## ABOUT JOURNAL

Koşuyolu Heart Journal is a peer-reviewed, open access journal that has been published three times a year in April, August and December. This is the scientific journal of the Health Sciences University, Koşuyolu High Specialization Health Application and Research Center (namely in Turkish, Sağlık Bilimleri Üniversitesi, Kartal Koşuyolu Yüksek İhtisas Sağlık Uygulama ve Araştırma Merkezi, İstanbul, Türkiye). The official languages of the journal are English and Turkish.

The aim of the Koşuyolu Heart Journal; is to present advances in the field of cardiology, cardiovascular surgery, congenital cardiac surgery, and cardiovascular anesthesia to the readers. Koşuyolu Heart Journal publishes research articles, reviews, original case reports and images, letters, and critiques on cardiovascular medicine. The target reader population are the doctors specialized to the cardiovascular medicine. As an open access journal, all content is freely available.

Koşuyolu Heart Journal currently has an acceptance rate of 48%. The average time between submission and final decision is 30 days and the average time between acceptance and final printed publication is 60 weeks. However, provisional copy of submissions are published online within 1 month after acceptance.

### Journal History :

Koşuyolu Heart Journal, ISSN 1300-8706, 1990-2007.

Koşuyolu Kalp Dergisi, ISSN 1300-8706, 2009-2014.

Koşuyolu Heart Journal, ISSN 2149-2972, eISSN 2149-2980, since 2015.

### Indexing

The Koşuyolu Heart Journal is indexed in TÜBİTAK/ULAKBİM (Turkish Medical Abstracts), Türkiye Atıf Dizini, and Turk Medline.

**Creative Common License:** Koşuyolu Heart Journal is licensed under (CC) BY-SA. (<http://creativecommons.org/licenses/by-sa/4.0/>)

**Subscription Procedures:** All content of the Journal on this website is freely available without charge to the user or his/her institution. However, subscription for printed issues is also available. Please get in contact with the Bilimsel Tıp Yayınevi for more information on delivery and shipping charges.

**Submission Process:** The manuscripts should be submitted via online. The journal do not charge any article submission or processing charges.

**Address:** Koşuyolu Heart Journal, Sağlık Bilimleri Üniversitesi, Koşuyolu Yüksek İhtisas Sağlık Uygulama ve Araştırma Merkezi, Denizer Caddesi, Cevizli Kavşağı No: 2, 34846, Kartal, İstanbul, Turkey

## EDITORIAL POLICIES

### Originality of Manuscript

The corresponding author must certify that their article is original, has not been published previously, and is not under consideration for publication by another journal. The corresponding author should affirm originality of the work in the Article Submission Form. If the work has been presented previously at a meeting as an oral or poster presentation, corresponding author must state the name, date and place of the meeting at the Title Page.

### Authorship

An individual who has made substantial intellectual contributions to the article should be an author. Each author must have a role in the following areas:

1. Conception and designing of study, or data collection, or analysis and interpretation of data.
2. Writing article or revising it substantially.
3. Final approval of the submitted version.

Other contributors who perform technical support, identify patients for study, translate the texts, supply materials, provide funding have not been qualified as author. These contributions may be acknowledged in the manuscript. Author roles are stated at Article Submission Form.

### Human Rights

The Koşuyolu Heart Journal accepts the Declaration of Helsinki Principles as the policy of the Journal. Therefore, all studies concerning human subjects must be approved by the Institutional Review Board. All study subjects should be informed and written consent should be obtained. The editor ask for a copy of the approval document.

### Animal Rights

All studies dealing with animal subjects must be performed according to "The Guide for the Care and Use of Laboratory Animals" ([http://www.nap.edu/catalog.php?record\\_id=5140](http://www.nap.edu/catalog.php?record_id=5140)) with the approval of the Institutional Review Board. The editor ask for a copy of the approval document.

All manuscripts submitted for publication are reviewed for their originality, methodology, ethical nature and suitability for the Koşuyolu Heart Journal. The editor has the right to format or reject the manuscripts which do not follow the rules or send them back to the author for correction. Authors who wish to withdraw their manuscripts need to state this to the editor in written form. All manuscripts received are submitted to iThenticate®, a plagiarism checking system. Manuscripts judged to be plagiarised will not be considered for publication.

Submitted papers are reviewed by, the editor, the associated editors, and at least two reviewers. The editor and associated editors may decide to send the manuscript to a third reviewer. The editor and associated editors is the complete authority regarding reviewer selection. The reviewers may be selected from the Journal's Advisory Boards or independent national or international reviewers may be selected when required for the topic of the manuscript.

### Instructions for Authors

Instructions for authors can be accessed from <http://www.kosuyolukalpdergisi.com> and printed samples of the Journal.

### Scientific and Legal Responsibility of the Articles

Scientific and legal responsibility of the published articles belongs to the authors. Authors are responsible for the contents of the articles and accuracy of the references. Health Science University Kartal Koşuyolu High Specialization Health Application and Research Center, the Editor-in-Chief, the Associated Editors or the Publisher do not accept any responsibility for the published articles.

### Ownership of a Manuscript

A Copyright Transfer Form signed by all authors must be submitted to the journal when accepted manuscript. Koşuyolu Heart Journal is an open access journal which means that all content is freely available without charge to the user or his/her institution. The Journal is licensed under CC BY-SA. Journal articles can be self archiving. This is a Romeo green Journal.

### Citation

Koşuyolu Heart J

## INSTRUCTIONS for AUTHORS

### Scope of the Journal

The Koşuyolu Heart Journal is published three times a year (April, August, and December). The official language of the journal is either Turkish or English. For the article written in Turkish should be correspond to Turkish Language Institution dictionary, orthography guide (<http://tdk.org.tr>) and dictionary of cardiology terms published by Turkish Society of Cardiology ([http://www.kosuyolukalpdergisi.com/global/docs/terminoloji\\_klavuzu.pdf](http://www.kosuyolukalpdergisi.com/global/docs/terminoloji_klavuzu.pdf)). Terms written in English or another foreign language should be indicated within quotation marks in Turkish articles.

All manuscripts submitted for publication should comply with "Uniform Requirements for Manuscripts Submitted to Biomedical Journals" produced and updated by the International Committee of Medical Journals Editors ([www.icmje.org](http://www.icmje.org)).

The Koşuyolu Heart Journal accepts the Declaration of Helsinki Principles (<http://www.wma.net/en/30publications/10policies/b3/index.html>) as the policy of the Journal. Therefore, all manuscripts concerning human subjects must contain a statement in the "Materials and Methods" section, indicating that the study was approved by the Institutional Review Board. All study subjects should be informed and written consent should be obtained and this should be declared in the "Materials and Methods" section. All manuscripts dealing with animal subjects must contain a statement indicating that the study was performed according to "The Guide for the Care and Use of Laboratory Animals" ([http://www.nap.edu/catalog.php?record\\_id=5140](http://www.nap.edu/catalog.php?record_id=5140)) with the approval of the Institutional Review Board, in the "Materials and Methods" section. The Editor may ask for a copy of the approval document. The journal's editorial and publication process are also congruent with COPE (<http://publicationethics.org/resources/guidelines>) standards.

### Submission Process

The manuscripts should be submitted via online manuscript evaluation system (<http://www.kosuyoluheartjournal.com>).

### Forms

An "Article Submission Form" consisting of author role, originality, and conflict of interest disclosure, signed by the corresponding author, declaring that the manuscript has not been published or is not currently submitted to another journal and that the manuscript is approved by all the authors. The Article Submission Form should be simultaneously uploaded together with manuscript files.

Koşuyolu Heart Journal "Copyright Transfer Form" might be uploaded together with manuscript files or should be sent after acceptance of the manuscript via e-mail to [journal@kosuyolu.gov.tr](mailto:journal@kosuyolu.gov.tr). After submission of the copyright transfer form signed by each author, changes of authorship or in the order of the authors listed will not be accepted by Koşuyolu Heart Journal.

These forms are available on <http://www.kosuyoluheartjournal.com>.

### Manuscript Preparation

**Style and format:** The manuscript text should be written in Times New Roman font, 12 point-type, double-spaced with 2 cm margins on the left and right sides. The article should be prepared with Microsoft Words. The pages should be numbered starting with the title page. Page numbers should appear at the bottom right corner of every page. The main text file should not contain any information regarding author names and affiliations.

**Symbols, units, and abbreviations:** In general, the Journal follows the conventions of Scientific Style and Format, The CSE Manual for Authors, Editors, and Publishers, Council of Science Editors, Reston, VA, USA (7<sup>th</sup> ed.). Please use SI units. Abbreviations should be internationally accepted and should be defined accordingly in the text in parenthesis when first mentioned and used in the text. The abbreviated form should be used all throughout the article.

**Title page:** Title page of the of the manuscript should include the Turkish and English title of the article, Turkish and English running title not exceeding 40 characters including spaces as well as the full names, surnames and academic degrees of the authors. The department, division and institution of the authors should be indicated. Title page should also include address, e-mail, phone and fax number of the corresponding author. Authors should indicate the name, the date, and the place of the meeting if the research has been presented previously in a congress or symposia. Title page should be submitted as a separated file.

**Abstracts:** All manuscripts should be in Turkish and English abstracts. Abbreviations should be avoided as much as possible. References, figures, tables and citations should not be used.

**Keywords:** There should be two to five key words complying with the Index Medicus Medical Subject Headings (MeSH) and Türkiye Bilim Terimleri for Turkish. Refer to <http://www.nlm.nih.gov/mesh/MBrowser.html> and <http://www.bilimterimleri.com> for English and Turkish key words, respectively.

**Original investigations:** Original investigations are clinical or experimental research articles. They should include; Turkish title, Turkish structured abstract (limited to 300 words structured as 'Giriş', 'Hastalar ve Yöntem', 'Bulgular' and 'Sonuç'), Turkish key words and English title, English structured abstract (limited to 300 words structured as Introduction, Materials (or Patients) and Methods, Results and Conclusion), English key words. The other sections of the manuscript should include Introduction, Materials (or Patients) and Methods, Results, Discussion, Acknowledgement (if required) and References. All sections of the manuscripts should start on a new page. Research articles are not referred to exceed 5000 words and 40 references.

**Reviews:** Manuscripts in the form of "Reviews" are accepted when "invited" since 2009. In case of wishing to write a review about a current topic without being "invited", the editor and the associate editors should be contacted before the manuscript is submitted. Review Articles should include; Turkish title, Turkish abstract, Turkish key words and English title, English abstract and English key words. The abstract should be prepared as one paragraph in "Review" type articles and limited to 300 words. Structured abstract is not required. Number of references should be limited to 40 if possible.

**Case reports:** Case reports should include Turkish title, Turkish abstract, Turkish key words, English title, English abstract, English key words, Introduction, Case presentation, Discussion and References. Introduction and Discussion sections of the Case reports should be short and concise and the abstract should be prepared as one paragraph. Structured abstract is not required. Case reports should not exceed 1500 words and the number of references should not exceed 20.

**Original techniques:** Original techniques should include Turkish title, Turkish abstract, Turkish key words, English title, English abstract, English key words, Introduction, Technique, Discussion and References. Introduction and Discussion sections of the Original Techniques should be short and concise and the abstract should be prepared as one paragraph. Structured abstract is not required. Original Surgical Techniques should not exceed 1500 words and the number of references should not exceed 10.

**Original images:** Original images in cardiovascular system are images dealing with related subjects. The title should not contain more than eight words. No more than three authors may be listed. The legend should not exceed 150 words. The legend to the image should succinctly present relevant clinical information, including a short description of the patient's history, relevant physical and laboratory findings, clinical course, response to treatment (if any), and condition at last follow-up. All labeled structures in the image should be described and explained in the legend. The number of references should not exceed 3 and not include an abstract. Running title is not required.

**Letter to the editor:** Readers are encouraged to write about any topic that relates to cardiology, cardiovascular surgery, and cardiovascular anesthesiology and may include discussions on material previously printed in the Journal. Letter to the Editor should be short and concise limited to 1000 words and 5 references. Abstract is not required.

**Tables and figures:** Tables, figures, graphics and pictures should be numbered with Arabic numbers in order of reference in the text. Localization of tables, figures, graphics and pictures should be indicated.

Each table should be prepared with double spacing on a separate page. Tables should have a brief title. Authors should place explanatory matter in footnotes not in the heading. Explanations should be made for all nonstandard abbreviations in footnotes. The following symbols should be used for abbreviations in sequence: \*, †, ‡, §, ||, ¶, \*\*, ††, ‡‡. Each table should be cited in text.

Figures should be either professionally drawn or photographed, and these items should be submitted as photographic-quality digital images. Figures should be submitted in a

### Contact Address

Sağlık Bilimleri Üniversitesi, Kartal Koşuyolu Yüksek İhtisas Sağlık Uygulama ve Araştırma Merkezi  
Denizler Caddesi Cevizli Kavşağı No: 2 Cevizli 34846 Kartal, İstanbul, Turkey  
Phone: +90 216 500 15 00 • Fax: +90 216 459 63 21 • e-mail: [journal@kosuyolu.gov.tr](mailto:journal@kosuyolu.gov.tr)

format that will produce high-quality image (for example, JPEG or GIF). Authors should control the images of such files on a computer screen before submitting them to be sure they meet their own quality standards. Information on staining and microscopic images, the magnification ratio.

X-ray films, scans and other diagnostic images, as well as pictures of pathology specimens should be submitted as sharp, glossy, black-and-white or color photographic images. Letters, numbers, and symbols on figures should be clear and consistent throughout, and large enough to remain legible when the figure is reduced for publication. Figures should be made as self-explanatory as possible. For recognizable photographs of patients, signed releases of the patient or of his/her legal representative should be submitted; otherwise, patient names or eyes must be blocked out to prevent identification.

Legends for figures, graphics and pictures should be typed starting on a separate page, double spaced, indicating the corresponding illustrations with numbers. When symbols, arrows, numbers or letters are used to identify parts of illustrations, define each one clearly under the illustration.

If quoted parts, tables, figures, graphics, pictures etc exist in the manuscript, the authors should obtain written permission from the author and copyright holder and indicate this.

**Acknowledgements:** All the entities that provide contribution to the technical content, data collection and analysis, writing, revision etc. of the manuscript and yet do not meet the criteria to be an author should be mentioned in the acknowledgement part. If the contribution of the sponsor is only in the form of financial support, this should be stated in the "Acknowledgement" section. If the sponsor has participated in the methods, statistical analysis or manuscript preparation, this contribution should also be stated in the "Materials and Methods" section. If there is no conflict of interest it should also be stated.

**References:** Data and manuscript not published yet should not be included among the references. These should be stated in the main text as "author(s), unpublished data, year".

Reference numbers should be indicated at the end of the sentences in the text as superscripts and references should be numbered consecutively in the order they are mentioned in the text. Journal names should be abbreviated as listed in "Index Medicus" or in "ULAKBİM/Turkish Medical Index". References should be typed in consistency with the following examples. Native references should be used as much as possible.

#### **If the reference is a journal;**

Author(s)' surname and initial (s) of the first name (all authors if the number of authors are 6 or less, first 6 authors if the number of authors of an article is more than 6 followed by "ve ark." in Turkish references and "et al." in international references). Title of the article, title of the manuscript abbreviated according to Index Medicus (<http://www.ncbi.nlm.nih.gov/sites/entrez/query.fcgi?db=nlmcatalog>). Year;Volume: First and last page number.

**Example:** Suárez De Lezo J, Medina A, Pan M, Romero M, Segura J, Pavlovic D, et al. Transcatheter occlusion of complex atrial septal defects. *Catheter Cardiovasc Interv* 2000;51:33-41.

#### **If the reference is a journal supplement;**

Author(s)' surname and initial(s) of the first name. Title of the article. Title of the manuscript abbreviated according to Index Medicus (<http://www.ncbi.nlm.nih.gov/sites/entrez/query.fcgi?db=nlmcatalog>). Year;Volume(Suppl Supplement number):First and last page number.

**Example:** Parsonnet V, Lean D, Bernstein AD. A method of uniform stratification of risk for evaluating the results of surgery in acquired adult heart disease. *Circulation* 1989;79(Suppl 1):S3-S12.

#### **If the reference is a book;**

Author(s)' surname and initial (s) of the first name. Title of the book. Edition number. City of publication, Country: Publisher, Year of Publication: Page numbers.

**Example:** Borrow K, Braunwald E. *Heart Disease*. 1<sup>st</sup> ed. Philadelphia, PA, USA: WB Saunders, 1988: 976.

#### **If the reference is a book chapter;**

Surname and initial(s) of the first name of the author(s) of the chapter. Title of the chapter. In: Surname and initial(s) of the first name(s) of the editor(s) (ed) or (eds). Title of the book. Edition number. City of publication, Country: Publisher, Year of publication: First and last page numbers of the chapter.

**Example:** Nguyen A, Imoto E, Eklof BGH. Pulmonary embolism. In: Barros D'Sa AAB, Chant ADB (eds). *Emergency Vascular and Endovascular Surgical Practice*. 2nd ed. London, UK: Hodder Arnold, 2005: 251-260.

#### **If the reference is an article presented in a meeting;**

Author(s)' surname and initial (s) of the first name (all authors if the number of authors are 6 or less, first 6 authors if the number of authors of an article is more than 6 followed by "ve ark." in Turkish references and "et al." in international references). Title of the article, If applicable In: Surname and initial (s) of the first name(s) of the editor (s) (ed) or (eds). Title of the book. Title of the meeting; Date; City of the meeting; Country. Publisher; Year. Page numbers.

**Example:** Bengtsson S, Solheim BG. Enforcement of data protection, privacy and security in medical informatics. In: Lun KC, Degoulet P, Piemme TE, Reinhoff O (eds). *MEDINFO 92. Proceedings of the 7th World Congress on Medical Informatics*; 1992 Sep 6-10; Geneva, Switzerland. North-Holland; 1992. p. 1561-5.

#### **If the reference is an online journal;**

Author(s)' surname and initial(s) of the first name (all authors if the number of authors are 6 or less, first 6 authors if the number of authors of an article is more than 6 followed by "ve ark." in Turkish references and "et al." in international references). Title of the article, title of the manuscript abbreviated according to Index Medicus Year; Volume (Number). Available from: URL address. Accessed date: day.month.year.

**Example:** Morse SS. Factors in the emergence of infectious disease. *Emerg Infect Dis* 1995;1(1). Available from: <http://www.cdc.gov/ncidoc/EID/eid.htm>. Accessed date: 25.12.1999.

#### **If the reference is a website;**

Name of the web site. Access date. Available from: address of the web site.

**Example:** World Health Organization (WHO). Access date: 9 July 2008. Available from: <http://www.who.int>

#### **If the reference is a thesis;**

Author's surname and initial of the first name. Title of the thesis (Thesis). Name of the university (or educational hospital, institution, etc), City, Country, Year.

**Example:** Kalender M. The effect of using internal mammarian artery graft on coronary bypass morbidity and mortality in octogenarian. (Thesis). Sağlık Bilimleri Üniversitesi Kartal Koşuyolu Yüksek İhtisas Sağlık Uygulama ve Araştırma Merkezi, İstanbul, Türkiye, 2011.

#### **Reprints**

Reprint of the article is not sent to the authors. The issue of the journal is sent by Publishing House.

#### **Correspondence Address**

Manuscript can only be submitted through our online system. Other correspondence may be directed to: e-mail: [journal@kosuyolu.gov.tr](mailto:journal@kosuyolu.gov.tr) or Koşuyolu Heart Journal, Sağlık Bilimleri Üniversitesi Kartal Koşuyolu Yüksek İhtisas Sağlık Uygulama ve Araştırma Merkezi, Denizler Cad. No:2, Cevizli, Kartal, 34846 İstanbul, Türkiye.

## ARTICLE SUBMISSION FORM

**Manuscript Title** .....

By submitting this form, the corresponding author acknowledges that each author has read and agrees with the information contained in the Originality, Author Role and Competition of Interest Form completed at the time of initial manuscript submission.

### Originality of Research

The authors certify that this manuscript is original, has been written by the stated authors, has not been published previously, and is not under consideration for publication by another journal. If parts of the work or patients included in this manuscript have been previously published, the authors are required to disclose this information to the Editors.

### Authorship

Koşuyolu Heart Journal has required that authors specify their roles and meet the requirements for authorship as listed in the "Uniform Requirements for a Manuscript Submitted to Biomedical Journals." These indicate that each author must contribute to a manuscript in **each** of the following 3 areas:

1. Substantial contribution to conception and design; or acquisition of data; or analysis and interpretation of data.
2. Drafting the article or revising it critically for important intellectual content.
3. Final approval of the version to be published.

If someone has contributed to the manuscript but does not meet these criteria, they should be listed in the Acknowledgements section rather than on the author byline.

### Author Role

Koşuyolu Heart Journal requires that the corresponding author complete the statement below, filling in the blanks with the appropriate author initials. This statement will be reproduced at the end of your manuscript in the printed and online journal, just prior to the reference section, for all clinical and basic research manuscripts. The **overall responsibility** line should list the **single individual** who guarantees the scientific integrity of the work as a whole. All other blanks should be completed as necessary, by all authors who played a significant role in that capacity. Please list **only** 2 initials for each author, without periods, but separated by commas (e.g. MY, HS). In the case of two authors with the same initials, please use their middle initial (e.g. AME, ASE), or full names to differentiate between them.

Conception and design: \_\_\_\_\_  
Analysis and interpretation: \_\_\_\_\_  
Data collection: \_\_\_\_\_  
Writing the article: \_\_\_\_\_  
Critical revision of the article: \_\_\_\_\_  
Final approval of the article: \_\_\_\_\_  
Statistical analysis: \_\_\_\_\_  
Obtained funding: \_\_\_\_\_  
Overall responsibility: \_\_\_\_\_

### Competition of Interest Disclosure

The Journal requires that each author disclose any sponsor that provided financial support for the study. Such a statement should indicate the details of corporate funding, as well as any involvement by a sponsor of this study in the design; collection, analysis, and interpretation of data; manuscript writing; or the decision to submit the manuscript for publication. This information must be included below in the Competition of Interest statement.

In addition, the Journal requires that each author disclose any personal financial arrangements that might be perceived as a competitive interest with respect to this study. Specifically, for each author:

1. Has the author received a financial contribution from a company or organization that might benefit (or lose) financially from the results, conclusions or discussion presented in the paper/letter? Examples include:
  - royalties
  - patents (or patents pending)
  - fees for consulting
  - fees for speaking when organized by a corporate sponsored speakers' bureau
  - funds for a member of the author's staff or family

A-VI

### Contact Address

**Phone:** +90 216 500 15 00 • **Fax:** +90 216 459 63 21 • **e-mail:** journal@kosuyolu.gov.tr

2. Does the author own stocks, shares or have options in a company or organization that might benefit (or lose) financially from the results, conclusion or discussion presented in the paper/letter?

3. Does the author have any other competing financial interests that should be disclosed? In response to these questions, you must check one of the boxes below:

..... No The authors have no competing interests to declare. Please print "No competing interest declared" with the article

..... Yes The authors do have competing interests to declare. Please print the following statement with the article:

Example: "CK has been paid a consulting fee by ABC Company and is on their speakers bureau; ASE has shares in the company; AH received funding for a research assistant from the ABC Company. The study was funded by corporation ABC."

Although the above language emphasizes financial disclosure, each author may choose to disclose other potential conflicts which could include an academic association or antagonism with someone whose interest might be affected by the publication, membership in a special interest group whose interests might be affected by the paper, or other strong convictions that might have affected.

### Ethical Approval

All of the original investigations concerning human subjects and the laboratory animals must be approved by the Institutional Review Boards.

The name of Review Board:

Approval document number and date:

Corresponding author signature:

Date: (Day/Month/Year)

## COPYRIGHT TRANSFER FORM

**Manuscript Title:** .....

**Manuscript Number:** .....

By submitting this form, each author agrees with the copyright to this article transferred to Koşuyolu Heart Journal, the scientific publication of Sağlık Bilimleri Üniversitesi, Kartal Koşuyolu Yüksek İhtisas Sağlık Uygulama ve Araştırma Merkezi.

The authors warrants that their contributions are original. Each author signs for and accepts responsibility for releasing this material. The copyright transfer covers the right and license to reproduce, publish, distribute and archive the article in all forms and media expression.

After submission of the agreement signed by each author, changes of authorship or in the order of the authors listed will not be accepted by Koşuyolu Heart Journal.

### Authors :

Each author must sign in according to the order of authors list.

## CONTENTS / İÇİNDEKİLER

### Original Investigations Orijinal Araştırmalar

185-194

#### Comparison of Left Atrial Function in Long-Term Anabolic/Androgenic Steroid Users versus Nonuser Bodybuilders by Using Two-Dimensional Speckle-Tracking Echocardiography

Uzun Dönem Anabolik-Androjenik Steroid Kullanan ve Kullanmayan Vücut Geliştiricilerde Sol Atrial Fonksiyonların İki Boyutlu Benekli İşaretleme Ekokardiyografik Yöntemi ile Karşılaştırılması  
*Elnur Alizade*

195-199

#### Copeptin in Severe Mitral Regurgitation Caused by Degenerative Mitral Disease

Dejeneratif Mitral Hastalığa Bağlı İleri Mitral Yetersizliğinde Kopeptin  
*Alev Kılıçgedik, Ahmet Seyfettin Gürbüz, Süleyman Çağan Efe, Ahmet Güler, Ali Yaman, Gökhan Kahveci, İbrahim Akın İzgi, Cevat Kıрма*

200-205

#### Kapağa Bağlı Olmayan Atriyal Fibrilasyonlu Hastalarda Trombosit/Lenfosit Oranı ile CHA2DS2-VASc Skoru Arasındaki İlişki

Association Between Platelet/Lymphocyte Ratio and CHA2DS2-VASc Score in Patients with Nonvalvular Atrial Fibrillation  
*Faysal Şaylık, Murat Selçuk, Mustafa Etli*

206-209

#### Relationship Between Epicardial Adipose Tissue Thickness and Fragmented QRS

Epikardiyal Yağ Dokusu Kalınlığı ve Parçalı Qrs Arasındaki İlişki  
*Ali Rıza Akyüz, Selim Kul, Muhammet Raşit Sayın, Turhan Turan, Levent Korkmaz*

210-216

#### Kardiyak Miksoma: Tersiyer Bir Referans Merkezinin 14 Yıllık Deneyimi

Cardiac Myxoma: Fourteen-Year Experience of a Tertiary Reference Center  
*Yiğit Çanga, Mehmet Baran Karataş, Ali Nazmi Çalık, Tahir Bezgın, Veysel Ozan Tanık, Ufuk Yıldız, Emir Renda, Tolga Sinan Güvenç, Can Yücel Karabay, Ömer Kozan*

217-223

#### Serum Thiol/Disulfide Homeostasis and Endocan Levels in Patients Who Underwent Diagnostic Exercise Electrocardiography Test

Tanısız Egzersiz Elektrokardiyografi Testi Yapılan Hastalarda Serum Tiyol Disulfid Dengesi ve Endokan Düzeyleri  
*Emrullah Kızıltunç, Burcu Uğurlu Ilgın, Harun Kundı, Hülya Çiçekçiöğlü, Canan Topçuoğlü, Mustafa Çetin, Birsen Gülkan, Ender Örnek*

224-229

#### Galectin-3 in Middle-Aged Patients with First Episode of Non-valvular Atrial Fibrillation: a Speckle-tracking Study

İlk Atak Non-valvular Atrial Fibrilasyonlu Orta Yaşlı Hastalarda Galectin-3  
*Alev Kılıçgedik, Süleyman Çağan Efe, Ahmet Seyfettin Gürbüz, Emrah Acar, Mehmet Fatih Yılmaz, Fatih Yılmaz, Ali Yaman, Gökhan Kahveci, İbrahim Akın İzgi, Cevat Kıрма*

230-234

#### İmplant Kardiyoverter Defibrilatör Yapılan Hastalarda Uygunsuz-Şoklama: Demografik Özellikler ve Öngördürücüler

Inappropriate Shocks in Patients with Implantable Cardioverter Defibrillator: Demographics and Predictors  
*Özkan Candan*

235-239

#### Gebelikte Speckle Tracking Ekokardiyografisi ile Değerlendirilen Anne Kalbinin Mekanik Fonksiyonlarının Değişimi

Alteration of Pregnant Women Heart Mechanics Assessed by Speckle Tracking Echocardiography During Pregnancy  
*Ali Karagöz, Onur Taşar, Şeyhmus Külahçiöğlü, Bünyamin Şan, Arzu Kalaycı, Tahir Bezgın, Gönenç Kocabay, İbrahim Akın İzgi, Cevat Kıрма*

### Review Derleme

240-247

#### Beyond the Lipid-lowering Effects of Statins: Renal Effects

Statinlerin Lipit Düşürücü Etkilerinin Ötesi: Renal Etkileri  
*Yasemin Kaya, Ahmet Kaya, Osman Bekataş*

## CONTENTS / İÇİNDEKİLER

### Case Reports Olgu Sunumları

248-250

#### Spontan Superiyor Mezenter Arter Diseksiyonunun Tedavisi

Treatment of Spontaneous Superior Mesenteric Artery Dissection  
*Uğur Arslantaş, Hayati Eren, Süleyman Barutçu, Selçuk Pala*

251-252

#### Sağ Koroner Arter Anjiyografisi Sırasında Opak Basıncına Bağlı Distalde Kese Görüntüsüne Neden Olan Subadventisiyal Diseksiyon Olgusu

A Case of Sac-Shaped Subadventitial Dissection of the Distal Right Coronary Artery Resulting from Pressure Generated During Contrast Injection  
*Gamze Babur Güler, Ekrem Güler, Ersin İbişoğlu, Hacı Murat Güneş*

253-255

#### Pericardial Decompression Syndrome: an Uncommon But Dangerous Complication After Successful Pericardiocentesis

Başarılı Perikardiyosentez Sonrası Nadir ve Tehlikeli Bir Komplikasyon:  
Perikardiyal Dekompresyon Sendromu  
*Gamze Babur Güler, Ekrem Güler, Gültekin Günhan Demir, Hacı Murat Güneş*

256-258

#### Iloprost is a Useful Therapy for Adams-Oliver Syndrome with Eisenmenger Syndrome

Eisenmenger Sendromunun Eşlik Ettiği Adams-Oliver Sendromlu Hastalar İçin İloprost Tedavisi  
*Erkan Baysal, Bernas Altıntaş, Barış Yaylak, Rojhat Altındağ, Önder Bilge, Utkan Sevük*

259-261

#### Koroner Anjiyografi Esnasında Koroner Arterde Kırılıp Kalan Kılavuz Teline Cerrahi Yaklaşım Gerekli midir?

Is Surgical Approachment to a Retained and Fractured Guide Wire Inside Coronary Artery Necessary Followings Coronary Angiography?  
*İsmail Koramaz, Macit Bitargil, Helin El Kılıç, Fatih Gökalk*

262-264

#### Interventional Requirements in Cardiovascular Surgery with a Case Report: Coil Embolization

Bir Olgu Sunumu ile Kardiyovasküler Cerrahide Girişimsel Gereklilikler: Coil Embolizasyon  
*Adil Polat, Kamil Boyacıoğlu, Seçkin Sarıoğlu, Vedat Erentuğ*

265-268

#### Çok Sebep Uzun QT ve Basamaklı Bir Şekilde Başarılı Tedavisi

Prolonged QT with Multiple-Causation and its Successful Multistage Therapy  
*Muhammed Keskin, Ahmet Taha Alper, Ceyhan Türkkkan, Ahmet İlker Tekkeşin*

269-271

#### Newborn with an Intracardiac Mass Generated Secondary to Umbilical Vein Catheterization

Yeni Doğanda Umbilikal Ven Kateterizasyonu Malpozisyonuna Sekonder Gelişen Intrakardiyak Kitle  
*Aybağ Tongut, Ali Can Hatemi, Eylem Tunçer, Ayşe Bahar Ceyran, Füsün Güzelmeriç, Ayşe İnci Yıldırım, Hakan Ceyran*

### Original Images Orijinal Görüntüler

272

#### The Difference in Blood Pressure Between The Radial and Femoral Artery During Coronary Angiography: Narrowing of the Abdominal Aorta

Koroner Anjiyografide Radial ve Femoral Arter Arasındaki Kan Basıncı Farklılığı; Abdominal Aortada Daralma  
*Hülya Yılmaz Ak, Özlem Turhan, Sadiye Deniz Özsoy, Mustafa Yıldız*

273

#### Percutaneous Coronary Intervention in an Elderly Patient with a Single Coronary Artery

Tek Koroner Arterli Yaşlı Bir Hastaya Perkütan Girişim  
*Ahmet Güner, Nuri Havan, Gökhan Alıcı, Elnur Alizade*

274-275

#### Resistant Radial Artery Spasm During Coronary Angiography by Radial Approach Responded to Sedation: Importance of Anesthesia

Radial Arter Yoluyla Yapılan Koroner Anjiyografi Sırasında Gelişen ve Sedasyon ile Çözülen Dirençli Radial Arter Spazmı: Anestezinin Önemi  
*Hülya Yılmaz Ak*

276

#### Pericardial Cyst: An Anesthetist Perspective

Perikardiyal Kist: Anestezi Bakışı  
*Hülya Yılmaz Ak*

 Emboli 210-216  
 Embolizasyon 153-156  
 Endokan 217-223  
 Endovasküler abdominal aort onarımı 36-39  
 Endovasküler işlemler 248-250  
 Endovasküler prosedürler 262-264  
 Epikardiyal yağ dokusu 206-209  
 Erişkin solunum sıkıntısı sendromu 69-71  
 Eritrosit indeksleri 143-147  
 Floroskopi maruziyet süresi 98-102

**G**

Galectin 224-229  
 Gebelik 235-239  
 Gensini skoru 30-35  
 Geriatrik 81-83

**H-İ**

Hipertansiyon 143-147  
 İki boyutlu speckle tracking ekokardiyografi 235-239  
 İliyak anevrizma 262-264  
 İloprost tedavisi 256-258  
 İ inferior vena kava 157-158  
 İnflamasyon 24-29, 217-223  
 İnme 81-83  
 İskemi 148-152  
 İskemi modifiye albumin 148-152

**K-L**

Kalp yaralanmaları 116-120  
 Kanama 69-71  
 Kardiyovasküler cerrahi 121-124  
 Kemoport 179-181  
 Kılavuz tel 259-261  
 Kırmızı kan hücreleri dağılım genişliği 143-147  
 Klopidogrel kullanımı 63-65  
 Komplikasyonlar 259-261  
 Konjenital koroner arter anomalisi 75-77  
 Konjestif kalp yetmezliği 72-74  
 Kontrast 59-62  
 Kontrast madde nefropatisi 59-62  
 Kontrast nefropatisi 13-18, 240-247  
 Kopeptin 195-199  
 Koroner 251-252  
 Koroner anjiyografi 91-97, 259-261  
 Koroner arter baypas 159-161  
 Koroner arter fistülü 175-178  
 Koroner arter hastalığı 30-35, 91-97, 111-115, 168-171  
 Koroner baypas 87-89  
 Koroner bilgisayarlı tomografi anjiyografi 66-68  
 Koroner stentleme 78-80  
 Koroner yavaş akım 19-23  
 Kronik böbrek yetersizliği 240-247  
 LBBB 103-110

**M**

Meksiletin 265-268  
 Meta-analiz 130-136  
 Mezenter iskemisi 248-250  
 Miksoma 210-216  
 Mitral yetersizlik 195-199  
 Miyokardiyal fibrozis 206-209  
 Miyokardiyal revaskülarizasyon 69-71  
 Miyokart infarktüsü 91-97  
 Miyokart perfüzyon sintigrafisi 111-115  
 Monosit sayısı 7-12, 30-35  
 Monosit/yüksek dansiteli lipoprotein oranı 13-18  
 Mortalite 24-29, 116-120

**N-O**

Nonbakteriyel trombotik endokardit 269-271  
 Nozokomiyal infeksiyon 121-124  
 Nötrofil/lenfosit oranı 53-58  
 Off-pump koroner arter baypas 168-171  
 Oksidatif stres 217-223  
 Opak 251-252

**P**

P dalga dispersiyonu 1-6, 19-23, 111-115  
 Paratiroid hormon 91-97  
 Parçalı QRS 206-209  
 Periferik vasküler hastalıklar 262-264  
 Perikardiyal efüzyon 53-58  
 Perikardiyal kist 276  
 Perikardiyosentez 253-255  
 Perikart efüzyonu 182  
 Perkütan mitral balon valvüloplasti 1-6  
 Perkütan transluminal anjiyoplasti 159-161  
 Pinch-off sendromu 179-181  
 Platelet/lenfosit oranı 53-58  
 Postoperatif komplikasyon 47-52  
 Primer perkütan koroner girişim 13-18, 130-136  
 Psoriasis vulgaris 40-46  
 Psödoanevrizma 87-89  
 Pulmoner alveol 69-71  
 Pulmoner arter 153-156

**Q-R**

QTc dispersiyonu 19-23  
 Radyal arter spazmı 274-275  
 Retrograd koroner diseksiyon 78-80  
 Romatizmal mitral darlık 1-6  
 Romatizmal mitral kapak darlığı 175-178  
 Rotasyon ve büküm 125-129  
 Rüptür 72-74

**S**

Safen ven greft hastalığı 7-12  
 Sağ parasternal görüntü 165-167  
 Santral venöz port 179-181  
 Sarmak 168-171  
 Sol atrial fonksiyon 185-194  
 Sol atrial strain 185-194  
 Sol atriyal trombüs 175-178  
 Sol ventrikül fonksiyonları 40-46

Speckle tracking ekokardiyografi 40-46  
Spondilit 162-164  
ST elevasyonlu miyokart infarktüsü 130-136  
Statin 240-247  
Stent 159-161, 248-250  
Stent greft 36-39  
Strain 224-229, 235-239  
Strain rate 224-229  
ST-segment yükselmeli miyokart infarktüsü 13-18

## T

Takayasu arteriti 84-86  
Tamponad 253-255  
Tek koroner arter 273  
Tiyol disülfid dengesi 217-223  
Torasik endovasküler aortik onarım 36-39  
Tpeak-Tend 103-110  
Tromboemboli riski 200-205  
Trombosit lenfosit oranı 24-29, 200-205  
Trombositopeni 47-52  
Tromboz 24-29, 269-271

## U-V

Umblikal ven kateterizasyonu 269-271  
Uygunsuz ICD şoklama 230-234  
Uzamış QT 265-268  
Valsalva sinüsü 72-74  
Vücut geliştirici sporcular 185-194

## Y

Yaşlanma 125-129  
Yenidoğan 269-271  
Yoğun bakım 121-124  
Yüksek dansiteli lipoprotein kolesterol 30-35  
Yüksek dansiteli lipoprotein kolesterol 7-12  
Yüksek sensitif C-reaktif protein 53-58

Haemorrhage 69-71  
 Heart injuries 116-120  
 Heart rate recovery 217-223  
 High-density lipoprotein cholesterol 7-12, 30-35  
 High-sensitivity C-reactive protein 53-58  
 Hypertension 143-147

**I**

Iliac aneurysm 262-264  
 Iloprost therapy 256-258  
 In hospital mortality 116-120  
 Inappropriate ICD shock 230-234  
 Inferior vena cava 157-158  
 Inflammation 24-29, 217-223  
 Intensive care unit 121-124  
 Ischemia 148-152  
 Ischemia-modified albumin 148-152

**L**

LBBB 103-110  
 Left atrial function 185-194  
 Left atrial strain 185-194  
 Left atrial thrombus 175-178  
 Left ventricular functions 40-46  
 Low-molecular-weight-heparin 69-71

**M**

Mesenteric ischemia 248-250  
 Meta-analysis 130-136  
 Mexiletine 265-268  
 Mitral regurgitation 195-199  
 Monocyte count 7-12, 30-35  
 Monocyte to high-density lipoprotein cholesterol ratio 13-18  
 Mortality 24-29  
 Multiple vascular involvement 84-86  
 Myocardial fibrosis 206-209  
 Myocardial infarction 91-97  
 Myocardial perfusion scintigraphy 111-115  
 Myocardial revascularisation 69-71  
 Myxoma 210-216

**N-O**

Neonate 269-271  
 Neutrophil/lymphocyte ratio 53-58  
 Nonbacterial thrombotic endocarditis 269-271  
 Nosocomial infection 121-124  
 Off-pump coronary artery bypass 168-171  
 Opaque 251-252  
 Oxidative stress 217-223

**P**

P wave dispersion 111-115  
 Parathyroid hormone 91-97  
 Pediatrics 121-124  
 Percutaneous mitral balloon valvuloplasty 1-6  
 Percutaneous transluminal angioplasty 159-161  
 Pericardial cyst 276  
 Pericardial effusion 53-58, 182  
 Pericardiocentesis 253-255  
 Peripheral vascular diseases 262-264  
 Pinch-off syndrome 179-181  
 Platelet-lymphocyte ratio 24-29, 53-58, 200-205  
 Postoperative complication 47-52  
 Pregnancy 235-239  
 Primary percutaneous coronary intervention 13-18, 130-136  
 Prolonged QT 265-268  
 Pseudoaneurysm 87-89  
 Psoriasis vulgaris 40-46  
 Pulmonary alveolar spaces 69-71  
 Pulmonary artery 153-156  
 P-wave dispersion 19-23

## Q-R

QTc dispersion 19-23  
Radial artery spasm 274-275  
Radiofrequency catheter ablation 98-102  
Red cell distribution width 143-147  
Retrograde coronary dissection 78-80  
Rheumatic mitral stenosis 1-6, 175-178  
Right parasternal image 165-167  
Rotation and twist 125-129  
Rupture 72-74

## S

Saphenous vein graft disease 7-12  
Single coronary artery 273  
Sinus of valsalva 72-74  
Speckle tracking 185-194

Speckle tracking echocardiography 40-46  
Spondylitis 162-164  
ST segment elevation myocardial infarction 13-18, 130-136  
Statin 240-247  
Stent 159-161, 248-250  
Stent graft 36-39  
Strain 224-229, 235-239  
Strain rate 224-229  
Stroke 81-83  
Sudden cardiac death 66-68

## T

Tachycardia 98-102  
Takayasu arteritis 84-86  
Tamponade 253-255  
Thiol/disulfide homeostasis 217-223

Thoracic endovascular aortic repair 36-39  
Thrombocytopenia 47-52  
Thromboembolism risk 200-205  
Thrombosis 24-29, 269-271  
Tpeak-Tend 103-110  
Two-dimensional speckle tracking echocardiography 235-239

## U-W

Umbilical venous catheter 269-271  
Waist circumference 98-102  
Wrapping 168-171
