘The B_{10} just showed the indication of the –CH_{3} group and –C-H group. All this is because of a high volume of petro diesel hydrocarbons, the biodiesel character disappeared.’
