

Subject index

- 2,4-diclorophenoxypropionic acid**, Effects of 2,4-diclorophenoxypropionic acid (2,4-DP) applications on the yield and fruit quality criteria of Star Ruby grapefruit (*Citrus × paradisi* Macfad.). 29: 39
- Abamectin**, *Tetranychus urticae* Antalya populusyonunda spinosad'ın etkisi ve abamectin direncinin stabilitesi. 29: 99
- Aggregate**, The role of Bio-Fertilizer amendments on aggregate formation. 29: 131
- Antalya**,
 Evaluation of temperature-humidity index values on dairy cattle in Antalya conditions. 29: 27
 Analysis of the gardens from Seljuk period in Antalya. 29: 55
 The evaluation of some urban roads in terms of plant materials and planting design in Antalya. 29: 105
- Barley cultivars**, Determination of the reactions of some barley (*Hordeum vulgare* L.) landraces and cultivars to *Drechslera graminea*. 29: 43
- Bio-Fertilizer**, The role of Bio-Fertilizer amendments on aggregate formation. 29: 131
- Black myrtle**, Seasonal variation of fruit traits and leaf essential oil compositions in black and white myrtle (*Myrtus communis*). 29: 85
- Cucurbita pepo L.**, The research of Biotypes B and Q of *Bemisia tabaci* (Genn.) (Hemiptera:Aleyrodidae) in terms of create silverleaf symptom on squash (*Cucurbita pepo* L.). 29: 49
- Early embryogenesis**, Effects of high thermal manipulations during early and late embryogenesis on growth characteristics of broilers. 29: 149
- Embryo**, Effects of high thermal manipulations during early and late embryogenesis on growth characteristics of broilers. 29: 149
- Fababean**, Effect of different sowing dates on root rot and wilt fungi of fababean (*Vicia faba*) varieties. 29: 93
- Foliar application**, The influence of foliar humic acid applications on nutrition status, yield and quality in open tomato growing. 29: 21
- Fruit quality**, Effects of 2,4-diclorophenoxypropionic acid (2,4-DP) applications on the yield and fruit quality criteria of Star Ruby grapefruit (*Citrus × paradisi* Macfad.). 29: 39
- Fruit traits**, Seasonal variation of fruit traits and leaf essential oil compositions in black and white myrtle (*Myrtus communis*). 29: 85
- Fungi**, Effect of different sowing dates on root rot and wilt fungi of fababean (*Vicia faba*) varieties. 29: 93
- Gardens from**, Analysis of the gardens from Seljuk period in Antalya. 29: 55
- High thermal manipulation**, Effects of high thermal manipulations during early and late embryogenesis on growth characteristics of broilers. 29: 149
- Incompatibility**, Self incompatibility mechanism in apricot (*Prunus armeniaca*). 29: 125
- Karayaka sheep**, Effects of lactation number on milk yield and composition in Karayaka sheep. 29: 143
- Lactation number**, Effects of lactation number on milk yield and composition in Karayaka sheep. 29: 143
- Landscape protection**, Assessment of landscape change in the Manavgat River Basin in the context of landscape protection, planning and management. 29: 65
- Late embryogenesis**, Effects of high thermal manipulations during early and late embryogenesis on growth characteristics of broilers. 29: 149
- Leaf essential oil composition**, Seasonal variation of fruit traits and leaf essential oil compositions in black and white myrtle (*Myrtus communis*). 29: 85
- Management**, Assessment of landscape change in the Manavgat River Basin in the context of landscape protection, planning and management. 29: 65
- Manavgat**, Assessment of landscape change in the Manavgat River Basin in the context of landscape protection, planning and management. 29: 65
- Mitochondrial cytochrome oxidase**, Determination of genetic variation of tomato leafminer [*Tuta absoluta* (Meyrick) (Lepidoptera: Gelechiidae)] populations from west mediterranean region of Turkey based on mitochondrial cytochrome oxidase I (mtCOI). 29: 5
- Myrtus communis**, Seasonal variation of fruit traits and leaf essential oil compositions in black and white myrtle (*Myrtus communis*). 29: 85
- Open tomato growing**, The influence of foliar humic acid applications on nutrition status, yield and quality in open tomato growing. 29: 21
- Physicochemical characteristic**, Effects of the different growing systems on the physicochemical characteristics of strawberry (*Fragaria × ananassa* Duch.) fruit. 29: 33
- Planning**, Assessment of landscape change in the Manavgat River Basin in the context of landscape protection, planning and management. 29: 65
- Plant material**, The evaluation of some urban roads in terms of plant materials and planting design in Antalya. 29: 105
- Planting design**, The evaluation of some urban roads in terms of plant materials and planting design in Antalya. 29: 105

- Production cost**, Production cost and profitability of banana in Turkey. 29: 73
- Profitability**, Production cost and profitability of banana in Turkey. 29: 73
- Punjab**, Rural to urban migration and crop productivity: evidence from Pakistani Punjab. 29: 17
- Root rot**, Effect of different sowing dates on root rot and wilt fungi of fababean (*Vicia faba*) varieties. 29: 93
- Seasonal variation**, Seasonal variation of fruit traits and leaf essential oil compositions in black and white myrtle (*Myrtus communis*). 29: 85
- Seljuk period**, Analysis of the gardens from Seljuk period in Antalya. 29: 55
- Silverleaf**, The research of Biotypes B and Q of *Bemisia tabaci* (Genn.) (Hemiptera:Aleyrodidae) in terms of create silverleaf symptom on squash (*Cucurbita pepo* L.). 29: 49
- Solanum lycopersicum**, Evaluation of asid usage routines in greenhouse tomato (*Solanum lycopersicum*) cultivation in the central district of Antalya. 29: 139
- Strawberry**, Effects of the different growing systems on the physicochemical characteristics of strawberry (*Fragaria × ananassa* Duch.) fruit. 29: 33
- Tomato leafminer**, Determination of genetic variation of tomato leafminer [*Tuta absoluta* (Meyrick) (Lepidoptera: Gelechiidae)] populations from west mediterranean region of Turkey based on mitochondrial cytochrome oxidase I (mtCOI). 29: 5
- Tokat**, Examination of work accidents happened with the tractors and agricultural machinery in Tokat's districts. 29: 117
- Turkey**, Production cost and profitability of banana in Turkey. 29: 73
- Vicia faba**, Effect of different sowing dates on root rot and wilt fungi of fababean (*Vicia faba*) varieties. 29: 93
- Water stress**, Effects of water stress on stomatal characteristics of peanut (*Arachis hypogaea* L.). 29: 79
- West mediterranean region**, Determination of genetic variation of tomato leafminer [*Tuta absoluta* (Meyrick) (Lepidoptera: Gelechiidae)] populations from west mediterranean region of Turkey based on mitochondrial cytochrome oxidase I (mtCOI). 29: 5
- White myrtle**, Seasonal variation of fruit traits and leaf essential oil compositions in black and white myrtle (*Myrtus communis*). 29: 85
- Wilt**, Effect of different sowing dates on root rot and wilt fungi of fababean (*Vicia faba*) varieties. 29: 93
- Yield**, Effects of 2,4-diclorophenoxypropionic acid (2,4-DP) applications on the yield and fruit quality criteria of Star Ruby grapefruit (*Citrus × paradisi* Macfad.). 29: 39
