EDITORIAL

Dear Colleagues,

We are proud to have published the 4th volume 3rd issue of the Journal of Health Sciences and Medicine in May 2021. Since our first year of publication, we continue to help you move forward on your career path with national and international indexes. On the other hand, JHSM has been continuing its line of contributing to the recognition of Turkish science in the international arena as an impartial, peer-reviewed, scientific periodical multidisciplinary medical journal. We are here with twenty-five interesting original articles, one review, three case reports, and one letter to the editor on this issue. We know that our journal, which increases its scientific quality with each new issue, is also eagerly awaited by you, our valuable readers. To further increase the scientific quality of our journal, we work hard, including those on the editorial board. We thank all the authors and our valuable readers who contributed with their international and national articles and remind you that we need you more than ever for our journal to take place on the scientific platforms we desire. We would like to express our gratitude to the healthcare professionals who worked devotedly during the COVID-19 outbreak. We commemorate our colleagues who lost their lives in this process with respect and longing.

Yours truly

Assoc. Prof. Dr. Ercan YUVANÇ
Assoc. Editor-in-Chief
