## CIM Bulletin

### MARCH 1991

- |     |   |    |   |
|-----|---|----|---|
| 125 | The economics of rare earth elements;<br><i>Jane Spooner, Kenneth A. Grade and Nicola Robjohns</i>            | 37 | A sensitivity analysis of search distance and number of samples in indicator kriging;<br><i>N.E. Chaouai and K. Fytas</i>         |
| 139 | The search for Kimberlite in the James Bay Lowlands of Ontario;<br><i>L. E. Reed and I. G. L. Sinclair</i>    | 44 | Laboratory evaluation of cable supports;<br><i>J.M. Goris</i>   |
| 140 | Managing in the competitive environment of the 1990s;<br><i>M. J. Daniel</i>                                  | 51 | Chinese refractory raw materials in the 1990s;<br><i>W.H. McCracken and W.G. Holroyd</i>  |
| 146 | Evaluation of cable bolt supports at the Homestake Mine;<br><i>J.M. Goris, F. Duan, J. Pfarr</i>              | 55 | New triangular raise cribbing technique for rockburst prone backfilled stopes;<br><i>J.H. Archibald</i>                           |
| 151 | The thermal behaviour of chloride and sulphate bearing MSW incinerator ash;<br><i>D. Barham and H.N. Tran</i> | 64 | Advances in technology for complex custom feed material treatment at Noranda;<br><i>M. Bédard, M. Chapados and G. Kachaniwsky</i> |

### APRIL 1991

- |    |   |    |  |
|----|---|----|--|
| 29 | Compilation of gold occurrences in the southern Abitibi Belt, Quebec;<br><i>Pierre O'Dowd</i> | 70 | Thermomechanical aspects of lining behaviour as related to design, installation, and use of ladles;<br><i>Charles A. Schacht</i> |
|----|---|----|--|

## Industrial Minerals

### APRIL 1991

- |    |  |
|----|--|
| 19 | Finland's minerals industry<br>Turning to stone      |
| 39 | Screens for all seasons<br>Catering for every need   |
| 53 | The expanding role of synthetic minerals in industry |
| 63 | The changing role for XRF<br>Elemental analysis      |

### MAY 1991

- |    |  |
|----|--|
| 15 | Annual Report<br>Highlights                                |
| 17 | Fluorspar producers<br>Fighting for survival               |
| 35 | Flame retardants<br>Legislation fires markets              |
| 44 | Slate market split<br>Niche develops for prestige products |
| 57 | SOKA's forty years in kaolin specialising in ceramics      |
| 60 | Centurion and the Hungarian dimension                      |

# Institution of Mining and Metallurgy

JANUARY-APRIL 1991

- B1** Remote sensing, geobotany and biogeochemistry in detection of Thalanga zinc-lead-copper deposit near Chartes Towers, Queensland, Australia  
*M. M. Cole*
- B9** Prospecting for natural zeolites: exploration model based on an occurrence in 300 m.y. old rocks near Werris Creek, New South Wales, Australia  
*P. G. Flood*
- B14** Geopressure zones as proximal sources of hydrothermal fluids in sedimentary basins and the origin of Mississippi Valley-type deposits in shale-rich sequences  
*A. D. Fowler and M. T. Anderson*
- B19** Trace-element geochemistry and alteration facies associated with epithermal gold-silver mineralization in an evolving volcanic centre, Rosita Hills, Colorado, USA  
*C.J.A. McEwan and C. M. Rice*
- B28** Freeze-sampling method of collecting drainage sediments for gold exploration  
*G.E. Petts, J.S. Coats and N. Hughes*
- B33** Metalliferous mineral exploration opportunities in Britain  
*T.B. Colman*
- B42** Technical note  
Gold grades and iron content of sphalerite-relationship of possible genetic significance from Hellyer volcanogenic massive-sulphide deposit of northwest Tasmania, Australia  
*A. R. Ramsden, K.M. Kinealy and D. H. French*
- B45** Discussion  
Discovery of concealed massive-sulphide bodies at Neves-Corvo, southern Portugal-a case history  
*X. Leca*

JANUARY -APRIL 1991

- C1** Role of SFCA in promoting high-temperature reduction properties of iron ore sinters  
*N. J. Bristow and A. G. Waters*
- C11** Framework for modelling of metallurgical processes  
*D.B. Cameron, W. Morton and W. R. Paterson*
- C21** Pilot-plant bio-oxidation of gold-bearing arsenopyrite concentrates  
*P. A. Spencer, J.R. Budden and J. Barrett*
- C25** Viscosity of sodium borosilicate slags containing copper oxide  
*S. J. Splinter, C.A. Pickles and J. Cameron*
- C31** Estimation of bubble-size distribution in flotation columns by dynamic bubble-disengagement technique  
*N. Standish, A. B. YuandA. Igusti-Ngurah*
- C42** Extraction of lithium by vacuum thermal reduction with aluminium and silicon  
*A. A. J. Smeets and D. J. Fray*
- C55** Technical notes  
Study of synergism between xanthate and dithiocarbamate collectors in flotation of heazlewoodite  
*J.K. Critchley and M. Riaz*
- C57** Refinements of model for economic evaluation of preconcentration  
*G. D. Schena, P. Bevilacqua and R. J. Gochin*
- C61** Upgrading of medium-grade celestite ore with varying gypsum contents by treatment with  $(\text{NH}_4)_2\text{S}_2\text{O}_8$   
*S.G. Tsimas, A.K. Moutsatsou, S.G. Tsvivilis and G. K. Parissakis*
- C65** Kinetics of chlorination of briquetted anatase by carbon tetrachloride  
*P. K. Jena, D.H. Gameiro and E. A. Brocchi*

# International Journal of Mineral Processing

JUNE 1991

- 151 **Effect of fine particles on the kinetics and energetics of grinding coarse particles**  
*D. W. Fuerstenau and A.Z.M. Abouzeid*
- 163 **The effect of liner design on the motion of the outer grinding elements in a rotary mill**  
*M. S. Powell*
- 195 **Mineral separations using rotating magnetic fields**  
*M. S. Walker and a.L. Devernoe*
- 217 **Electrophoretic characterization and processing of Asphalt Ridge and Sunnyside tar sands**  
*J. Hupka (Gdansk, Poland) and J.D. Miller*
- 233 **A process for enhanced removal of iron from bauxite ores**  
*L.Y. Sadler and C. Venkataraman*
- 247 **A model for the bacterial leaching of copper sulfide ores in pilot-scale columns**  
*H. J. Neuburg, J.A. Castillo, M. N. Herrera, J. V. Wiertz, T. Vargas and ft Badilla-Ohlbaum*
- 265 **Thermodynamics of chalcocite-xanthate interactions**  
*C. A. Young, C. I. Basilio and ft H. Yoon*
- 281 **Detection and location of gross in instruments using parity space technique**  
*J. Ragot, A. Aitouche, F. Kratz and D. Maquin*

# International Journal of Rock Mechanics and Mining Sciences and Geomechanical Abstracts

MAY 1991

- 121 **An inverse approach to the construction of fracture hydrology models conditioned by geophysical data: an example from the validation exercises at the Stripa mine**  
*J.C.S. Long, K. Karasaki, A. Davey, J. Peterson, M. Landsfeld, J. Kemeny and S. Martel*
- 143 **In situ stress measurements at Rainier Mesa, Nevada Test Site-influence of topography and lithology on the stress state in tuff**  
*N. R. Warsplinski and L. W. Teufel*
- 163 **Surface instabilities in elastic anisotropic media with surface-parallel Griffith cracks**  
*I. Vardoulakis and E. Papamichos*
- 175 **Displacements from relief on in situ stress by a cylindrical hole**  
*C. L. Smither and T. J. Ahrens*
- 187 **Time-dependent hydraulic fracturing in potash mines**  
*N. ft Morgenstern and K. Sepehr*
- 199 **Class I vs Class II stability: a demonstration of size effect**  
*J. F. Labuz and L. Biolzi*
- 207 **The ground movement, strata fracturing and changes in permeability due to deep longwall mining**  
*L. Holla and M. Buizen*
- 219 **Technical Notes**  
**Fracture toughness of Kallax gabbro and specimen size effect**  
*X. Yi, Z. Sun, F. Ouchterlony and O. Stephansson*
- 225 **A technique for the recovery and re-use of CSIRO hollow inclusion cells**  
*M. Cai and ft L. Blackwood*
- Discussion**
- 231 **Discussion of paper by Wu Zhenye and Li Shiping, "The generalized plane strain problem and its application in three-dimensional stress measurement"**  
*M. E. Duncan Fama, ft J. Walton and G. Worotnicki*

# Mining Engineering

APRIL 1991

- 385 **Grasberg open-pit: Ertsberg's big brother comes onstream in Indonesia**  
*Robin J. Hickson*
- 392 **Dragline stripping methods enhanced by explosives casting at Bridger Coal Mine**  
*Mark L. Backer and Jerry R. Key*
- 396 **Knife River's Beulah Mine - A three-seam challenge**  
*Carl S. Vender*
- 399 **Computer software helps model surface reclamation projects**
- 401 **Steel-capped rubber mill liners achieve consistent wear life**  
*Roland Svensson*
- 403 **The different faces of Net Positive Suction Head in pumping**
- 375 **Salary Survey**
- 379 **A guide for reporting exploration information, resources and reserves**
- 413 **Radar hazard detection in a coal structure**  
*R. S. Dennen and W. P. Stroud*
- 419 **Diagnostic expert system techniques for improving hydraulic maintenance of a continuous mining machine**  
*J. Mitchell*

MAY 1991

## 1990 Annual Review

- 491 **Exploration**
- 511 **Mining**
- 519 **Coal**
- 529 **Processing**

JUNE 1991

## 1990 Industrial Minerals Review

- 621 **Coal utilization: A review of 1990 activities**  
*C. Harrison and D. O'Connor*
- 623 **Regulatory affairs: A review of 1990 activities**  
*J. P. Stone*
- 624 **Solution mining: A review of 1990 activities**  
*J. M. Keane*
- 641 **1991 Jackling Lecture: Practical rock mechanics applied to underground mines**  
*James J. Scott*
- 647 **Development of high productivity shotcreting at the Cannon Mine**  
*J. Baz-Dresch*
- 654 **TECHNICAL NOTE: Potential role of particle characteristics on coal mine respirable dust standards**  
*R. L. Grayson*

# Mining Magazine

APRIL 1991

- 198 **Mining in Central Europe**  
Arthur Notholt reviews mineral production and future prospects in central Europe: Czechoslovakia, eastern Germany and Poland.
- 204 **Polish Copper**  
KGHM, the Polish copper mining company, is moving towards privatization and seeking joint-venture partners.

- 208 **Shaft Insets**  
Considerable depths and weak rock properties posed problems for deep Polish mines. The article describes how the problems were solved.
- 223 **Diamond evaluation**  
A method is described which considerably reduces bulk sampling costs at the exploration feasibility stages of a diamond project.

- 226 Bolivia**  
The author reviews recent developments in mining and exploration in the **country**.
- 236 Filtration**  
An essential step in most mineral beneficiati-on processes -a review of the latest equip-ment and techniques.

### MAY 1991

- 272 The WA Treasure Chest**  
An area of huge world significance, its wide mineral output is vital to both Australian and world production and demand.
- 278 Pilbara Progress**  
Massive iron ore exports continue to grow, di-rect reduction is under intensive research, gold production is significant, and more...

- 288 Mineral Sands**  
Beach sands mining and processing in Wes-tern Australia, one of the world's major produ-cing areas for these important minerals.
- 297 Nickel in WA**  
**After a period in the** doldrums, the 1990s hold the promise of revitalization for Western Aus-tralia's nicel mining industry.

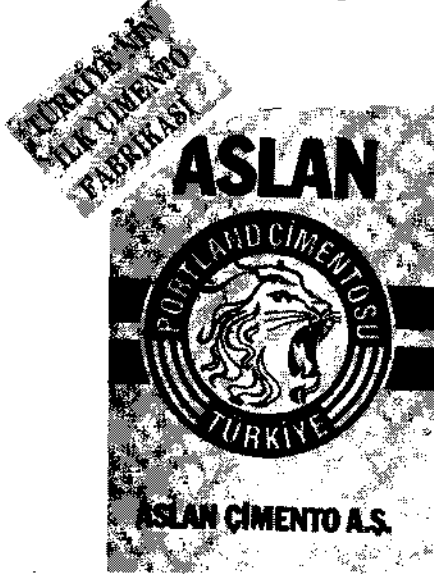

- 303 Drill Bits and Rods**  
Geoff Pearse reviews the latest items availab-le in these key components.
- 315 GIS in Mining**  
Geographical Information Systems utilization can revolutionize mining.
- 310 Computer File**

## Mining Science and Technology

### MAY 1991

- 207 Stabilizing and stability control of a cave-prone area in the Tverrfjellet mine, Nor-way**  
*A. W. Myrvan, S. E. Hansen*
- 215 Post mining subsidence abatements in Wyoming abandoned coal mines**  
*M. G. Karfakis and E. Topuz*
- 233 The vertical stress distribution in coal side of a roadway-an elastic foundation approach**  
*S. Majumder and S. Chakrabarty*
- 241 A three-dimensional boundary element method for piecewise homogeneous vis-coelastic media and its application in mi-ning engineering**  
*L. B. Guo and S. S. Peng*
- 253 Applying knowledge-based expert systems to provide guidance for the safe storage of coal**  
*T.X. Ren, B. Denby*
- 265 Numerical simulation of microseismicity induced by deep longwall coal mining**  
*Y. Fujii and Y. Ishijima*
- 287 Method for predicting airway climatic conditions during a fire and its validation using reduced scale experiments**  
*J. K. Wolski*
- 299 Effect of gas explosion on methane detec-tor output signals**  
*M. Sagisaka, K. Noda, Y. Koyama and K. Shiota*
- 311 Study of dynammic models for coal gas dynamics (part 2)**  
*S. Peide*
- 317 Wear mechanisms associated with rock excavation using attack picks**  
*S. Rogers and B. Roberts*
- 325 Fluidization technique for mine backfill with slurry of high density**  
*L. J.Chen*
- 333 A design procedure for cemented fill for open stoping operations**  
*L. Chen and D. Jiao*

*çimento sanayiinde üç çeyrek asırlık bir ömür...*

## çimento tiplerimiz

- PÇ 325 (Portland Çimentosu)... Her tür inşaatta kullanılabilir
- KPÇ 325 (Katlı Portland Çimentosu)... Her tür inşaatta kullanılabilen ekonomik çimento
- PÇ 400... Normal çimentoya oranla dayanımı yüksek çimento
- PÇ 500... Dayanımı yüksek çimento
- BS 12-1978... İngiliz standartlarına uygun dayanımı yüksek çimento
- ASTM Tip 2... Amerikan standartlarına uygun orta dereceli sülfatlı sulara dayanımı yüksek çimento
- ASTM Tip 5... Yüksek sülfatlı sulara dayanımlı çimento
