

# SURELİ YAYINLAR

## **CİM Buletin**

**MARCH 1993**

### **103. Coal Marketing:**

**The importance and recent advances in geological coal quality studies in Alberta;**

**D.E. Macdonald, C.W. Langenberg and R.S.Strobl,**

### **109. Mineral Economics:**

**A new tool in financial decision-making under uncertainty;**

**J.L. Collins**

### **116. Industrial Minerals:**

**The potential application of natural minerals in ceramic and metal-matrix composites;**

**W.F. Caley, G.I. Kipouros,**

### **122. Environment:**

**LIFAC- economical solution to SO<sub>2</sub> control;**

**M.E. Ball, D.W. Smith, SaskPower, and J.J. Koskinen, T.A. Enwald,**

### **126. Mine Development:**

**Planning and Development of Syncrude's new truck and shovel oilsands mine;**

**J. MacNeil**

### **132. Mineral Processing:**

**Flourite occurrences in Canada and processing studies at CANMET**

**P.R.A. Andrews and R.K. Collings**

**138. The design of baffles to reduce axial mixing in flotation columns**

**M.H. Moys, J.A. Engelbrecht and A.N. Terblanche**

### **144. Discussion and Reply:**

**Mineral deposit evaluation and reserve inventory practice**

**D. Wortman, H.K. Taylor, M. Vallée**

### **167. Milling:**

**Alternative technology to decrease the environmental impact of gold milling-a progress report on CANMET research activities in this field**

**P.A. Riveros, R.E. Molnar and V.M. McNamara**

**APRIL 1993**

### **39. Health and Safety:**

**Statistical analysis of U.S. coal mine dust exposure in continuous mining sections: 1971-1990**

**L. Xu, R. Bhaskar and A. Vazimegad**

**46. Intelligent P&IDs, their creation and use in process hazard analysis of refineries and chemical plants**

**D. Catena, J.T. Dietz, T.D. Traubert**

### **50. Underground Communications:**

**PED-an improvement in mine communications**

**S.L. Gula**

### **54. Safety:**

**Successful loss control**

**B.R. Casement**

**57. Education:**  
Training of mining engineers in the United States, Great Britain and Southern Africa  
A.E. Hall

**65. Reserve Estimation:**  
Quality control requirements for more reliable mineral deposit and reserve estimates  
Marcel Vallée, Michel Dagbert, Denis Cote

**76 Discussion and Reply:**  
Psychrometric analysis of ventilating air at Middle Anatolian lignite mine (OAL), Turkey  
Discussion-A.E. Hall  
Reply-T. Güyagüler

**94. Metallurgy:**  
Computer-assisted control of the Nöronda Process

Y. Prévost

---

MAY 1993

**35. Mineral Processing:**  
Column flotation circuit design at Les Mines Selbaie  
R. del Villar, H. Soto, P. Lacombe

**41. Mine Design:**  
Mine planning and design integration  
E. Gebhardt

**50. Coal Preparation:**  
The role of coal preparation plant performance testing in improving clean coal recovery  
M.W. Mikhail, A.I.A. Salama, O.E. Humeniuk

**55. Underground Mining:**  
Computer design of underground mine dewater systems  
E.M. DE Souza, R. Penner

**60. Maintenance:**  
How Dome increased maintenance effectiveness and reduced costs  
K. Musgrave, E. Sulis

**64. Human Resources:**  
Application of work renovation planning and systems performance training at Rio Algom's Stenleigh operations  
B. Arthur, A.E. Este

**70. Education:**  
Development of human resources for the mineral industries-the supply side: technical schools and university graduates  
J.E. Udd

**75. Geostatics:**  
The practice of sampling theory of broken ores  
D. François-Bongarçon

**82. Discussion and Authors' Reply**  
Conveyor Systems Design and Application for Surface Mining

Industrial Minerals

---

APRIL 1993

**19. Minerals in the European plastics**  
Polypropylene in the driving seat

**36. Fluorspar producers**  
Cracks in the Chinese Wall?

**51. Fluorspar's future fortunes  
Abstracts**

**JULY 1993**

**55. Norway's industrial minerals  
Production & development trends**

**21. Fluorspar's future fortunes  
Play it again Samine**

**64. Lac de Gras**

**25. Moroccan company profiles**

**Canada's Arctic diamond play**

**35. Coated PCC's in sealant applica-  
tions**

**MAY 1993**

**25. Annual Report Highlights**

**45. Chinese rare earths The dragon-  
has entered**

**29. Minerals in water and effluent  
treatment**

**50. IM Index 1993 January-June**

**41. Water filtration through granular  
materials**

**Institution of Mining  
and Metallurgy**

**MAY - AUGUST 1993**

---

**47. Portugal's Minerals  
The next dimension**

**69. The changing German market for  
ceramics**

**A71. Environmental significance of  
heterogeneous metal distributor in  
historical Pb-Zn mine tailings heaps  
G. Merrington and B.J. Alio way**

**JUNE 1993**

---

**27. Investment casting  
Moulding the future**

**A75. Leaching characteristics of  
heavy metals from three historical Pb-  
Zn mine tailings in the United King-  
dom  
G. Merrington and B.J. Alloway**

**39. Refractory abstracts**

**45. Fused alumina aggregate  
Grain shape influence on brick quali-  
ty**

**A83. Computerized mine planning for  
medium-size open-pits  
G.H. Blackwell**

**55. Celestite & strontianite  
Review of ore processing and exploi-  
tation**

**A89. Use of object-oriented simulation  
model to asses operating and equip-  
ment options for underground mine  
transport system  
W.K. Mutagwaba, J.A. Hudson**

**A95. Open-pit optimization-part 1: op-**

timal open-pit design  
PA. Dowd and A.H. Onur

A105. Open-pit optimization-part  
2 production scheduling and inclu-  
sion of roadways  
P.A. Dowd and A.H. Onur

A114. Dual-porosity poroelastic ap-  
proach to behaviour of porous media  
over a mining panel  
Mao Bai and Derek Elsworth

A125. Computer-based optimization  
for open-pit mining sequences  
Shuzhang Huang

A134. Performance of overcoring  
stress measurement devices in various  
rock types and conditions  
M. Cai and L.J. Thomas

A141. Computerized mine manage-  
ment at Fenyöfö Bauxite mine, Hun-  
gary  
E. Lohrmann and T. Podanyi

A148. Discussion:  
Components of a recovery factor in  
gold and tin dredging  
R.H.T. Gamett

A149. Computers and blasting  
T.J. White and R.A. Famfield

A151. The state of gold mining in  
Ghana  
D. Mireku-Gyimah and R.S. Suglo

MAY - AUGUST 1993

B55. New-strata-bound barite and  
base metals in Middle Dalradian

rocks near Braemar, Northeast Scot-  
land  
N.J. Fortley et al.

B65. Source characterization of alluvi-  
al gold from mineral inclusions and in-  
ternal compositional variation  
R.C. Leake, D.J. Bland, and C. Cooper

B83. Geology and genesis of Upper  
Palaeozoic massive sulphide deposits  
of South China  
Gu Lianxing et al.

B97. Use of geostatics to model geolo-  
gy-vein distribution in a complex peg-  
matite-type deposit  
D.J. Barker and J.H. Lally

B103. Platinum-group element miner-  
alization in chromite-rich rocks of Bra-  
gança massif, northern Portugal  
J.C. Bridges et al.

B114. Crocidolite and magnesite as-  
sociated with Lake Superior-type  
banded iron formation in Chapere  
Group of eastern Andes, Bolivia  
S.D. Redwood

B123. Mineralogical, stable isotope  
and fluid inclusion studies of copper-  
bearing hydrothermal vein deposits in  
Goseong mining district, Gyeongsang  
basin, Korea  
Sang-Hoon Choi, Chil-Sup So, Jae-Ho  
Lee

MAY - AUGUST 1993

C75. Mineralogical study of products  
collected following pilot-scale smelt-  
ing of some Western Australian nickel  
sulphide concentrates

J.G. Dunn et al.

**C83. Effects of caustic concentration and bauxite composition on economics of Bayer alumina plants**

A.M. Champagnie, P.L. Douglas and S.K. Mallick

**C93. Influence of oxygen, hydrogen peroxide and Oxone on dissolution of gold from pyrite ore**

M. Stoychevski and L.R. Williams

**C99. Fundamental aspects of fused-salt electrorefining of zinc**

K.J. Driscoll and D.J. Fray

**CI09. Fused-salt electrorefining of zinc using recessed-channel electrodes**

K.J. Driscoll and D.J. Fray

**CI 18. Reduction of Miller chlorides with sodium-oxide containing reagents**

C.A. Pickles and J.M. Toguri

**C125. Role of segregation process atmosphere in formation and composition of ferronickel grains**

Izabela Hudyma

**Technical Notes**

**C130. Sulphation of Carajas manganese ore with gaseous SO<sub>2</sub>**

L.R. Freitas, J.C. Amoral and C.F. Mendonça

**CI 32. Bénéficiât ion of iron ores by column flotation**

G. Bhaskar Raju, S. Prabhakar and C Sankaran

**CI35. Ring electrodes for estimation of gas hold-up and identification of process disturbances in Jameson cell downcomer**

A.J. Summers, M. Xu and J.A. Finch

**International Journal of Mineral Processing**

**MAY 1993**

---

**1. Surface spectroscopic techniques applied to the study of mineral processing**

A.M. Marabini, G. Contini and C. Cozza

**21. Parameter and configuration optimization of flotation circuits, part 1. A review of prior work**

J.C. Yingling

**41. Parameter and configuration optimization of flotation circuits, part 2. A new approach**

J.C. Yingling

**67. The slip of a single particle on the inside of a rotating cylinder. Part 1. Theoretical analysis**

M.B. Nates, G.N. Nurick and B.D. Reddy

**81. The slip of a single particle on the inside of a rotating cylinder. Part 2. Experimental investigation**

M.B. Nates, G.N. Nurick and B.D. Reddy

**93. SIMS and SIMS imaging studies of adsorbed dialkyl dithiophosphinates on PbS crystal surfaces**

J.S. Brinen, S. Greenhouse, D.R. Nagaraj and J. Lee

**111. Extraction of potassium from-glaucconitic sandstone by the roast-leach method**

A.K. Mazumder, T. Sharma, T.C. Rao

**125. Dielectrical analysis of xanthate adsorption on galena in the presence of dextrin**

J. Bessiere and A. Etahiri

**141. Selective separation of arsenopyrite from an auriferous pyrite concentrate by sulphonate flotation**

K.A. Kydros, K.A. Matis, I.N. Papadoyannis and P. Mavros

**Book Reviews:**

**153. Extractive Metallurgy of Vanadium, by C.K. and N. Krishnamurthy-MR. Thomber**

**154. Flotation of Sulphide Minerals 1990, by K.S.E. Forssberg(Editor)-J. Mielczarski**

**International Journal of  
Rock mechanics and  
Mining Sciences and  
Geomechanics  
Abstracts.**

**APRIL 1993**

---

**71. Evaluation of groundwater flow into mined panels**

Z. Ouyang and D. Elsworth

**81. The effect of factional fill thick-**

**ness on the shear strength of rock discontinuities**

T.Papaliangas, S.R. Hencher, A.C. Lumsden and S. Manolopoulou

**93. Large-scale two-dimensional block caving model tests**

R.L. McNeary and Y. Mizuta

**111. Three-dimensional elastic analysis by the Displacement Discontinuity Method with boundary division into triangular leaf elements**

K. Kuriyama and Y. Mizuta

**125. A general constitutive equation for transient and stationary creep of rock salt**

N.D. Critescu

**141. Fracture mechanics analysis of the North West Fault Block of the Prudhoe Bay Field**

H.C.M. Chan

**151. Determination of discontinuity wall strength Equotip and ball rebound tests**

H.R.G.K. Hack, J. Hingira and W. Verwaal

**157. Observations on the measurement of tensile strength using the hoop test**

C. Butenuth, M.H. de Freitas, D. Al-Samahiji, H.D. Park, J.W. Cosgrove and K. Schetelig

**163. Understanding jointed rock mass behaviour using a ubiquitous joint approach**

V.N. Kazakidis and M.S. Diederichs

**173. Fractal dimension and fracture**

of brittle rocks

H. Nagahama and K. Yoshii

### JUNE 1993

**177. An experimental investigation into hydraulic fracture propagation-Part 1. Experimental facilities**

F. Guo, N.R. Morgenstem and J.D. Scott

**189. An experimental investigation into hydraulic fracture propagation-Part 2. Single well tests**

F. Guo, N.R. Morgenstem and J.D. Scott

**203. An experimental study of well communication by hydraulic fracturing**

F. Guo, N.R. Morgenstem and J.D. Scott

**219. Determination of creep parameters of rock salt by means of an in situ sharp cone test**

M.H. Leite, B. Ladanyi and D.E. Gill

**233. Growth of a crack produced by hydraulic fracture in a poroelastic medium**

Yu. N. Gordeyev

**239. Foundation behaviour in reusable tunnels in weak rocks**

P.A. Hart

**247. Control performance of servo-controlled testing machines in compression and creep tests**

S. Okubo, K. Fukui and Y. Nishimatsu

**257. An investigation of the mechanics of rock joints-Part 1. Laboratory investigation**

X. Huang, B.C. Hcrimson, M.E. Plesha and X. Qiu

**271. An investigation of the mechanics of rock joints-Part 2. analytical investigation**

X. Huang, B.C. Haimson, M.E. Plesha and X. Qiu

**289. Infiltration effects in the tensile rupture of thin walled cylinders of glass and granite: implications for the hydraulic fracturing breakdown equation**

D.R. Schmitt and M.D. Zoback

**305. Crack development and acoustic emission in potash rock**

V. Mlakar, F.P. Hassani and M. Momeyaz

**321. A suggested improvement to the Schmidt rebound hardness ISRM suggested method with particular reference to rock machineability**

R.M. Gökten and C. Ayday

## MINING ENGINEERING

### MARCH 1993

---

**235. Interview with Donald W. Gentry, 1993 SME President**

Tim O'Neil

**239. Using geostatistical software to manage panel caving operations**

W.D. Rech, E.B. Jensen, G. Hauk, D.R. Stewart

**244. TECHNOLOGY NEWS: Sandvik discusses basic mechanics of top-hammer drilling**

Rainer Beccu

**245. TECHNOLOGY NEWS: Cost of ownership is major consideration in flowmeter selection**

RicHines

**257. Recent expansion of Morenci's in-pit crushing and conveying system**

W.M. Dowall, and T.B. Linde

**263. Optimizing oil sands conveying through field measurements**

Roger E. Melley, Sheldon B. Bland and James E. McTurk

**268. Intermediate booster drives**

R.J. Wise and M. Alspaugh

**273. Mechanical belt fasteners increase conveyor availability**

Michael J. Feltes

**275. Conveyor belt engineering for the coal and mineral mining industries**

Lane White

**279. Troy Talc: An old deposit, a new development**

L.P. Meade

**284. Combining geostatistics and simulation to predict sulfur at a central Illinois coal mine**

T.D. Murphy and K.E. Brown

**288. New technology in shaft sinking at the Craig Project**

W.R. Dengler, W.M. Shaver and R. Te-

toumeau

**292. DISCUSSION: Determination of the optimum lifetime of a mining project using discounted cash flow**

APRIL 1993

**339. Amax Coal's Delta Mine: Medium-sized, high-sulfur operation survives market challenges**

Steve Krai

**344. Cyprus Miami property overview and mine modernization**

Gary W. LaChapelle and Jeffrey S. Dyas

**347. Productivity and flexibility of bucketwheel excavators and overland conveyor systems**

H. Michael Breza, Jerry M. Waters and Ross M. Smith

**351. Walking a dragline across the Wyoming prairie**

Kenneth R. Miller and Tanya R. Scott

**355. Evolution of mine information system at the Endako Mine**

Robert Jędrzejczak and Mike McDowell

**359. New technologies for the mining industry**

Jacques Nantel

**362. Review and highlights from the 1993 SME Annual Meeting and Exhibit in Reno, NV**

**389. Lead contamination at an older smelter site at Socorro, NM: Part I- Particle size and depth of contamination**

G.S. Austin, L.A. Brandvold, J.W. Hawley and Jacques Renault

**396. Lead contamination at an older smelter site at Socorro, NM: Part II-Laboratory tests**

G.S. Austin, L.A. Brandvold and Jacques Renault

**402. Estimating the rate of post-mining filling of pit lakes**

G.D. Naugle and L.C. Atkinson

**MAY 1993**

**SPECIAL ISSUE: 1992 Annual Review**

**461. Exploration**

**483. Mining**

**493. Coal**

**502. Processing**

**JUNE 1993**

**591. Sand and gravel: The new Klondike**

Herb Wilson

**593. Using image analysis to measure phosphate process-stream composition**

R.D. Grove, Michael F. Elliott and Ronald L. Wiegel

**596. Improved recovery of coarse Florida phosphate.**

Broderick E. Davis and G.D. Hood

**600. Kaolin filter aids: Key to improved plant productivity**

Lynn E. Bowman, Carol E. Downey, K. Jay Pillai and William J. Roe

**603. Alternative reductive bleaching process for kaolin**

Ellen S. Forbus, Raymond H. Young and Mitchell J. Willis

**606. Montana exploration**

R. McCulloch

**607. Gold and Silver**

Joseph Rosta

**609. Hydrometallurgy**

J.E. Lite

**609. Hydrometallurgy fundamentals**

Patrick R. Taylor

**610. Solution mining**

**621. 1993 Jackling Lecture: Blueprint for Protecting the Foreign Investment**

Milton H. Ward

**627. Real time section management: A new approach**

J.W. Oberholzer and S.C. Suboleski

**633. Development of direct reduction pellets containing MgO by Samarco Mineracao S/A**

J.A.M. Cano and F. Wendling

**JULY 1993**

**705. Peru's precious and base metals status and future prospects**

Merwin Bernstein and Pedro Ly

**710. What it's worth: A review of min-**

**eral royalty information**

**H. Lyn Bourne**

**714. Mine pillar design in 1993: Computers have become the opiate of the mining engineers**

**Jack Parker**

**718. Boron: A review of 1992 activities**

**J.C. Norman**

**720. Bromine: A review of 1992 activities**

**K.C. Williams**

**722. Clays: A review of 1992 activities**

**KL. Kayler**

**723. Phosphate rock: A review of 1992 activities**

**J.J. Barrels**

**724. Pumice and pumicite: A review of 1992 activities**

**G.C. Presley**

**725. Vermiculite: A review of 1992 activities**

**J.R. Hindman**

**726. TECH NEWS: Track bonding method reduces maintenance**

## **International Journal of Surface Mining and Reclamation**

**JANUARY 1993**

**1. Production scheduling optimization**

**in open pit mines**

**K. Fytas, J. Hadjigeorgiou & J.L. Collins**

**11. Damage to underground coal mines caused by surface blasting**

**A.B. Fourie & R.W. Green**

**17. Investigations into explosion characteristics of ANFO and granular aluminium mixtures**

**T. Evergen**

**23. A. Brief survey of current surface waste disposal practices in the metal mining industry**

**Mohsen Hossein, Ferri P. Hassani & Roland Leduc**

**29. Analysis of the strata buckling mechanism at the Grand-Baume coal mine, France**

**P. Choquet, J. Hadjigeorgiou, P. Manini, E. Mathieu, V. Soukatchoff & Y. Paquette**

**37. European black alder survival and growth responses to herbicide treatment on an eastern Kentucky vegetated coal surface mine excess spoil area after three and eight years**

**Donald H. Graves & James M. Ringe**

**41. Application of goal programming in open pit planning**

**Y.D. Zhang, Y.P. Cheng & J. Su**

**FEBRUARY 1993**

**47. Surface mine sod treatment effects on survival and growth of Virginia pine (*Pinus virginiana*) after two and eight years**

**Donald H. Graves & James M. Ringe**

**51. Some problems in economical evaluation of phosphate deposits**

Liu Min, Fan Tijun & Qinghai

**59. A new financial decision-making tool for the oil sands mining industry**

Jean-Luc Collins, Raj K. Singhal, Tan-Vo Van, Frederic Flament & Andre Galibois

**63. Generating decision maker preferred production plans**

Paul B. Appiah & John R. Sturgul

**69. Sensitivity analysis in pareto optimal stochastic mine planning**

Penal B. Appiah & John R. Sturgul

**77. Pareto optimality for rational comprehensive decision making**

Paul B. Appiah & John R. Sturgul

**81. An experimental study on the characteristics of the impact load of falling rock**

M. Ujihira, N. Takagai & T. Iwasa

**IMMIB**

*Yeni Nesil  
Patlayıcılar*

## TÜRKİYE'DE ARTIK EMÜLSİYON PATLAYICILAR VAR

- Çok emniyetlidir.
- Üstün kaya kırma özelliği vardır.
- Patlama hızı yüksektir.
- Isı değişimlerinden etkilenmez.
- Suya dayanıklıdır.
- Delikleri tam olarak doldurur.
- Topuk bırakmaz.
- Kullanımı çok güvenli ve kolaydır.
- Çok iyi parçalanma sağlar.
