

Contents

Horticulture

- Determination of endogenous zeatin/IAA levels in selected fortune mandarin mutants against *Alternaria alternata* pv. citri
E. TURGUTOGLU, I. BAKTIR..... 55-58

Plant Protection

- Phenotypic and genotypic characterisation of pepper genotypes for *Tomato Spotted Wilt Orthotospovirus* reaction and resistance
O. F. OZDEMIR, E. ELCI..... 59-67
- Disease complex of *Rhizoctonia solani* and *Meloidogyne hapla* Chitwood, 1949 (Nemata: Meloidogynidae) on tomato
F. G. GOZE OZDEMIR, S. E. ARICI, I. H. ELEKCIOGLU..... 69-74
- Molecular characterisation of Alfalfa mosaic virus isolates in potato from the Tokat province, Türkiye
S. TOPKAYA..... 75-81
- Investigation of activity of *Tobamovirus* in pepper plants containing *L4* resistance gene
H. FIDAN, A. GONBADI, P. SARIKAYA, O. CALIS..... 83-90

Agricultural Biotechnology

- Morphological and physiological variation in drought tolerance of wheat landraces originated from southeast Türkiye
K. BÜDAK, H. AKTAS, S. CEVIK..... 91-95

Farm Structure and Irrigation

- Assessment of irrigation water salinity effects on red beet under Mediterranean conditions
A. KURUNC, K. H. DOGANAY..... 97-103

Soil Science and Plant Nutrition

- Effect of fertigation with different pH and EC levels on selected physical soil properties
M. KAPLAN, E. YILMAZ, A. S. MALTAS, S. TORUN, E. R. NAMAL..... 105-111
- Erratum..... 113
