## AIMS AND SCOPE

Food Science and Engineering Research is a peer reviewed, open access, online-only journal published by the Atatürk University.

Food Science and Engineering Research is a biannual journal that is published in English, and Turkish in March and September.

As of 2023, the journal has changed its title to Food Science and Engineering Research.

Current Title  
Food Science and Engineering Research  
EISSN: 2980-1451

Previous Title (2022)  
ATA-Gıda dergisi  
EISSN: 2822-2776

Food Science and Engineering Research is covered in EBSCO.

Food Science and Engineering Research aims to contribute to the literature by publishing manuscripts at the highest scientific level. The journal publishes research articles and reviews that are prepared in accordance with ethical guidelines.

The scope of the journal includes, but is not limited to, topics relevant to milk and dairy products technology, meat and meat products technology, grain and grain products technology, fruit and vegetable technology, food chemistry and toxicology, food microbiology, food hygiene and sanitation, food ethics and legislation, food biotechnology, food safety, and all other related interdisciplinary theoretical research.

The target audience of the journal includes researchers and specialists who are interested or working in all fields within the journal's scope.

### Disclaimer

The statements or opinions expressed in the manuscripts published in the journal reflect the views of the author(s) and not the views of the editors, editorial board, and/or publisher. The editors, editorial board, and publisher are not responsible for the content of the manuscripts and do not necessarily endorse the views expressed in them. It is the responsibility of the authors to ensure that their work is accurate and well-researched, and the views expressed in their manuscripts are their own. The editors, editorial board, and publisher simply provide a platform for the authors to share their work with the scientific community.

### Open Access Statement

Food Science and Engineering Research is an open access publication.

Starting on March 2023, all content published in the journal is licensed under the Creative Commons Attribution-NonCommercial (CC BY-NC) 4.0 International License which allows third parties to use the content for non-commercial purposes as long as they give credit to the original work.
