

Turkey and UNESCO declared 2021 as the year of Anatolian love messenger and the poet, Yunus Emre. He lived in the 13th century and his message for loving humans still goes around in the 21st century. Journal of Tourism, Leisure and Hospitality (TOLEHO) pays tribute to Yunus Emre and his philosophy. TOLEHO works hard to contribute to tourism literature and the journal has achieved a remarkable progress thanks to all academics having supported the journal so far. Covid-19 pandemic still remains around but the hope to overcome the unprecedented challenges is stronger than ever. As TOLEHO, we repeat our desire to come together in healthy days and wish the best for everyone in tourism academy and the industry.
