SCOPE OF JOURNAL

- The Turkish Journal of Veterinary and Animal Sciences is published electronically 6 times a year by the Scientific and Technological Research Council of Turkey (TÜBİTAK).
- Accepts English-language manuscripts on all aspects of veterinary medicine and animal sciences.
- Contribution is open to researchers of all nationalities.
- Original research articles, review articles, short communications, case reports, and letters to the editor are welcome.
- Manuscripts related to economically important large and small farm animals, poultry, equine species, aquatic species, and bees, as well as companion animals such as dogs, cats, and cage birds, are particularly welcome.
- Contributions related to laboratory animals are only accepted for publication with the understanding that the subject is crucial for veterinary medicine and animal science.
- Manuscripts written on the subjects of basic sciences and clinical sciences related to veterinary medicine, nutrition, and nutritional diseases, as well as the breeding and husbandry of the above-mentioned animals and the hygiene and technology of food of animal origin, have priority for publication in the journal.
- A manuscript suggesting that animals have been subjected to adverse, stressful, or harsh conditions or treatment will not be processed for publication unless it has been approved by an institutional animal care committee or the equivalent thereof.
- The editor and the peer reviewers reserve the right to reject papers on ethical grounds when, in their opinion, the severity of experimental procedures to which animals are subjected is not justified by the scientific value or originality of the information being sought by the author(s).

## CONTENTS

The influence of haptoglobin phenotype on differential leukocyte count in neonatal calves ................................................................. 177
Elena KALAEVA, Olga ZEMLYANUKHINA, Vladislav KALAEV, Kseniya EFIMOVA, Anton CHERNITSKIY, Nikolay KAVERIN, Vladimir SAFONOV

Ovarian stimulation induces high expression of interleukin-1β and disrupts the histological features of the fallopian tube .................................................................................................................................................................................... 186
Mahmoud MOUSSA, Sameh Mohamed FAROUK

Optimized oral supplementation of vitamins improves feed intake and rumen microbial protein synthesis in Deoni cows ....................................................................................................................................................................................... 197
Ashwin KANDATHIL, Srinivas BANDLA

Evaluation of the in vivo efficacy of pumpkin (*Cucurbita pepo*) seeds against gastrointestinal helminths of chickens ...... 206
Jezie A. ACORDA, Imma Ysabela Emille C. MANGUBAT, Billy P. DIVINA

A comparative phylotyping analysis of *E. coli* originating from avian colibacillosis based on the Clermont triplex scheme and gyrA gene sequencing ................................................................................................................................................ 212
Mohsen AMIRI, Elham AHMADI

Methods of diagnosis and treatment of postpartum uterine infection adopted by Algerian veterinarians ........................................ 218
Hamza RAHAB, Alessandro RICCI, Ahmed KASSAH-LAOUAR, Christian HANZEN

Proliferation effects of phenylboronic acid and boric acid on canine peripheral blood mononuclear cells ........................................ 229
Uçkun Sait UÇAN, Zafer SAYIN

Sequence characterization of full-length S, gene of infectious bronchitis viruses isolated from poultry farms in Khorasan Razavi, Iran ....................................................................................................................................................................................... 235
Yeganeh YOUSEFI, Mohammad Reza BASSAMI, Gholam Ali KALIDARI, Mohammd Mehdi GAHARAMAN SENO

Effects of the Feeds Containing Hazelnut Meal as Plant Protein Source on Growth Performance and Body Composition of Siberian sturgeon (*Acipenser baeri*) and Economic Profitability Value .................................................................................................................................................................................................................................................................................................................. 244
Huriye ARIMAN KARABULUT, İlker Zeki KURTOĞLU, Yunus Emre KİRTAN

Correlations between egg weight, early embryonic development, and some hatching characteristics of Japanese quail (*Coturnix japonica*) ................................................................................................................................................................253
Beata GRZEGRZÖLKA, Joanna GRUSZCZYŃSKA

Evaluation of milk glutathione peroxidase and superoxide dismutase levels in subclinical mastitis in Damascus goats...... 259
İsfendiyar DARBAZ, Seçkin SALAR, Serkan SAYINER, İdil BAŞTAN, Osman ERGENE, Ayhan BAŞTAN

Management of a *Coxiella burnetii*-infected sheep flock after an outbreak of Q fever in humans................................................. 264
Jana AVBERŠEK, Mateja PATE, Andrej ŠKIBIN, Matjaž OCEPEK, Brane KRT

Assessment of asymmetric dimethyl arginine, cardiac troponin I, thyroxine, cholesterol, and triglyceride levels in obese dogs and dogs with normal body condition .................................................................................................................................................................................. 271
Hüseyin CİHAN, Merve TURAL

Accumulation and histological transformation in the gills, liver, muscles, and skin in *Oreochromis niloticus* induced by mercury .................................................................................................................................................................................. 276
Khalid Abdullah AL-GHANIM, Zubair AHMAD, Hmoud Alkahem AL-BALAWI, Fahad AL-MISNED, Shahid MAHBOOB, El-Amin SULIMAN

Electrocardiogram and serum cardiac biomarkers changes in FMD in cattle .................................................................................................................. 285
Ali Abbas NIKVAND, Seyedeh Misagh JALALI, Mohammad NOURI, Alireza GHADRDAN MASHHADI, Soroush HASSANPOUR AMIRABADI

Prolonged gestation in a Swedish Red cow due to fetal unilateral adrenal gland dysgenesis .................................................................................................................................................................................. 292
Ebru KARAKAYA BİLEN, Ahmet AKKOÇ, Barış GÜNER, Gulin YILMAZBAŞ MECİTOĞLU, Ahmet GÜMEN, Abdulkadir KESKİN

Management of dystocia due to unilateral uterine torsion in a Labrador bitch: a surgical approach.................................................. 296
Sameer Ali MOHAMED, Kavitha KANNAN, Arunmozh Narayanasamy, Sankar PALANISAMY, Sridevi PURUSHOTHAMAN
