

# SÜRELİ YAYINLAR

## CIM BULLETIN

### JULY 2000

85 Intelligent Mine Implementation - Realization of a vision

P.S. Sarkka, J.A. Liimatainen and J. A.J. Pukkila

89 Open systems standards for computing in the mining industry

P.F. Knights and L.K. Daneshmend

93 Maintenance, repair, and operating supplies and inventories and the Internet

L.M. Scovell and W.S. Dunbar

96 Intelligent ore delineation: Integrating geosensing and geographical information systems

H.L. Francis, G.R. Baiden, D.F. Salter and M.J. Scoble

100 Strategic planning for Internet applications in mining

M.J. Scoble, S.Dessureault and E.Rubio

105 E-business, mining, and strategy

D.Clarry, K.Ruffo and L.Mottola

110 In-situ mechanical characterization of a paste backfill with a self-boring pressuremeter

J.Ouellet and S.Servant

### SEPTEMBER 2000

85 An infrastructure for surface mining equipment teleoperation

M.G. Lipsett

89 Analysis of the failure of a large hangingwall wedge: Kidd Mining Division, Falconbridge Limited

M.Board, S.Seldon, R.Brummer and R.Pakalnis

98 Optimization of lime treatment processes

J.M: Zinck and B.C. Aube

106 Optimum control of the Leeudoorn semi-autogenous milling circuit

W.van Dyk, W.Stange, J.Derbyshire and H. Williams

111 A review of dry cover placement on extremely weak, compressible tailings

C.Wels, A.Mac G. Robertson and A.T. Jakubick

119 Designing a strong total tailings pastefill using cold-bonded tailings agglomerates

L.M. Amaratunga

### OCTOBER 2000

73 Failure and downtime reporting - A key to improve mine equipment performance

J.Paraszczak

78 Reliability analysis as a tool for surface mining equipment evaluation and selection

R.A. Hall, L.K. Daneshmend, M.G. Lipset and J. Wong

83 The impact of rotary lobe blower seal upgrades at INCO's Copper Cliff Refinery

C.Corless and J.Costigan

86 AC drive application issues

A.C. Stevenson

90 Forensic engineering and drive lifetime

A.C. Stevenson

93 Tuning flotation circuit operation as a function of metal prices

C.Bazin and D.Hodouin

100 Toward a unified and digital communication system for underground mines

S.Outalha, R. Le and P.-M.Tardif

## INTERNATIONAL JOURNAL OF ROCK MECHANICS AND MINING SCIENCES

### JULY 2000

729 Prediction of the penetration rate of rotary blast hole drills using a new drillability index

S.Kahraman, C.Balçı, S.Yazıcı and N.Bilgin

745 Effects of loading rate on rock fracture: fracture characteristics and energy partitioning  
Z.X.Zhang, S.Q. Kou, L.G. Jiang and P.-A. Lindqvist

763 Closed-form/least-squares failure envelopes for rock strength  
H.J. Pincus

787 A unified representation of the plasticity, creep and relaxation behavior of rocksalt  
O.M.L.Yahya, M.Aubertin and M.R. Julien

801 Ground subsidence observations and a modified influence function method for complete subsidence prediction  
P.R. Sheorey, J.P. Loui, K.B. Singh and S.K. Singh

819 Estimating the intensity of rock discontinuities  
Lianyang Zhang and H.H. Einstein

839 Retrospective case example using a comprehensive suitability index (CSI) for siting the Shisan-Ling power station, China  
Y.J. Shang, S.J. Wang, G.C. Li and Z.F. ....

855 In situ permeability measurements to establish the influence of slice mining on floor rocks  
H.T. Xiao and H.Y. Xu

861 Experimental determination of dynamic tensile properties of granite  
J.Zhao and H.B. Li

867 Simulating acoustic emissions in bonded-particle models of rock  
J. F. Hazzard and R.P. Young

873 Discussion  
E.Siebrits and S.L. Crouch

877 Authors' reply to Discussion  
Keh-Jian Shou and J.A. L. Napier

#### **AUGUST 2000**

879 Remote sensing rock mechanics (RSRM) and associated experimental studies

Lixin Wu, Chengyu Cui, Naiguang Geng and Jinzhuang Wang

889 Core quality: quantification of coring-induced rock alteration  
R.M. Holt, M.Birghnoli and C.J. Renter

909 Fractal analysis of joint patterns in granite  
J.Ehlen

923 Micromechanical modelling of the mechanical properties of a granite under dynamic uniaxial compressive loads  
H.B.Li, J.Zhao and T.J. Li

937 Deformational behaviour of roadways in soft rocks in under-ground coal mines and principles for stability control  
C.Wang, Y.Wang and S.Lu

947 Numerical evaluation of the deformation behaviour of thick-walled hollow cylinders of shale  
X.Chen, C.P. Tan and C.M. Haberfield

963 Testing of rock joints filled with gouge using a triaxial apparatus  
U.N. Sinha and B.Singh

983 Obtaining dynamic complete stress-strain curves for rock using the Split Hopkinson Pressure Bar technique  
Renliang Shan, Yusheng Jiang and Baoqiang Li

993 Influence of structural anisotropy on the uniaxial compressive strength of pre-fatigued rocksalt from Himachal Pradesh, India  
R.K. Dubey and V.K. Gairola

1001 Preparation and mechanical properties of artificial transversely isotropic rock  
Yong Ming Tien and Po Fong Tsao

1013 Ultimate bearing capacity of rock masses based on the modified Hoek-Brown criterion  
A.Serrano, C.Olalla and J.Gonzalez

#### **OCTOBER 2000**

1019 Acoustic wave velocity and permeability evolution during pressure cycles on a thermally cracked granite

M.Darot and T.Reuschle

1027 Numerical and experimental analysis of penetration grouting in jointed rock masses  
J.S. Lee, C.S. Bang, Y.J. Mok and S.H. Joh

1039 Estimating mechanical rock mass parameters relating to the Three Gorges Project permanent shiplock using an intelligent displacement back analysis method  
Xia -Ting Feng, Zhiqiang Zhang and Quian Sheng

1055 Oscillation elimination in the Hopkinson bar apparatus and resultant complete dynamic stress-strain curves for rocks  
X.B.Li, T.S. Lok, LZhao and P.J. Zhao

1061 An experimental investigation of hydraulic behaviour of fractures and joints in granitic rock  
Z.Chen, S.P. Narayan, Z.Yang and S.S. Rahman

1073 A semi-automated methodology for discontinuity trace detection in digital images of rock mass exposures  
T.R. Reid and J.P. Harrison

1091 Influence of pore pressure on the drilling response in low-permeability shear-dilatant rocks  
E.Detournay and C. Atkinson

1103 The double torsion loading configuration for fracture propagation: an improved methodology for the load-relaxation at constant displacement  
M.Ciccotti, G.Gonzato and F.Mulargia

1115 Applicability of Mohr-Coulomb and Hoek-Brown strength criteria to the dynamic strength of brittle rock  
J.Zhao

1123 Evaluation of acoustic attenuation as an indicator of roof stability in advancing headings  
S.D. Butt, C.Mukherjee and G.Lebans

1133 Comparing methods for the determination of the hydrological parameters of a 2D equivalent porous medium  
G.Barla, M.Craverio and C.Fidelibus

1143 Experimental investigation of hard rock cutting with collimated abrasive water jets

Li Xiahonog, Wang Jiansheng, Lu Yiyu, Yang Lin, Kang Huiming and Sun Jiajun

1149 Fracture area calculation from electromagnetic radiation and its use in chalk failure analysis  
A. Rabinvitch, V. Frid, D. Bahat and J. Goldbaum

1155 The optimal support intensity for coal mine roadway tunnels in soft rocks  
C.Wang

1161 Probabilistic analysis of subsidence-induced strains at the surface above steep seam mining  
J.Torano, R.Rodriguez and P.Ramirez-Oyanguren

## INDUSTRIAL MINERALS

### JULY 2000

22 Denver days  
IM 14 Congress report

53 Industrial minerals of Spain  
Europe's mining stronghold

66 New Zealand's industrial minerals potential

79 Changes in ATH use

A central and eastern European focus

86 IM six month index

### AUGUST 2000

16 It's good to talk

IMA-Europe brings PR under the spotlight

30 Mulling over minerals in Mumbai  
Report on 2<sup>nd</sup> Indian Minerals Conference

34 Natural born fillers  
Vast potential on India's doorstep

49 Asian drilling grade barytes  
From a consumer's view

SEPTEMBER 2000

27 CIS insight

Quarterly report on CIS industrial minerals

49 3 rd Southern African Minerals Conference  
Abstracts and biographies

57 European port logistics  
Serving a purpose

73 The ABC of special cements  
Concrete evidence for versatility

OCTOBER 2000

37 Full steel ahead  
Dead burned magnesia's market reprieve

57 The switch to imports  
Refractory raw materials consumption in Poland

69 Refractory materials and markets  
Conference abstracts and biographies

87 Mexican sanitaryware  
Sitting pretty

NOVEMBER - 2000

49 Fertilisers bear fruit  
IM projects in Jordan and Saudi Arabia

55 Caught up in the Web  
Industrial minerals and e-commerce explained

63 IM Forum - Mineral potential in architectural  
markets  
Abstracts and biographies

75 Getting it in the bag  
Haver & Boecker's new innovation for  
packaging technology

MINERALS ENGINEERING

JULY 2000

699 Barriers to implementing cleaner  
technologies and cleaner production (CP)

practices in the mining industry; a case study of  
the Americas

G.Hilson

719 Using tailings as heavy metal adsorbents-the  
effect of buffering capacity  
R.A. Kleiv and K.L. Sandvik

729 Microwave technique for analysis of mineral  
sands  
N.Cutmore, T.Evans, D.Crnokrak, A.Middleton  
and S.Stoddard

737 Prediction of complex sulfide flotation  
performances by a combined 3D fractal and  
colour analysis of the froths  
G.Bonifazi, P.Massacci and A.Meloni

747 Surface chemical studies on galena and  
sphalerite in the presence of Thiobacillus  
thiooxidans with reference to mineral  
beneficiation  
D.Santhiya, S.Subramanian and K.A. Natarajan

765 An automated measurement technique for  
slurry settling tests  
Y.Zhu, J.Wu, I.S. Shepherd, M.Coghill,  
N.Vagias and K.Elkin

773 A technique for measuring flotation bubble  
shell thickness and concentration  
N.Sadr-kazemi and J.J. Cilliers

777 Intelligent sensor for coal powder rate  
injection in a slag cleaning furnace  
L.G. Bergh, J.B. Yianatos and P.B. Chaeana

783 Application of the ring-loaded strength  
(RLS) disc test to monitor the effects of thermal  
pre-treatments on ore grindability  
R.J. Young and T.J. Veasey '

789 Evaluation of flotation strategies for  
sedimentary phosphates with siliceous and  
carbonates gangues  
N.A. Abdel-Khalek

AUGUST 2000

803 Hydrothermal metallurgy: an overview of  
basic concepts and applications  
R.C. M. Mambotc, M.A. Reuter, P.Krijgsman  
and R.D. Schuiling

823 Gold losses from cyanide solutions. Part I: the influence of the silicate minerals  
C.P. J. Van Vuuren, C.P. Snyman and A.J. Boshoff

831 Synthesis of zeolite adsorbents by hydrothermal treatment of PFA wastes: a comparative study  
C.Poole, H.Prijatama and N.M. Rice

843 Selectivity in the polymer assisted separation of galena from quartz by flotation  
E.M. Wightman, S.R.Grano and J. Ralston

857 SIMS studies of oxidation mechanisms and polysulfide formation in reacted sulfide surfaces  
R.St. C.Smart, MJasieniak, K.E. Prince and W.M. Skinner

871 Process development for impurity removal from a tin gravity concentrate  
S.Bulatovic and E. De Silvio

881 On-line determination of the concentrator feed type at Outokumpu Hitura mine  
S. Laine, K.Pulkinen and S. LJamsa-Jounela

897 Plant-site evaluations of the OPSA system for online particle size measurement from moving belt conveyors  
C.L. Lin, Y.K. Yen and J.D. Miller

911 The stability of iron phases presently used for disposal from metallurgical systems—a review  
N.J. Welham, K.A. Malatt and S.Vukcevic

933 Motion analysis of a tumbling ball mill based on non-linear optimization  
G.Hu, H.Otaki and K.Watanuki

949 Developing an experimental procedure for charge media wear prediction  
P.Radziszewski

963 Applications of physical and thermal treatment for the removal of mercury from contaminated materials  
P.Massacci, L. Piga and M.Ferrini

969 Studies on effect of Cu (II) on growth of *Thiobacillus ferrooxidans* using series piezoelectric quartz crystal  
L.Chai, W.Weii and M.Okido

SEPTEMBER 2000

991 Hydrodynamic design of self - aerating flotation machines  
M. G. Nelson and D.Lelinski

999 Economic optimisation of a flotation plant through grinding circuit tuning  
C.Sosa-Blanco, D.Hodouin, C.Bazin, C.Lara-Valenzuela and J.Salazar

1019 Polyphosphates: a review. Their chemistry and application with particular reference to mineral processing  
F.Rashchi and J.A. Finch

1037 Electrokinetic properties of pyrite, arsenopyrite and quartz in the absence and presence of cationic collectors and their flotation behaviour  
A.A. Sirkeci

1049 The effect of frothers on bubble size distributions in flotation pulp phases and surface froths  
C. Aldrich and D.Feng

1059 Control of slime coatings by the use of anionic phosphates: a fundamental study  
L.Huynh, A.Feiler, A.Michelmores, J.Ralston and P.Jenkins

1071 Thiosulfate leaching kinetics of gold in the presence of copper and ammonia  
P.L.Breuer and M.I. Jeffrey

1083 Gold electro winning from thiourea solutions  
C.M. Juarez and A.J. B. Dutra

1097 The cyanide leaching of gold in solutions containing sulfide  
M.I. Jeffrey and P.L. Breuer

1107 New generation leaching reactors for effective mass transfer in mineral processing operations  
L.Lorenzen and A.W.Kleingeld

1117 The role of iron-hydroxy precipitates in the passivation of chalcopyrite during bioleaching

M.B. Stott, H.R. Watling, P.D. Franzman and D.Sutton

1129 Removal of heavy metals from wastewater effluents by biosorptive folatiton  
C.Aldrich and D.Feng

1139 Cadmium removal from diluted aqueous solutions by electrowinning in a flow by cell  
A.J. B. Dutra, A.Espinola and P.P. Borges

#### **OCTOBER 2000**

1197 Improving flotation recovery of copper sulphides by nitrogen gas and sulphidisation conditioning  
D.W. Clark, A.J. H. Newell, G.F.Chilman and P.G. Capps

1207 Investigation of seasonal metallurgical shift at Inco's Clarabelle mill  
M.Xu and S.Wilson

1219 Biooxidation as pre-treatment for a telluride - rich refractory gold concentrate  
M.Climo, H.R. Watling and W. Van Bronswijk

1231 The effect of additives and impurities on the cobalt electrowinning process  
M.I. Jeffrey, W.L.Choo and P.L. Breuer

1243 Equilibrium model for the selective sorption of gold cyanide on different ion-exchange functional groups  
G.C. Lukey, J.S.J. Van Deventer and D.C. Shallcross

1263 Effect of lead nitrate on cyanidation of gold ores: progress on the study of the mechanisms  
G.Deschenes, R.Lastra, J.R. Brown, S.Jin, O.May and E.Ghali

1281 An electrostatic solvent extraction contactor for nickel-cobalt recovery  
M.K. Briggs, C.Y. Cheng and D.C. Ibana

1289 Use of a simplified method to calculate closed crushing circuits  
K.Tsakalakis

1301 Attenuation of heavy metal ions by lean grade phosphorite  
M.Prasad, S.S. Amritphale, S.Saxena, N.Chandra and T.C. Rao

#### **NOVEMBER 2000**

1319 SO<sub>2</sub>/O<sub>2</sub> as an oxidant in hydrometallurgy  
W. Zhang, P.Singh and D.M. Muir

1329 An investigation of the Cu (II) adsorption mechanism on pyrite by ARXPS and SIMS  
C.Weisener and A.Gerson

1341 Optimisation of autogenous grinding  
B.K. Loveday and ELDong

1349 Simulation of simultaneous aggregation and sedimentation  
X.Jia, D.J. Wedlock and R.A. Williams

1361 A review of hematite floatation using 12-carbon chain collectors  
K.B. Quast

1377 Statistical comparison of surface species in flotation concentrates and tails from TOF-SIMS evidence  
C.Piantadosi, MJasieniak, W.M.Skinner and R.St. C. Smart

1395 Effect of grinding media and NaHS on copper recovery at Northparkes Mines  
W.A. Freeman, R.Newell and K.B. Quast

1405 Effect of calcium ions and citric acid on the flotation separation of chalcopyrite from galena using dextrin  
Q.Liu and Y.Zhang

1417 Extraction of zinc from zinc ferrites by fusion with caustic soda  
Z.Youcai and R.Stanforth

1423 Counter - current ion exchange for the removal of organically bound sodium from low-rank coals  
K.B. Quast

#### **MINING ENGINEERING**

#### **AUGUST 2000**

15 Remote - control monitoring cuts maintenance costs

Michael W.Lewis

20 Acceleration and GPS data monitor truck - haulage jolts

R.E. Miller, P.Boman, J.Walden, S.Rhoades and R.Gibbs

23 TECHNOLOGY NEWS:

GE supplies electrical systems for Bucyrus draglines

Michelin tires help reduce mining costs

25 MINEexpo International 2000 and the World Mining Congress will meet in Las Vegas

43 Eight to be inducted into National Mining Hall of Fame

49 Internal rate of return (IRR)-a flawed and dysfunctional project - evaluation criterion M.M. Hajdasinski

57 Parametric analysis in surface-mine reserve definition: the inherent error and its correction  
M.Lemieux

## **OCTOBER 2000**

21 Georgia kaolin : development of a leading industrial mineral  
R.J. Pruett

28 Liner system protects oil sands' tailings area

31 Site development over an abandoned coal mine  
Gennaro G.Marino and Scott Lumsden

34 Political - risk management in the northern Andean countries  
W.J. Spat

38 TECHNOLOGY NEWS :

Atlas Copco Wagner improves 10-t LHD

Plough feeder reclaims bulk materials

Breathing unit supplies four hours of air

ArchView software improves spatial modeling

Plane applies dust suppressant at San Manuel

49 Long-term subsidence associated with longwall mining-its causes, development and magnitude

Y.Luo and S.S. Peng

55 Mine-shaft conveyance monitoring

M.J. Beus, T.M. Ruff, S.Iverson and W.G. McCoy

59 Probabilistic quantification of uncertainty in predicting mine pit-lake water quality

J.H. Kempton, W.Locke, D.Atkins and A.Nicholson

## **JUNE 2000**

70 SME ANNUAL MEETING : New frontiers in mining-meeting 21<sup>st</sup> century challenges

Tim O'Neil, Steve Krai and William R. Yernberg

94 China and East Asia -potential resources, specific projects

William R. Yernberg

97 New technology discussed at Tailings and Mine Waste '00

Steve Krai

101 Bit geometry effects on failure characteristics of rocks

V.B. Achanti and A.W. Khair

108 Mining industry benefits and concerns on environmental remote sensing - D.A. Robbins

110 Deep cut : ground control and worker safety in coal mines

E.R. Bauer and C.J. Bise

## **JULY 2000**

31 DREYER AWARD : How orebodies are found

J.David Lowell

37 JACKLING LECTURE : Mineral resource development - our new challenges

Hugo T. Dummett

43 CIM and PDAC - South African gold; Mining in a dot.com world

Steve Kral

50 Team organization in the mining industry

David M.Spatz

57 Lithium: a review of 1999 activities

M.tamlin, D.J. McCracken and O.Harder

59 Coal industry leaders meet to discuss methane issues

William R.Yernberg

62 Operational improvements keep Minnesota iron competitive

William R. Yernberg

SEPTEMBER 2000

47 Mine planning software models Empire Mine ore

Allan E. Koski

53 Mountaintop - removal controversy slows West Virginia coal mining

Syd S.Peng

58 Foamed grout controls underground coal-mine fire

Joseph J.Feiler, Gary J. Colaizzi and Carol Carder

63 TECHNOLOGY NEWS

Excavators designed for use in confined spaces

Selby conveyor system is Europe's longest

Atlas Copco introduces exploration drilling rig

Belt precleaner cuts production losses

Belt weigher aids Chilean salt mining

Degussa CyPlus packaging reduces waste

67 Improvements seen in acid-mine-drainage technology

William R. Yernberg

73 Bulk sorting by LIF : quality control of ores for bulk sorting and blending by laser - induced fluorescence analysis

H.F. Broicher

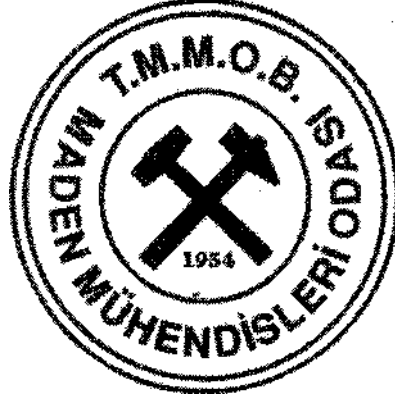

78 Using passive treatment system for mine closure - a good approach or a risky alternative?

P.Eger, G.Melchert and J.Wagner

84 Integrated bioreactor systems for the treatment of cyanide, metals and nitrates in mine process water

M.Canty, R.Hiebert, L.Thompson, P.Clark and S.Beckman

## TMMOB MADEN MÜHENDİSLERİ ODASI

1954 yılında 6235 sayılı yasayla kurulmuş kamu niteliği taşıyan bir meslek örgütüdür.

- 6500 Üye
- 4 Şube
- 39 Temsilcilik

ile ülkemizin her yerinde örgütlenmiştir.

Düzenlediği Madencilik ve Kömür Kongreleri, birçok sempozyum, seminer ve panellerle madencilik sektörü ve maden mühendislerinin sorunlarına çağdaş bir yaklaşımla çözüm arayan madencilik sektörünün en önemli sivil toplum örgütüdür.

# Faks cihazına ihtiyaç duymadan size gönderilen faks mesajlarına ulaşabileceğinizi biliyor muydunuz?

- Elinizde bir telefonunuzda faks cihazınız yoksa...
- Sürekli şehirlerarası milletlerarası yolculuk yapmak zorundayanız...

- Sadece size özel bir faks numarasına sahip olmak istiyorsanız...
- Size gelen fakslara İnternet üzerinden erişmek istiyorsanız...

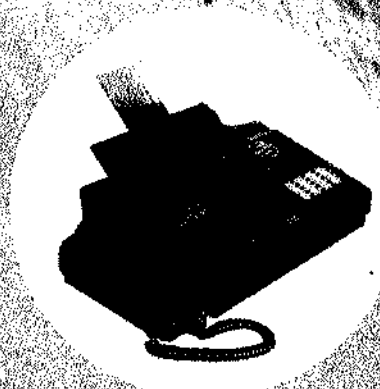

## TR.NET e-faks

### e-faks nedir ?

e-faks, faks mesajlarınızı İnternetten görmeyi sağlayan Türkiye'de ilk defa TR.NET tarafından sunulan bir hizmettir. Faks cihazına ihtiyaç duymadan size gönderilen fakslara 7 gün 24 saat arasında İnternet erişimi olan her yerden erişebilirsiniz.

### e-faks nasıl çalışır ?

TR.NET e-faks hizmetini almak için servisimize üye olduğunuzda TR.NET tarafından size bir faks numarası verilecektir (0312) XXX XXXX şeklinde size özel olan bu numarayı her an yanınızda faks cihazı taşıyor musunuz gibi kullanabilirsiniz. Size özel olarak verilen bu numaraya gelen faks mesajları öncelikle TR.NET sistemimize ulaşacak ve sizin numaranıza gönderilen faks mesajı e-posta adresinize birinde yönlendirilecektir. Faks mesajlarınızı e-posta mesajı okur gibi okuyabilirsiniz.

### e-faks hizmetini nasıl alabilirsiniz ?

Sadece TR.NET üyeleri e-faks hizmetini almak için e-faks numarasına sahiptir. TR.NET üyelerinden e-faks hizmeti almak isteyenler için elektronik ortamda başvuru formu göndererek başvuru yapabilirler. Başvuru formu gönderdikten sonra başvuru kabul edilirse ve kredi kartı ile bir ilave olarak YILLIK 20 TL'00 + KDV olarak ödeyen kullanıcılarınize en geç 24 saat içinde e-posta adresinize faks numarasını gönderecektir ve e-faks hizmetini kullanmaya başlayacaktır. Size gönderilen faks mesajları için ek bir ücret ödemeyi gerektirecektir.
