CBU Journal of Science

CBU Journal of Science is a refereed scientific journal published four times annually (March, June, September and December) by Institute of Natural and Applied Sciences of Manisa Celal Bayar University. Articles are written in English are accepted to be evaluated.

Articles are accepted related to scientific areas below;
Basic and Applied Sciences (Physics, Chemistry, Biology, Mathematics, Statistics etc.), Engineering Sciences (Mechanical, Civil, Food, Industrial, Electrical and Electronic etc.)

CBU Journal of Science is indexed by TUBİTAK ULAKBIM TR-DIZIN, and also is included in DOAJ, Cite Factor, Journal TOCS, Advanced Science Index and OAJI databases. Digital Object Identifier (DOI) number will be assigned for all the articles being published in CBU Journal of Science.

Instructions for Authors and Article Template can be found on the main page of MCBU Institute of Natural and Applied Sciences (http://fbe.cbu.edu.tr)
Vol: 14, Issue: 3, Year: 2018

| An Investigation on Acrylic Organic Coatings Including Colemanite and Zeolite for Glass Materials  
(Research Article)                                         | 257-260  |
| DOI: 10.18466/cbayarfbe.392448                                          |          |
| Nil Acarali, Rabia Oktay                                                |          |
| A Computational Study on the Nucleophilic Substitution Reaction between 2-Bromoaceto phenone and Azole Derivatives  
(Research Article)                                      | 261-269  |
| DOI: 10.18466/cbayarfbe.415975                                          |          |
| Taner Erdoğan                                                          |          |
| Solar-Based Thermoelectric Generator and its ANFIS Model  
(Research Article)                      | 271-276  |
| DOI: 10.18466/cbayarfbe.421575                                          |          |
| Ali Ekber Özdemir                                                      |          |
| Investigation of Myxomycetes (Myxomycota) in South Amanos Mountains (Hatay-Turkey)  
(Research Article)                  | 277-284  |
| DOI: 10.18466/cbayarfbe.423334                                          |          |
| Hayri Baba, Yücel Doğan                                                |          |
| Synthesis and Photophysical Behaviours of Novel Phenanthro[9,10-d] imidazole Substituted Azo Dyes in Solvent Media  
(Research Article)       | 285-289  |
| DOI: 10.18466/cbayarfbe.423419                                          |          |
| Seçil Çelik Erbaş, Sibel Gülle                                         |          |
| Examination of Factors Affecting the Shear Strength of Granulated Blast Furnace Slag  
(Research Article)                | 291-295  |
| DOI: 10.18466/cbayarfbe.423763                                          |          |
| Hasan Firat Pulat, Inci Develioğlu, Azhi Yassin Rasul                   |          |
| Software Fault Prediction in Object Oriented Software Systems Using Ensemble Classifiers  
(Research Article)                | 297-302  |
| DOI: 10.18466/cbayarfbe.424521                                          |          |
| Emin Borandağ, Fatih Yücalar, Kamil Akarsu                               |          |
| The Effects of Different Salt Concentrations on the Biochemical Contents of Gracilaria gracilis Greville (Rhodophyta)  
(Research Article)                  | 303-307  |
| DOI: 10.18466/cbayarfbe.425013                                          |          |
Recurrence Quantification Analysis on Gait Reaction Forces of Elderly Adults for Determination of Pathological States

*(Research Article)*
DOI: 10.18466/cbayarfbe.428648
Özgür Afşar

Evaluating of Salt Stress Tolerance in Selected Wheat Mutant Progenies with Contributing Expression Analysis of *TaWRKY* Genes and Antioxidant Defence Parameters

*(Research Article)*
DOI: 10.18466/cbayarfbe.430620
Ayşe Şen, Fatma Sarsu

Characterization of Carotid Atherosclerotic Plaques by Measurement of Acoustic Impedance

*(Research Article)*
DOI: 10.18466/cbayarfbe.442817
Bükem Bilen, Ülku Kafa, Mehmet Burçin Ünlü

Analytical Method Development and Validation of Phenothrin, Promecarb and Penconazole in Tobacco using Liquid Extraction and Gas Chromatography

*(Research Article)*
DOI: 10.18466/cbayarfbe.446820
Hale Seçilmiş Canbay

A Characterization of Approximation of Hardy Operators in VLS

*(Research Article)*
DOI: 10.18466/cbayarfbe.449954
Lütfi Akın

Effect of Tannic Acid on Photocatalytic Efficiency of NiFe₂O₄ and ZnO

*(Research Article)*
DOI: 10.18466/cbayarfbe.450816
Keziban Atacan

IoT Based Wearable Smart Health Monitoring System

*(Research Article)*
DOI: 10.18466/cbayarfbe.451076
Mehmet Taştan

Comparison of the Isolation Methods of Viral Nucleic Acids

*(Research Article)*
DOI: 10.18466/cbayarfbe.350005
