AIM AND SCOPE

AIM

International Journal of Agriculture, Environment and Food Sciences (JAEFS) is a scientific, open access, online-only periodical published in accordance with independent, unbiased, and double-blinded peer-review principles. The journal published electronically 4 times (March, June, September, and December) in a year. The publication languages of the journal is English.

International Journal of Agriculture, Environment and Food Sciences is indexed and abstracted in TÜBİTAK ULAKBİM TR Dizin, DOAJ, AGRIS, CAB Abstracts, AGORA, SOBIAD, Scilit, ROAD, Neliti, WorldCat, ESJI, Base, IFIS, CNKI and other indexes.

The editorial and publication processes of the International Journal of Agriculture, Environment and Food Sciences are shaped in accordance with the guidelines of the Council of Science Editors (CSE), Committee on Publication Ethics (COPE), European Association of Science Editors (EASE), and National Information Standards Organization (NISO). The International Journal of Agriculture, Environment and Food Sciences is in conformity with the Principles of Transparency and Best Practice in Scholarly Publishing (<https://doaj.org/apply/transparency/>).

All articles in the International Journal of Agriculture, Environment and Food Sciences are published in the full open-access model. All editors, authors and readers can access all issues and articles free of charge. Therefore, an article processing charge (APC) is requested from each manuscript sent to evaluation, regardless of the number of pages, to cover the expenses needed during the editorial process, referee evaluation process, acceptance for publication, publication, and post-publication processes. For detailed information, please see "The Article Processing Charge (APC) Policy" page: <https://dergipark.org.tr/en/pub/jaefs/price-policy>

Statements or opinions expressed in the manuscripts published in the journal reflect the views of the author(s) and not the opinions of the International Journal of Agriculture, Environment and Food Sciences, editors, editorial board, and/or publisher; the editors, editorial board, and publisher disclaim any responsibility or liability for such materials.

All responsibility for the published articles belongs to the authors.

Articles will not be accepted for evaluation if they have been published or if they are considered for publication elsewhere and if they are not prepared according to the publication rules. Only articles sent online via our website (<https://dergipark.org.tr/en/journal/2032/submission/step/manuscript/new>) containing the appropriately filled copyright agreement and acknowledgement of authorship form would be considered for publication. The journal guidelines, technical information, and the required forms are available on the journal's writing rules page (<https://dergipark.org.tr/en/pub/jaefs/writing-rules>).

SCOPE

International Journal of Agriculture, Environment and Food Sciences aims to contribute to the science by publishing high quality publications in all fields of agriculture, environment and food Sciences. The journal publishes original articles and compilations.

The scope of the journal includes but not limited to agriculture, environment and food Sciences like agronomy, agricultural engineering, biotechnology, animal science, plant science, horticulture, crop science, plant breeding, plant fertilization, plant protection, soil science, agricultural economics, sustainable agriculture, aquaculture, biological engineering, food science, food health and nutrition, husbandry, irrigation and water management, land use, entomology, environmental science, waste management, molecular biology, organic agriculture, plant physiology, plant breeding, veterinary.

OPEN ACCESS AND COPYRIGHT POLICY

OPEN ACCESS POLICY

The International Journal of Agriculture, Environment and Food Sciences (JAEFS) adopted the policy of providing open access with publications. All publications in the International Journal of Agriculture, Environment and Food Sciences are free available on the public internet, permitting any users to read, download, copy, distribute, print, search, or link to the full texts of these articles, crawl them for indexing, pass them as data to software, or use them for any other lawful purpose, without financial, legal, or technical barriers other than those inseparable from gaining access to the internet itself.

The International Journal of Agriculture, Environment and Food Sciences is an open access publication, and the journal's publication model is based on Budapest Access Initiative (BOAI) declaration. All published content is available online, free of charge at <https://dergipark.org.tr/en/pub/jaefs/archive>. Authors retain the copyright of their published work in the International Journal of Agriculture, Environment and Food Sciences. The journal's content is licensed under a Creative Commons Attribution-NonCommercial (CC BY-NC) 4.0 International License which permits third parties to share and adapt the content for non-commercial purposes by giving the appropriate credit to the original work.

COPYRIGHT POLICY

The International Journal of Agriculture, Environment and Food Sciences is an open access publication, and the journal's publication model is based on Budapest Access Initiative (BOAI) declaration. All published content is available online, free of charge <https://dergipark.org.tr/en/pub/jaefs/archive>. The journal's content is licensed under a Creative Commons Attribution-NonCommercial (CC BY-NC) 4.0 International License which permits third parties to share and adapt the content for non-commercial purposes by giving the appropriate credit to the original work. Authors retain the copyright of their published work in the International Journal of Agriculture, Environment and Food Sciences.

The International Journal of Agriculture, Environment and Food Sciences requires each submission to be accompanied by a Copyright Agreement and Acknowledgement of Authorship Form. By signing this form, authors retain the copyright of their work and agree that the article, if accepted for publication by the International Journal of Agriculture, Environment and Food Sciences will be licensed under a Creative Commons Attribution-NonCommercial (CC BY-NC) 4.0 International License.

The author(s) who publish with the International Journal of Agriculture, Environment and Food Sciences agree to the following terms;

- Copyrights for articles published in the International Journal of Agriculture, Environment and Food Sciences are held by the author(s), with first publication rights granted to the journal.
- The author(s) is(are) the sole owner(s) of the article, has(have) full right and title to copyright in the article and has(have) the right to reproduce the article for his/her/their own purposes provided the copies are not offered for sale.
- The author(s) must warrant that the work and all figures, illustrations, photographs, charts, and other supplementary material are original.
- The author(s) must take responsibility for all parts of the article.
- The author(s), upon the publication of their work, can publish it in online environments and/or social networks (personal webpages, Researchgate, Facebook, Instagram etc.).

SUBMISSION AND REVIEW PROCESS

SUBMISSION PROCESS

Manuscripts can only be submitted electronically through the International Journal of Agriculture, Environment and Food Sciences online manuscript submission and evaluation system, available at <https://dergipark.org.tr/en/journal/2032/submission/step/manuscript/new>.

All authors must be registered in the DergiPark online manuscript submission and tracking system (<https://dergipark.org.tr/en/pub/jaefs>), and during the upload of the article to the system, the names, the institution's addresses, e-mail, and ORCID numbers of all authors must be entered in the metadata section.

Instructions to Authors: <https://dergipark.org.tr/en/pub/jaefs/writing-rules>

REVIEW PROCESS

A manuscript can be considered the International Journal of Agriculture, Environment and Food Sciences only if the same work has not been published elsewhere or sent for publication.

1) Initial Evaluation

All editorial workflow is done online by logging into the Dergipark system (<https://dergipark.org.tr/jaefs>). Dergipark journal submission portal <https://dergipark.org.tr/en/journal/2032/submission/step/manuscript/new> assigns each manuscript a unique manuscript ID, and this identification number should be used in any communication with the editorial or technical personnel.

- Each submitted manuscript is pre-reviewed by the journal's editor(s) for its suitability for the International Journal of Agriculture, Environment and Food Sciences.
- The manuscript may be rejected before the peer-review stage if it does not fit the journal's scope.
- In addition, the manuscript is sent back to the author in case it is not well-written.
- Checking the manuscript by a native English speaker is recommended if it is written in English.
- If the manuscript is found suitable for peer review after the first evaluation made by the editorial office, it is sent to at least two reviewers.

2) Article Processing Charge Payment

Once an article is submitted to the International Journal of Agriculture, Environment and Food Sciences, the Article Processing Charge must be paid in order for the article to start the peer-review process.

Article Processing Charge Policy: <https://dergipark.org.tr/en/pub/jaefs/price-policy>

When a manuscript is submitted, it passes through the many different processes at the International Journal of Agriculture, Environment and Food Sciences to ensure that quality checks, peer review, production, and article promotion are carried out promptly and to a high standard.

After the initial evaluation process of the article, the editorial office of the journal requests payment of the article processing charge from the corresponding author. The reviewer evaluation process is started for the paid articles.

3) Reviewer Evaluation

International Journal of Agriculture, Environment and Food Sciences employs a double-blind peer review, where the reviewer and author remain anonymous throughout the process.

Peer review is a serious evaluation procedure for maintaining a high standard of intellectual work. The process is designed to maintain constructive critical evaluation to submissions to ensure that work achieves high academic standards.

Review reports help editors identify the eligibility of a manuscript for publication.

- Manuscripts that pass the editors' initial screening are sent to external expert evaluation by two or more reviewers.
- Manuscripts needing revision are electronically forwarded to the author(s).
- The author(s) should consider the reviewer's comments very carefully and explain each comment or criticism one by one; they

SUBMISSION AND REVIEW PROCESS

should also prepare a detailed explanation in case the author(s) do(es)n't agree with the reviewer's critics.

- The editor makes a final decision after consulting revisions and corrections made by the author(s).

Editors may decide to seek assistance from additional editors or reviewers before reaching a final decision. The review process is expected to be completed within 3-6 months after the application. In some cases, longer periods can be inevitable, depending on feedback from reviewers, author response times to revisions, and the number of revisions.

4) Editor Evaluation

The editor-in-chief can accept, reject or request minor/major revisions based on the review report of the editorial review board.

Acceptance

After a manuscript is accepted, it will be sent to our production team for copy-editing, English editing, proofreading by the authors, final corrections, pagination, and, publication on the <https://dergipark.org.tr/jaefs> website. Authors will take an e-mail notification when galley proof is ready for review.

Minor Revision

The authors are informed to prepare and submit a final copy of their manuscript with the necessary minor changes suggested by the reviewers. Along with their review reports on the revised manuscript, the reviewers make a recommendation again.

Major Revision

Authors are expected to revise their manuscript according to this recommendation and submit their revised manuscript in a timely manner. After the revised manuscript is submitted, the original reviewers are asked to review it. Together with the review reports on the revised manuscript, the reviewers make a recommendation again.

Rejection

If a paper is not suitable for publication, it will be returned to the authors with an explanation of reasons for rejection.

5) Final Evaluation

After the favorable opinions of reviewers, the Editorial Board is made the final evaluation.

The articles accepted for publication by Editorial Board are placed in an issue sequence.

6) Layout

The articles accepted for publication are prepared for publication by typing. The Galley Proof file is sent to the corresponding author for final control. Corresponding author reviews the file and submits correction suggestions.

7) Publishing

The typed article is published after the last reading.

8) Archive

All published articles are saved in the journal archive.
