

SÜRELİ YAYINLAR

CIMÖULLETİN

MARCH 2002

105 Valuation of mineral exploration properties using the cost approach

W.E. Roscoe

110 The U.S. mineral property valuation patchwork of regulations and standarts

T.R. Ellis

119 Reducing respirable dusts and fines through shearer drum desing in coal mines

O.Z. Hekimoglu , B. Tiryaki and M. Ayhan

124 Inclined slicing of a thick coal seam in ascending order—
A case study

A.K. Singh, R. Singh, M. Sarkar, P.K. Mandal and D. Sharma

129 Phase relations in the Cu_2S -FeS-ZnS and Cu_2S -PbS-ZnS ternary systems at 1473 °K: Extraction of zinc from sulphide ore using liquid copper as a reagent

CM. Nyamai, S. Surapunt and K. Itagaki

133 Grease-based öpen gear lubricants: Multi-service products — Development and evaluation
N. Samman and S.N. Lau

APRIL 2002

69 Estimation of leakage in ventilation ducting
G. Auld

75 Autogeneous milling — Effects on flotation of Mt. Lyell copper ore / Broyage autogene — Effets sur la flottation du minerai de cuivre de Mt. Lyell

N.C. Clarke, K.J. Henley, T. Wu and M. Le Page

82 Investigation of the deformation mechanism of underground excavations in salt and potash mines using in situ deformation measurements

S. Kwon and J.W. Wilson

87 Vanadium-bearing magnetite and ilmenite mineralization and beneficiation from the Sinasuk V-Ti project, West Greenland

T. Grammatikopoulus, A. McKen, C. Hamilton and O. Christiansen

96 Acid mine drainage prevention and control options

N. Kuyucak

103 Valuation of mineral properties without mineral resources:

A review of market-based approaches

R.D. Lavvrence

INTERNATIONAL JOURNAL OF ROCK MECHANICS AND MINING SCIENCES

APRIL 2002

287 Experimental and numerical study of the Kaiser effect in cyclic Brazilian tests with disk rotation,

A. Lavrov, A. Vervoort, M. Wevers and J. A. L. Napier

303 Dynamic finite element analysis of interceptive devices for falling rocks,

A. Cazzani, L. Mongiovî and T. Frenez

324 Automatic joint set clustering using a mixture of bivariate normal distributions,

D. Marcotte and E. Henry

335 Mechanical damage of an anisotropic porous rock in cyclic triaxial tests,

N. Gatelier, F. Pellet and B. Loret

355 Utilising the Hoek triaxial cell for multiaxial testing of hollow rock cylinders,
M. I. Alsayed

367 Damage in a rock core caused by induced tensile stress and its relation to differential strain curve analysis,
K. Sakaguchi, W. Iino and K. Matsuki

381 Derivation of parent fracture population statistics from trace length measurements of fractal fracture populations,
P. R. La Pointe

389 Seismic refraction mapping of fracture swarms in the Western Coalfield of New South Wales, Australia,
S. Greenhalgh and B. Zhou

395 Predicting the Schmidt hammer values of in-situ intact rock from core sample values,
S. Kahraman, M. Fener and O. Gunaydin

401 An empirical relation between mode I fracture toughness and the tensile strength of rock,
Z. X. Zhang

INDUSTRIAL MINERALS

MARCH 2002

37 Evi 15 Congress Bulletin

38 A coat for any occasion
Paper coating grade kaolin

44 Trends in papermaking
Pigment demand outstrips paper

54 Fuelling chemical innovation
Chinese flourspar to Japan

64 Transforming kaolin ore into high-performance products

APRIL 2002

36 15th Industrial Minerals International Congress

52 Rare earths supply and demand

66 Refined kaolin in China
Quality improvements needed to meet paper demand

72 Going underground
Czech bentonite in nuclear waste disposal

81 Another pinch of salt
European salt production

92 Energy saving considerations for rotary calciners

98 Process and quality control by X-ray analysis

MAY 2002

34 Thrills and spills
Swell times for absorbent minerals

42 Abracadabra
Has mica lost its magic?

50 European flat glass
A mineral supplier's viewpoint

56 Quality feldspar production at Çine Akmaden

60 Magnetic separation
Pulling power of Eriez Magnetics

MINERALS ENGINEERING

MARCH 2002

115 The moon then Mars
T. P. Meloy and M. C. Williams

123 Fine dry comminution of calcium carbonate in a Hicom mili with an Inprosys air classifier

R. M. Braun, J. Kolacz and D. I. Hoyer

131 Investigation flow conditions in dynamic air classification
J. Kolacz

139 Overview of flotation as a wastewater treatment technique
J. Rubio, M. L. Souza and R. W. Smith

157 Altair jig: an in-plant evaluation for fine coal cleaning
M. K. Mohanty, R. Q. Honaker and A. Patwardhan

167 Finding the variables of interest
S. Laine

177 An evaluation of steel scrap as a reducing agent in the galvanic stripping of iron from D2EHPA
J. Sun and T. J. O'Keefe

187 Sorption of Hg (II) by Potamogeton natans dead biomass
C. Lacher and R. W. Smith

Technical Notes

193 Radial electrostatic separator
A.I. Mesenyashin and I. M. Kravets

197 The option to improve the recovery of mill plant: When it should be exercised?
S. A. Abdel Sabour

201 an empirical study of factors influencing lime slaking. Part I : production and storage conditions
J. H. Potgieter, S. S. Potgieter, S. J. Moja and A. Mulaba-Bafubiandi

APRIL 2002

211 Mechanochemical treatment of high silica bauxite with lime
P.G. McCormick, T. Picaro and P. A. I. Simith

215 The influence of cathodic reduction, Fe²⁺ and Cu²⁺ ions on the electrochemical dissolution of chalcopyrite in acidic solution
A.E. Elsherief

225 The investigation of bubble column and foam processes using electrical capacitance tomography
M. A. Bennett, R. M. West, S. P. Luke and R. A. Williams

235 Residual moisture reduction in coarse coal centrifuges using air purging. Part 3. Commercial scale trials
D. Condie, B. Johnston, S. Nicol, M. Thomas and C. Veal

245 Residual moisture reduction in coarse coal centrifuges. 4. Theory, process engineering and costs
R. Benito, D. Condie, B. Johnston, S. Nicol and C. Veal

253 Dynamic simulator of a rougher flotation circuit for a copper sulphide ore
A. Casali, G. Gonzalez, H. Augusto and B.G. Vallebuona

263 Enhance dissolution of minerals: Conjoint effects of particle size and microtopography
D. Tromans and J. A. Meech

271 A study of synthetic forsterite refractory materials using waste serpentine cutting
T. W. Cheng, Y. C. Ding and J. P. Chiu

277 Dispersion of kaolinite and talc in aqueous solution: nano-morphology and nano-bubble entrapment
M. Zbik and R. St. C. Smart

Technical notes

287 A new possibility in eddy-current separation
R. Meier-Staude, Z. Schlett, M. Lungu and D. Baltateanu

293 Evaluation of new collectors for silica/glass sand and statistical analysis of plant trials
O. Bayat and H. Akarsu

' MINING ENGINEERING

MARCH 2002

37 Natural ventilation pressure in a deep salt mine - a case study

A.M. Wala, J. R. Stoltz, E. Thompson and S.Pattee

43 Homestake's Ruby hill Mine: a case study on how to streamline the NEPA process during mine permitting using properly designed and executed natural resource baseline studies

W. J. Reich, C.L. wilsey, MJ. Protani and K.M. Oakes

47 Technical note:

Joy entry-development system project

J.R. Frederick

51 Cyclonic flotation column for minerals beneficiation

R. Lai

MAY 2002

17 Mining overview

R. F. Balazik, L. McCartan, D.E. Morse and S.F. Sibley

26 Exploration overview

D. R. Wilburn

37 Coal overview

F. Freme

EMULITE

New Generation Explosives...

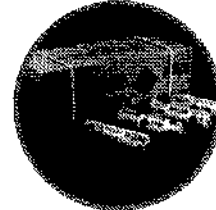

Nitro Mak

NITROMAK, with its extensive product range and blasting services has served the mining and construction sector since 15 years by providing safe, rapid and economically feasible solutions.

NITROMAK is the first explosives Company in Turkey;

- producing the new generation Emulsion explosives in the trade name of EMULITE,
- using NONEL which is known to be the most developed non-electric detonating system in the world,

Nitro Mak
