

SUBJECT INDEX

TITLE

A biomarker for estimating no-reflow phenomenon in PCI-treated non-ST-segment elevation myocardial infarction patients: serum Cystatin C	108.
Adjuvant denosumab treatment in patients with resectable high-risk giant cell tumor of bone	225.
Adolescent patients presenting to the emergency department due to falls from heights: a comparative analysis of suicidal and non-suicidal cases	55.
Analgesic effects of thoracic fascial plane blocks in postoperative pain management following cardiac surgery with sternotomy: a retrospective study	127.
Analysis of maxillary sinus volume of a group of population living on the southern border of Southeastern Anatolia	210.
Assessing the readability of diabetes information provided by the Turkish Ministry of Health	367.
Assessment of tumor location in adjuvant treatment decision for stage II colon cancer	293.
Association between red blood cell transfusion and mortality in critically ill children: a single-center pediatric intensive care experience	11.
Asymptomatic COVID-19 and structural changes in the brain	59.
Atherogenic plasma index is associated with ischemic cerebrovascular events due to carotid artery disease	198.
Attention deficit hyperactivity disorder in the diabetic population: relationship with metabolic syndrome and atherogenic index of plasma	65.
ChatGPT in medical writing: enhancing healthcare communication through artificial intelligence and human expertise	97.
Clinical characteristics of patients discharged from a palliative care center to home care: a retrospective cross-sectional study	155.
Clinical profiles in pediatric systemic lupus erythematosus: a retrospective study	29.
Comparison of classical and anchorage methods in sacrospinous ligament fixation	278.
Dental caries from the past to the future: Is it possible to reduce caries prevalence?	240.
Determining the effectiveness of basic first aid training provided to secondary school student	299.
Duodenal IgE and mast cells changes in diabetes mellitus patients	1.
Effect of different DMARD use on the frequency of urinary infection in patients with rheumatoid arthritis	38.
Empowering paramedics to save teeth: a comprehensive assessment of their knowledge and skills in managing dental traumas	215.
Enchondroma of acromion: case report of an unusual tumor location	105.
Etiology in resistant hypertension	232.
Etoposide hypersensitivity reactions and outcomes of desensitizations in immediate-type hypersensitivity reactions	175.
Evaluating the effects of bleaching on color stability and surface roughness in single-shade and multi-shade resin composites	372.
Evaluating the quality and reliability of YouTube videos on Achilles tendinopathy: a comprehensive analysis	319.
Evaluation of rabies risk contact cases	229.
Evaluation of systemic immune-inflammation index, systemic inflammatory response index and hematologic inflammatory parameters in generalized anxiety disorder: a controlled study	161.
Evaluation of the effect of the quality and quantity of fluid drained due to pleural effusion on complications that may develop in intensive care unit	198.
Evaluation of the satisfaction of relatives of patients being treated in the intensive care unit	313.
Evaluation of Tp-e interval, Tp-e/QT, and Tp-e/QTc ratio in primary hyperparathyroidism before and after parathyroidectomy	73.
Exploring the nexus: prevalence, risk factors, and clinical correlations of urinary tract infections in diabetes mellitus patients - a comprehensive retrospective analysis	93.
Factors affecting need for hormone replacement after thyroid lobectomy	181.
FGF-21 Level is higher in patients with breast cancer, a candidate for a new biomarker?	282.
<i>Helicobacter pylori</i> , non- <i>Helicobacter pylori</i> helicobacters and gastrointestinal diseases	397.
Hematological markers for prediction computed tomography findings in mild traumatic brain injury	355.
Incidence analysis of six diseases in the national newborn screening program: a retrospective study from Adiyaman, Turkiye (2019-2023)	361.
Information and approaches of emergency department physicians in the Cappadocia region regarding the preparation of forensic reports	6.
Investigation of <i>Babesia</i> species using molecular methods	337.
Investigation of risk factors for benign or malignant endometrial pathology in patients presenting with abnormal uterine bleeding	382.

SUBJECT INDEX

TITLE

Investigation of the effect of psychological birth order on perceived parental attitudes and early maladaptive schemas in adults.....	306.
Investigation of the treatment and follow-up approaches of pregnant with asthma.....	23.
Is essential tremor a risk factor for carpal tunnel syndrome? A prospective study excluding the most common comorbid conditions.....	325.
Lobectomy and pneumonectomy in patients over 70 years of age for the treatment of lung cancer: evaluation of surgical outcomes.....	191.
Long-term outcomes of cases after uvulopalatopharyngoplasty surgery: a retrospective study.....	215.
Meningomyelocele defect repair: surgical technique selection.....	331.
Pan-immune inflammation value as a biomarker in ankylosing spondylitis and associated with disease activity.....	48.
Pioglitazone/Exenatide/SGLT-2 inhibitor combination therapy versus insulin therapy in patients with poorly controlled type 2 diabetes.....	121.
Predictors of ejection fraction recovery and baseline differences in patients with peripartum cardiomyopathy and dilated cardiomyopathy.....	286.
Prolonged hospitalization in intensive care unit; contributing factors and impact on mortality.....	185.
Relationship between coronary artery disease and high-density lipoprotein cholesterol-monocyte ratio.....	116.
Relationship between patellar resurfacing and postoperative anterior knee pain in total knee arthroplasty.....	210.
Relationship between Tpeak-Tend (TPE), TPE/QT ratio and TPE dispersion in patients with subclinical hyperthyroidism.....	133.
Relationship between ultrasonographic liver steatosis degree and oxidative/nitrosative stress in patients diagnosed with metabolic dysfunction-associated steatotic liver disease.....	391.
Retrospective analysis of polyps detected in colonoscopy and investigation of the relationship with anemia.....	44.
Sexual dysfunctions (SD) and selective serotonin reuptake inhibitors (SSRIs): from preclinical studies to intervention strategies.....	343.
Shunt options for normal pressure hydrocephalus: a comparison of complications, overdrainage rates and neurological outcomes between integra low flow regulated and Codman Hakim programmable shunts.....	204.
Temporal alterations in P-wave electrocardiographic metrics post patent foramen ovale closure: a retrospective study.....	87.
Termination of pregnancy for fetal anomaly: evaluation of single centre results.....	351.
The correlation between serum free light chain levels and plasma cell ratio in bone marrow biopsy in multiple myeloma.....	150.
The evaluation of gastrointestinal involvement and nutritional status in systemic sclerosis: identifying risk factors for malnutrition in a cross-sectional study.....	144.
The frequency and associated factors of pulmonary fibrosis by the twelfth month after community-acquired pneumonia.....	191.
The relationship between increased iron load and respiratory function tests in patients diagnosed with transfusion dependent thalassemia.....	139.
The relationship between melatonin level, oxidative stress, fatigue and sleep disorders in multiple sclerosis patients.....	168.
The relationship between physical activity and self-esteem among Turkish university students: a gender perspective; a multidisciplinary and multi-center study.....	17.
The relationship of serotonin level with syndrome X and coronary artery disease.....	203.
Using hormone therapy in breast cancer and its relationship with metabolic syndrome.....	80.
