Publishing Policy

Kader is an international academic journal published two times (June and December) a year. The journal provides to publish high quality research articles, and besides them, translated papers, research notes, book and dissertation reviews, evaluations of academic activities such as symposiums, congresses and workshops and works such as edition critiques and text simplifications in Kalām (Islamic Theology) and interdisciplinary fields related to Kalām. Each article to be submitted must contain an abstract comprising the introduction, methodology, findings, discussions and conclusion sections briefly, both in Turkish and English between 350-400 words (may not exceed 5000 characters including space). The articles due to be published are carried out on the principle of double blind review. The articles are verified by plagiarism detection program that they do not contain any plagiarism and that they are not previously published. Kader adopts open access and free scientific publishing as a principle, published online through TUBITAK ULAKBİM's DergiPark system, which allows academic journals published in Turkey to be published electronically. No fee is charged from the authors for the publication of the article, and the published articles can be accessed free of charge under the [CC BY NC ND 4.0](https://creativecommons.org/licenses/by-nc-nd/4.0/) license. The final decision regarding the publication of the articles belongs to the editorial board. Scientific and legal responsibility of the articles published in our journal belong to the respective authors.
