Volume 4 Issue 1 (2023)

Contents

- Microbiological and physicochemical properties of fermented and unfermented sweet potato flour **1-9**
Peace Omoikhudu Oleghe, Fred Coolborn Akharaiyi, Chioma Bertha Ehis-Eriakha, Emmanuel John Oboh
- Sensory properties of sweet and spicy fish flakes using vinegar and water as pre-treatment **10-14**
Rube May B. Palma, Joime O. Panglilingan, Irene Mae J. Salasain, Ali-Akbar I. Alawi, Jurma A. Tikmasan, Fathma S. Abduhasan, Rosalinda P. Shariff, Jurmin H. Sarri, Iannie P. Maribao
- A waste material rich in bioactive compounds: Hazelnut waste **15-25**
Göktürk Öztürk
- Effect of ethanolic extract of *Cephalaria syriaca* on dough rheological properties from different wheat flour blends: A comparative study with ascorbic acid **26-32**
Hatice Bekiroglu, Perihan Kubra Akman, Oznur Topcu, Fatih Tornuk, Saliha Memis, Elif Seyma Bagdat, Osman Sagdic
- Scholastic modeling of pH and redox potential changes in olive tree leaf alcohol and acids containing incubation media designed for the steady growth of *Acetobacter aceti* and *Saccharomyces cerevisiae* **33-40**
Yakup Ermurat
