The Effect of Municipal Employess' Job Crafting on Job Engagement

Editorial

OPUS Journal of Society Research (JSR) brings a range of different fields of theory, practice, and research in the quest for understanding human behavior in its social environment. The Interdisciplinary perspective provides the groundwork to present and establish a holistic relationship with other disciplines, concepts and methods. The OPUS JSR provides a medium for researchers to incorporate an interdisciplinary approach to bring forward different interpretations and alternative viewpoints. It is not only the intersection of disciplines, but the theoretical frameworks that underpin the analyses and interprets of the subjects under study. This framing can lead to clarity of multiple and even conflicting findings that enable better understanding of social dynamics that may otherwise be invisible when scholars focus on a single set of theoretical dynamics. OPUS JSR reflects more than 10 years of journal sponsorship by [ADAMOR Society Research Center](#) and its partner organization, the [Institute of Urban Studies](#). The OPUS Journal of Society Research is the direct successor of two previously published journals: OPUS Turkish Journal of Social Policies and Work Life Studies: OPUS International Journal of Society Research (ISSN 2528-9527 E-ISSN 2528-9535).

OPUS Journal of Society Research (JSR) is abstracted in EBSCO Information Services, ERIHPLUS European Reference Index For The Humanities and Social Sciences, Cite Factor, TEI Index of Turkish Education, ULAKBIM TR Index, SOBIAD Citation Index and ASOS Index.
