

A Note from the Editor,

Welcome to the first peer-reviewed issue of *Turkish Journal of Energy Policy*. This journal was previously published under the title of *Energy Policy Turkey*. We hope that this journal along with its new name and issues will become an essential part of your academic or professional life, a resource that you depend on to keep up with the rapidly evolving issues of national, regional or global energy policy in line with global warming issues.

We want to create a balanced journal that appeals both to practitioners applying their skills on energy issues and to researchers creating new theoretical or empirical models. We want the *Turkish Journal of Energy Policy* to have broad appeal, whether you work in business, government, or academia, and regardless of your nation of practice. You can find out more about submitting a paper to the journal on our website at <http://dergipark.gov.tr/tjep>

We would like to thank you for your support and interest, and are looking forward to meeting you in the next issue.

Kind Regards,

Assoc.Prof.Dr. Levent Aydın
