

SÜRELİ YAYINLAR

CIM BULLETIN

MARCH/APRİL 2005

34 Major solutions for miner emergencies
H. Weldon

57 Hardwork grabs the gold- Copper Rand
re-enters the production
C. Chen

INTERNATIONAL JOURNAL OF ROCK MECHANICS AND MINING SCIENCES

APRIL 2005

331 Influence of daily surface temperature
fluctuations on rock slope stability: case
study of the Rochers de Valabres slope
(France)
Y. Gunzburger, V. Merrien-Soukatchoff and
Y. Guglielmi

350 Investigations of water intrushes from
aquifers under coal seams
Jincai Zhang

361 Transverse drilling-induced tensile
fractures in the West Tuna area, Gippsland
Basin, Australia: implications for the in situ
stress regime
E.J. Nelson, J.J. Meyer, R.R. Hillis and S.D.
Mildren

372 The new three-dimensional subsidence
influence function denoted by $n-k-g$
C. González Nicieza, M.I. Álvarez
Fernández, A. Menéndez Díaz and A.E.
Álvarez Vigil

388 Characterizing the deformation behavior
of Tertiary sandstones
M.C. Weng, F.S. Jeng, T.H. Huang and M.L.
Lin

402 Non-dilatant deformation and failure
mechanism in two Long Valley Caldera
rocks under true triaxial compression
C. Chang and B. Haimson

415 Stability analyses of dam abutments by
3D elasto-plastic finite-element method: a
case study of Houhe gravity-arch dam in
China
X. Yu, Y.F. Zhou and S.Z. Peng

431 Relation between the Mogi and the
Coulomb failure criteria
Adel M. Al-Ajmi and Robert W. Zimmerman

440 Rock mass ratings (RMRs) predicted
from slope angles of natural rock outcrops
440-449
D. Banks

450 Characterization of microstructures and
fracture toughness in five granitic rocks
M.H.B. Nasser, B. Mohanty and P.-Y. F.
Robin

461 A mode II fracture analysis of double
edge cracked Brazilian disk using the weight
function method
Feng Chen, Ping Cao, Q.H. Rao, C.D. Ma
and Z.Q. Sun

466 A comparative study of Schmidt
hammer testing procedures with reference
to rock cutting machine performance
prediction
R.M. Goktan and N. Gunes

473 Drillability studies of surface-set
diamond drilling in Zonguldak region
sandstones from Turkey
M.E. Akün and C. Karpuz

MINERALS ENGINEERING

MARCH 2005

293 Chalcopyrite leaching at moderate

temperature and ambient pressure in the presence of nanosize silica
M. Misra and M.C. Fuerstenau

299 Extraction of alumina from coal fly ash generated from a selected low rank bituminous South African coal
R.H. Matjie, J.R. Bunt and J.H.P. van Heerden

311 Influence of sodium dodecyl sulphate and Dowfroth frothers on froth stability
P.A. Harvey, A.V. Nguyen, G.J. Jameson and G.M. Evans

317 The froth stability column: linking froth stability and flotation performance
N. Barbican, K. Hadler, E. Ventura-Medina and J.J. Cilliers

325 Particle breakage kinetics in horizontal stirred mills
J. Yue and B. Klein

333 Tumbling mill steel media abrasion wear test development
Peter Radziszewski, Rena Varadi, Tapiwa Chenje, Lena Santella and Anthony Sciannamblo

343 Application of charge contrast imaging in mineral characterization
K. Robertson, R. Gauvin and J. Finch

353 Destruction of cyanide by hydrogen peroxide in tailings slurries from low bearing sulphidic gold ores
M. Kitis, A. Akcil, E. Karakaya and N. O. Yigit

363 Leaching of Ovacik gold ore with cyanide, thiourea and thiosulphate
M. Tanriverdi, H. Mordoğan and Ü. İpekoğlu

367 Effect of fineness of grind on semi-batch flotation test results
Claude Bazin, Carole Fortin, Daniel Hodouin and Jean Cayouette

371 Bioflotation of Sarcheshmeh copper ore using *Thiobacillus Ferrooxidans*

T. R. Hosseini, M. Kolahdoozan, Y. S. M. Tabatabaei, M. Oliazadeh, M. Noaparast, A. Eslami, Z. Manafi and A. Alfantazi

375 Influence of charge size distribution on net-power draw of tumbling mill based on DEM modelling
Nenad Djordjevic

APRIL 2005

385 A field demonstration of gold phytoextraction technology
Christopher Anderson, Fabio Moreno and John Meech

393 Mechanisms of galvanic interactions between gold and sulfide minerals in cyanide solution
M.M. Aghamirian and W.T. Yen

409 Role of copper(II), carbonate and sulphite in gold leaching and thiosulphate degradation by oxygenated alkaline non-ammoniacal solutions
Gamini Senanayake

427 Testing the ability of a low grade sphalerite concentrate to achieve autothermality during biooxidation heap leaching
M.I. Sampson, J.W. Van der Merwe, T.J. Harvey and M.D. Bath

439 Influence of explosive energy on the strength of the rock fragments and SAG mill throughput
S. Michaux and N. Djordjevic

449 The modelling of the separation process in a ferrohydrostatic separator
V. Murariu, J. Svoboda and P. Sergeant

459 The influence of particle size and collector on the flotation of a very low grade auriferous ore
S.V.C. Bravo, M.L. Torem, M.B.M. Monte, A.J.B. Dutra and L.A. Tondo

463 Effluent treatment and by-product recovery from the sludge of an alumina plant

Archana Agrawal

APRIL 2005 (2)

473 Crushing plant optimisation by means of a genetic evolutionary algorithm
Per Svedensten and C. Magnus Evertsson

481 Corrosion protection of mild carbon steel media in phosphate grinding mill using impressed current technology
D. Tao, G.L. Chen and B.K. Parekh

489 An alternative solution to the grinding equation in cumulative size distribution form
Pages 489-493
C. Hosten

495 Froth collapse in column flotation: a prevention method using froth density estimation and fuzzy expert systems
O.D. Chuk, V. Ciribeni and L.V. Gutierrez

505 XPS characterisation of chalcopyrite chemically and bio-leached at high and low redox potential
ke Sandström, Andrei Shchukarev and Jan Paul

517 Gold recovery by microwave augmented ashing of waste activated carbon
R.K. Amankwah, C.A. Pickles and W.-T. Yen

527 Oxidative leaching of a Vietnamese chromite ore in highly concentrated potassium hydroxide aqueous solution at 300 °C and atmospheric pressure
H.-B. Xu, S.-L. Zheng, Y. Zhang, Z.-H. Li and Z.-K. Wang

537 Nickel recovered from solution by oxidation using ozone: some physical properties
Luis E. Calzado, Cesar O. Gomez and James A. Finch

545 Removal and recovery of copper from aqueous solution by eggshell in a packed column
K. Vijayaraghavan, J. Jegan, K. Palanivelu and M. Velan

549 The effect of ferrous and ferric iron on sphalerite bioleaching with *Acidithiobacillus* sp.
P.S. Pina, V.A. Leão, C.A. Silva, D. Daman and J. Frenay

553 Coupling leaching of sphalerite concentrate
Peng Peng, Huiqin Xie and Lizhu Lu

557 Analytical expressions for classifier product size
B. Venkoba Rao

MAY 2005

567 Quantitative assessment of hydrophobic agglomeration performance
X.Q. Wu, A.J. Monhemius and R.J. Gochin

575 Electrochemical and Raman spectroscopic studies of the interaction of ethyl xanthate with Pd–Bi–Te
M.K.G. Vermaak, P.C. Pistorius and J.A. Venter

585 Kinetics of gold and a gold–10% silver alloy dissolution in aqueous cyanide in the presence of lead
K. Cerovic, H. Hutchison and R.F. Sandenbergh

591 Testing the k–Sb relationship at the microscale
J.R. Hernandez-Aguilar, S.R. Rao and J.A. Finch

599 Dynamic adsorption of sodium dodecylbenzene sulphonate and dowfroth 250 onto the air–water interface
C.M. Phan, A.V. Nguyen and G.M. Evans

605 Selective flotation of enargite from chalcopyrite by electrochemical control
H. Guo and W.-T. Yen

613 Residence time distribution of an industrial mechanically agitated cyanidation tank
L.R.P. de Andrade Lima and D. Hodouin

623 Heap leaching kinetics are proportional to the irrigation rate divided by heap
H.M. Lizama, J.R. Harlamovs, D.J. McKay and Z. Dai

631 Flotation properties of unusual carbonates: huntite and hydromagnesite
O. Kangal, C. Firat and A. Güney

635 Production and properties of cordierite-based glass-ceramics from gold tailings
H. Shao, K. Liang, F. Peng, F. Zhou and A. Hu

639 Buffer behavior of brucite in removing copper from acidic solution
L. Shao, Y. Zhou, J.F. Chen, W. Wu and S.C. Lu

643 Do old spoils contain large amounts of economically valuable minerals?
E.V. Samykina, A.V. Surkov, L.V. Eppelbaum and S.V. Semenov

TECHNICAL PAPERS

(peer reviewed and approved)

61 Simple program for estimating multiple-seam interactions
K.A. Heasley and O. Akinkugbe

67 Review of pyrometallurgical treatment of electronic scrap
S.A. Shuey and P. Taylor

71 Application of reflection-seismic method to leached cap exploration over porphyry copper deposits
J.W. Cooksley

76 Asbestos exposure in the mining industry: a case for revising the MSHA standard
E.P. Blumenstein and P.E. Ross

MINING ENGINEERING

MARCH 2005

TECHNICAL PAPERS
(peer reviewed and approved)

33 Evaluation of proposed panel-closure modifications at the Waste Isolation Pilot Plant
L.E. Allen, J.F. Abel Jr. and D.R. Morgan

37 Fragmentation method: a ground-control tool
J. Girard-Dwyer, J. Johnson,

43 Economics of conveyor systems component selection: the total cost of ownership approach
T. Oxley and M. Myers

48 Openpit slope design and pit stability challenges at the Rio Tinto Borax Boron Mine
J.R. Mattern

APRIL 2005
