-Research Article-

1.	Investigation of The Fatigue Behavior of Gyrocopter Propellers Produced From 6061 T6 Aluminum Alloy Ahmet Özer Öz, Ercüment Türkoğlu, Umut Önen and Mustafa Taşkın	192
2.	Design and Implementation of A Low-Cost Parachute Landing System for Fixed-Wing Mini Unmanned Aerial Vehicles Fatma Yıldırım Dalkıran, Emre Kırteke	198
3.	Maximization of Flight Performance of Eight-Rotor Multirotor with Differentiated Hub Angle Enes Özen, Tuğrul Oktay	206
4.	Statistical Analysis of Airfoil Usage in Aircraft Seyhun Durmuş	214
5.	Acquisition of Flight Data from Mini Unmanned Aerial Systems Mehmet Konar, Didem Özdemir, Melih Erşen and Mustafa Fenerci	221
6.	Effect of Laser Surface Texturing Process on Dry Sliding Wear Behavior of NiTi Shape Memory Alloy Used in Airplane Yılmaz Küçük, Emre Altaş, Hüseyin Bahar and Mustafa Gök	229
7.	Climb Performance Prediction in High Drag Configuration Middle-Class Transportation Aircraft: An Ensemble Learning Approach Hamdi Ercan, Mustafa Akın, Bayram Taşdelen	235
8.	Use of UAVs in Earthquakes and UAV Base Location Selection for a Possible Marmara Earthquake Murat Yazırdağ, Şenol Altan	243
9.	The Role of the Beechcraft C90 GTi Aircraft Used Within the Scope of Basic Flight Training Abdullah Hayta, Uğur Özdemir, K. Gülnaz Bülbül	252
10.	The Effect of Service Encounters at Airports on Visitors' Behavior within the Scope of Social and Environmental Sustainability Furkan Karaman, Özlem Atalık	260
11.	Financial Failure Analysis of Airline Companies by Altman Z" and Springate S Score Models Yusuf Bahadır Kavas, Batuhan Medetoğlu, Salih Tutar	269
12.	Exploring Cargo Potential of an Airport: Pre-Feasibility Study and Policy Recommendations for Hasan Polatkan Airport Ferhan Şengür, Vildan Durmaz, Mustafa Uzgör and Temel Caner Ustaömer	277
13.	An Examination of the Sustainability Activities of Global Airline Collaborations within the Scope of IATA's Sustainability Goals Volkan Mazıoğlu, Habibe Güngör	288
14.	Flight in Transition: Navigating the Skies of Automation and Human Judgement Ayşe Aslı Yılmaz	305
15.	The Safety Management System (SMS) As A Tool for Building Safety Culture in Aviation: A Qualitative Research Gizem Kartal, Gokben Bayramoğlu	315
16.	Workplace Romance: A Research on Flight Attendants in Aviation Industry Ramazan Çoban	325
17.	The Interaction of Global Economy Mobility on the Financial Performance of Flagged Airlines Orhan Özaydın	339
18.	An Assessment of an Airline Company within the Scope of Circular Economy Based Waste Management Sinem Büyüksaatçı Kiriş, Binnur Gürül	347

19.	Reflection of Crew Resource Management (CRM) Trainings to Real-Life Field Practice in Air Passenger Transportation: A Qualitative Research Özlem Munise Kaynak	357
20.	The Lessons from Sanctions on Iran and Their Impacts on the Development of Civil Aviation Understanding and Iranian Airlines Olca Ölçen	368
21.	Assessing the Impact of Hybrid Propulsion Systems on the Range and Efficiency of Aircraft Alihuseyn Maharramov, Elif Koruyucu	377
22.	The Role of Organizational Trust in Shaping Commitment and Reducing Turnover Intention in Aviation Harun Yılmaz, Cemal Durmuşçelebi, Seda Arslan	385
