EDITORIAL

Our dear readers,

As all healthcare professionals, we are proud to have raised the 3rd issue of this year in a process where we continue to fight the Covid-19 outbreak with great effort and dedication. I wish convenience to all of our healthcare professionals during this difficult period that this process will be overcome with the least possible damage that the whole world has gone through. In this issue of our journal, we are here with three research articles, two case reports and an up-to-date and comprehensive review. Our research articles are about the evaluation of left ventricular diastolic functions in obstructive sleep apnea syndrome, the examination of the attitudes of HIV positive patients and HIV negative patients over 65 years of age against influenza and pneumococcal vaccines, and the examination of the relationship between hematological parameters and disease activity in inflammatory bowel disease. Our case reports are about herpes zoster infection developing in a patient with rheumatoid arthritis and the successful treatment of hemophilia associated with gallbladder cancer. Our review examines inflammatory bowel diseases and genetics. We are working hard to increase the scientific quality of our journal day by day. We offer our endless thanks to all contributors and authors. Stay in soundness, with the hope of this issue of our magazine will be beneficial to our readers.

Sincerely yours,

Assoc. Prof. Dr. Alpaslan TANOGLU
Editor in Chief

EDİTÖRDEN

Çok değerli okuyucularımız,

Tüm sağlık çalışanları olarak büyük emek ve özveri ile Covid-19 salgınına karşı savaşa devam ettiğimiz bir süreçte bu yılın 3. sayısını çıkartmış olmanın gururunu yaşamaktayız. Tüm dünyanın içinden geçtiği bu zor dönemde, mümkün olan en az hasarla bu sürecin atlatılması umudunu taşıyarak tüm sağlık çalışanı mesai arkadaşlarımıza kolaylıklar diliyorum. Dergimizin bu sayısında ilginizi çekeceğini düşündüğümüz üç araştırma makalesi, iki olgu sunumu, güncel ve kapsamlı bir derleme ile karşınızdayız. Araştırma makalelerimiz; obstrüktif uyku apne sendromunda sol ventrikül diastolik fonksiyonlarının değerlendirilmesi, HIV pozitif hastalar ile 65 yaş üzeri HIV negatif hastaların influenza ve pnömokok aşılmasına karşı tutumlarının incelenmesi ve inflamatuvar bağırsak hastalığında hematolojik parametreler ile hastalık aktivitesi arasındaki ilişkinin irdelenmesi konularıyla ilgilidir. Olgu sunumlarımız; romatoid artritli bir hastada gelişen herpes zoster enfeksiyonu ve safra kesesi kanserine bağlı gelişen hemobilinin başarılı tedavisi hakkındadır. Derlememiz ise inflamatuvar barsak hastalıkları ve genetik konusunu irdellemektedir. Dergimizin bilimsel kalitesini her geçen gün daha da artırmak için yoğun çaba sarf etmekteyiz. Tüm emeği geçenlere ve yazarlara sonsuz teşekkürlerimizi sunuyoruz. Dergimizin bu sayısının okuyucularımıza faydalı olması ümidiyle, esen kalın.

Saygılarımla,

Doç. Dr. Alpaslan TANOĞLU
Baş Editör
