AIM & SCOPE

AIM

International Journal of Agriculture, Environment and Food Sciences is a scientific, open access, online-only periodical published in accordance with independent, unbiased, and double-blinded peer-review principles. The journal published electronically 4 times (March, June, September, and December) in a year. The publication languages of the journal is English.

International Journal of Agriculture, Environment and Food Sciences is indexed and abstracted in TÜBİTAK ULAKBİM TR Dizin, AGRIS, CAB Abstracts, AGORA, EBSCO, SOBIAD, Scilit, ROAD, Neliti, WorldCat, ESJI, Base, IFIS, CNKI and other indexes.

The editorial and publication processes of the International Journal of Agriculture, Environment and Food Sciences are shaped in accordance with the guidelines of the Council of Science Editors (CSE), Committee on Publication Ethics (COPE), European Association of Science Editors (EASE), and National Information Standards Organization (NISO). The International Journal of Agriculture, Environment and Food Sciences is in conformity with the Principles of Transparency and Best Practice in Scholarly Publishing (https://doaj.org/apply/transparency/).

All articles in the International Journal of Agriculture, Environment and Food Sciences are published in the full open-access model. All editors, authors and readers can access all issues and articles free of charge. Therefore, an Editorial Processing Charge (EPC) is requested from each manuscript sent to evaluation, regardless of the number of pages, to cover the expenses needed during the editorial process, referee evaluation process, acceptance for publication, publication, and post-publication processes.

For detailed information, please see "Editorial Processing Charge (EPC) Policy" page: https://dergipark.org.tr/en/pub/jaefs/price-policy

Statements or opinions expressed in the manuscripts published in the journal reflect the views of the author(s) and not the opinions of the International Journal of Agriculture, Environment and Food Sciences, editors, editorial board, and/or publisher; the editors, editorial board, and publisher disclaim any responsibility or liability for such materials.

All responsibility for the published articles belongs to the authors.

Articles will not be accepted for evaluation if they have been published or if they are considered for publication elsewhere and if they are not prepared according to the publication rules. Only articles sent online via our website (https://dergipark.org.tr/en/journal/2032/submission/step/manuscript/new) containing the appropriately filled copyright agreement and acknowledgement of authorship form would be considered for publication. The journal guidelines, technical information, and the required forms are available on the journal's writing rules page (https://dergipark.org.tr/en/pub/jaefs/writing-rules).

SCOPE

International Journal of Agriculture, Environment and Food Sciences aims to contribute to the science by publishing high quality publications in fields of agriculture, environment and food Sciences. The journal publishes original articles.

The scope of the journal includes but not limited to agriculture, environment and food Sciences like agronomy, agricultural engineering, biotechnology, animal science, plant science, horticulture, crop science, plant breeding, plant fertilization, plant protection, soil science, agricultural economics, sustainable agriculture, aquaculture, biological engineering, food science, food health and nutrition, husbandry, irrigation and water management, land use, entomology, environmental science, waste management, molecular biology, organic agriculture, plant physiology, plant breeding, veterinary.

Language English

Frequency 4 Issues Per Year (March, June, September, December)

Type of Publication International, Scientific, Open Access, Double-blinded peer-review, Widely distributed

periodical.

Aims and Scope JAEFS publishes high-quality original research articles that feature innovative or

emerging technologies in all fields of agriculture, environment, and food sciences, contributing to the development of agriculture, environmental sustainability, and

food technologies.

Price Policy Editorial Processing Charge(EPC) are paid by authors or their institution.

This fee will be requested regardless of the acceptance/rejection condition of the

article. https://dergipark.org.tr/en/pub/jaefs/price-policy

Indexed and Abstracted in TÜBİTAK ULAKBİM TR Dizin, AGORA (Access to Global Online Research in Agriculture), AGRIS (Agricultural Science and Technology Information), EBSCO, WorldCat, SOBIAD, Scilit, ROAD (Directory of Open Access Scholarly Resources), Neliti, International Citation Index, ROOT Indexing, ResearchBib, Index Copernicus International, ESJI, JournalTOCs, TEELS, ResearchGate, Microsoft Academic,

Crossref, Google Scholar

ACKNOWLEDGEMENT OF REVIEWERS

Dear Readers,

Our reviewers perform very important and precious role in the evaluation of the scientific articles, make valuable contributions to the increasing quality and the rising at an international level of the International Journal of Agriculture, Environment and Food Sciences.

Editorial Board would like to thank all the reviewers that are listed below for their support in International Journal of Agriculture, Environment and Food Sciences in 2025 June issue.

June 2025 Issue Reviewers	
Abdullah Taşkın	Hava Şeyma İnci

CONTENTS

1. Optimizing irrigation scheduling using a drip system to enhance water use efficiency in tomato cultivation Tahmina Akter , Nargis Akter , Ashutus Singha , Mohammad Nurun Nabi Mazumder 2. Characterization of local Besni pepper (Capsicum annuum L.) genotypes with SRAP and ISSR markers Mirac Şahin , Halit Yetişir , Hasan Pinar , Akife Dalda Şekerci 3. Assessing determinants of livelihood vulnerability to climate change impact in rural communities context in arsi and east shewa zones of oromia region, Ethiopia Gerishu Bati Waritu 4. Evaluation of surface water quality in the Southern Marmara Agricultural Basin Miraç Nur Ciner , H. Kurtuluş Özcan 5. The interactive effects of salinity and drought stress on germination, seedling growth, and physiological parameters of pumpkin Gamze Kaya 6. Investigation of the growing performance of promising almond genotypes obtained through selection breeding under in vitro conditions Sevim Gök , Mansur Hakan Erol , Dicle Dönmez , Yıldız Aka Kaçar 7. Anti-infective effect of Aquilaria malaccensis L. essential oil against Candida strains, the leading cause of yeast infectious Tuba Unver , Ayşe Şebnem Özalp Erenler , Tuğba Raika Kıran 8. Sensitivity analysis of uranium reduction and its reoxidation by Fe(III)- (hydr)oxides biogeochemical reaction dynamics S. Sevinc Sengor 9. Analysis of physicochemical and mechanical quality characteristics of early-maturing table grape varieties Önder Kamiloğlu , Serpil Tangolar , Sevil Cantürk , Semih Tangolar 10. Soil chemistry in apricot cultivation: evaluation of C and N dynamics by PCA and correlation analysis Asuman Büyükklıç Yanardağ 11. Optimization and sensory analysis of a beetroot, apple, and oat-based beverage using response surface methodology Tuğba Gül Dikme 12. Determination of the usability of jam factory fruit-vegetable wastes in silage making Hava Şeyma İnci , Süheyl Tuğ , Erdal Çaçan , Eren İnak 13. Comparison of the winter bud productivity, rooting and shoot development parameters of some Vitis spp. with single bud	261-271 272-282 283-295 296-308 309-318 319-324 325-330 331-347 348-359
