

Contents

Bivariate Drought Frequency Analysis based on Copula Theory for Osmaniye Region (Research Paper)	388-396
Expert Modelling and Prediction of Von Mises Stresses in High Speed Steel Cutting Tool Using FEM (ANSYS) (Research Paper)	397-402
Design Equation for Operating Frequency of Patch Antenna with a Rectangular Tuning Stub at Early Phase 5G Bands (Research Paper)	403-410
Gasification of Forest Residues for Sustainable Development in the Mediterranean Region of Turkey (Research Paper)	411-414
Numerical Study on Suspended Sediment Transport under the Effect of Water Temperature in Reservoirs and Lakes (Research Paper)	415-426
Investigating the Effects of Temperature and Relative Humidity on Performance Ratio of a Grid Connected Photovoltaic System (Research Paper)	427-432
An Approach Integrating Kano Model and Fuzzy Logic into the Planning Matrix of Quality Function Deployment: An Application for the Design of a Baby Diaper (Research Paper)	433-450
Feature Selection Based Data Mining Approach for Coronary Artery Disease Diagnosis (Research Paper)	451-459
Sentiment Analysis of Twitter Texts Using Machine Learning Algorithms (Research Paper)	460-471

İçindekiler

Kopula Yöntemi ile Osmaniye Bölgesinin İki Değişkenli Kuraklık Frekans Analizi (Araştırma Makalesi)	388-396
