ARTICLE SUBMISSION ADDRESS

<https://dergipark.org.tr/en/journal/2384/submission/step/manuscript/new>

Our dear readers,

We are proud to publish the second issue of our journal for 2022 with 16 original articles that we think that we think will attract your attention. We increase the scientific quality of our journal day by day. Our goal is to improve our publication quality day by day with the support of all our writers and readers and to appeal to a wider readership. Principally, we want to contribute to international literature at an increasing level and to increase the success bar of our journal by entering indexes such as PubMed, SCI and SCI-Expanded. I would like to thank all authors for submitting articles contributing to both domestic and international literature with their comprehensive scientific content for publication in our journal. I would also like to thank our referees and editors who gave us their precious time. We hope that this issue will be useful to our readers. All the best, see you again in our next issue.

Best regards,

Assoc. Prof. Kenan ADIRCI, MD
Editor

Original Article

Structured practices increasing patient compliance to noninvasive mechanical ventilation therapy: example of best practice..... 126

Orbital MRI in thyroid-associated orbitopathy 133

COVID-19 and COVID-19 vaccines-related subacute thyroiditis: analysis of a case series..... 138
