## **ABOUT THE JOURNAL**

- ***Journal of Architectural Sciences and Applications*** (JASA), which started its publication life in 2016, is an international, scientific, and peer-reviewed e-journal and open access.
  - The literary languages of the journal are English and Turkish. JASA accepts original English research articles on routine issues. Both English and Turkish research and review articles are accepted in special issues.
  - JASA is published twice a year (in July and December).
  - Authors are not charged for articles submitted to the journal.
  - The journal uses double-blind peer review, which means that both the reviewer and author identities are concealed from the reviewers, and vice versa, throughout the review process.
  - All papers published in the journal comply with the provisions of the "YÖK Scientific Research and Publication Ethics Directive" and the relevant legislation and ethical principles published by the Committee on Publication Ethics (COPE). It is not possible for publications that started in 2020 to be published without "Ethics Committee Approval".
  - As of 2020, JASA has started to be indexed in the "TR Index" Science database and the Art Index (Art Research Database, EBSCO), which is the field index. JASA is also indexed in some national and international indexes.
