ARTICLE SUBMISSION ADDRESS

<https://dergipark.org.tr/en/journal/2384/submission/step/manuscript/new>

Our dear readers,

We are proud to publish the third issue of our journal for 2021 with 15 articles. In this issue, there are 11 original articles, 2 case reports, one letter to the editor, and one upto-date and comprehensive review that we think will attract your attention. We increase the scientific quality of our journal day by day. Our goal is to improve our publication quality day by day with the support of all our writers and readers and to appeal to a wider readership. Principally, we want to contribute to international literature at an increasing level and to increase the success bar of our journal by entering indexes such as PubMed, SCI and SCI-Expanded. I would like to thank all authors for submitting articles contributing to both domestic and international literature with their comprehensive scientific content for publication in our journal. I would also like to thank our referees and editors who gave us their precious time. We hope that this issue will be useful to our readers.

Sincerely yours.

Assoc. Prof. Dr. Kenan ADIRCI
Assoc. Editor

Original Article

Thromboprophylaxis decreases the risk of pulmonary embolism in COVID-19	188
The role of serum red blood cell distribution width level in predicting the short term mortality of community-acquired pneumonia, acute attack chronic pulmonary disease, and acute pulmonary thromboembolism	192
Comparison of hospitalized patients with idiopathic pulmonary fibrosis and obstructive sleep apnea outpatients in terms of general characteristics and polysomnographic features.....	198
Comparison of lesion level and ischemic modified albumin in peripheral artery disease.....	204
The level of C-erbB-2 in patients with esophageal and gastric cancers	208
The role of thiol-disulfide and ischemia-modified albumin levels in the diagnosis of childhood appendicitis	214
Comparative analysis of the anaesthesia management of gynecological operations between the normal period and COVID-19 pandemic	220
A new grading system for evaluation of uroflowmetry-EMG results (Gülhane Grading System).....	227
Evaluation of YouTube videos related to intubation in the pandemic process in terms of quality and content in Turkish and English.....	234
Real-life data of tenofovir disoproxil fumarate and tenofovir alafenamide fumarate in the patients with chronic hepatitis B: a single-center experience.....	239
Investigation of the potential use of VCAM-1, TNF-α, IL-10 and IL-6 as biomarkers of nickel exposure	246

CONTENTS

Review

Aging and geriatric palliative care 251

Case Report

**A rare case: acute ischemic stroke that developed in a case with severe
COVID-19 pneumonia..... 256**
