Aims and Scope

Plant Protection Bulletin has been published by Plant Protection Central Research Institute since 1952. The journal is published four times a year with original research articles in English or Turkish languages on plant protection and health. It includes research on biological, ecological, physiological, epidemiological, taxonomic studies and control methods of disease, pest, weed, and natural enemies that cause damage in plants and plant products. In addition, studies on residue, toxicology and formulations of plant protection products and plant protection machinery are also included. Article evaluation process is based on double blind referee system and published as open access. Annual biological studies, short communication, first report and compilations do not publish in the journal.

Abstracted/indexed by EBSCOhost, CAB Abstracts, Clarivate Analytics-Zoological Record, TR-Dizin.

Plant Protection Bulletin is quarterly publication of the Directorate of Plant Protection Central Research Institute on behalf of General Directorate of Agricultural Research and Policies.

Contents / İçindekiler

Original araştırmalar (Original articles)

- Effects of trifloxysulfuron-sodium and fluometuron herbicides on cotton and cocklebur (*Xanthium strumarium* L.)** 5
 Trifloxysulfuron-sodium ve fluometuron herbisitlerinin pamuk ve domuz pıtrağı (*Xanthium strumarium* L.) üzerine etkileri
 İslam Emrah SÜER, Nihat TURSUN
- Investigation of the effects of weeds and different control methods on walnut seedling height and stem diameter in the walnut nursery of Kahramanmaraş province** 14
 Kahramanmaraş ili ceviz fidanlığında bulunan yabancı otların ve farklı mücadele yöntemlerinin ceviz fidan boyu ve gövde çapına etkisinin araştırılması
 Tamer ÜSTÜNER
- Synergistic effects of endophytic bacteria and silicon on controlling common bacterial blight disease in beans** 26
 Fasulye bakteriyel adi yanıklık hastalığının kontrolünde endofitik bakteri ve silisyumun sinerjistik etkileri
 Ruken ÇELİK, Ahmet AKKÖPRÜ
- Effect of temperature on the migration of the Sunn pest *Eurygaster maura* L. 1758 (Hemiptera: Scutelleridae) from overwintering area** 38
 Süne, *Eurygaster maura* L. 1758 (Hemiptera: Scutelleridae)'nın kışlaktan göç seyrine sıcaklığın etkisi
 Numan Ertuğrul BABAROĞLU, Mümtaz ÖZKAN, Mehmet ÇULCU, Emre AKCI
- Potential of a *Bacillus* spp. consortium as a biological control agent of purple spot (*Alternaria porri* (Ellis) Cif.) and enhancement of shallot growth and production** 50
Bacillus spp. konsorsiyumunun mor leke (*Alternaria porri* (Ellis) Cif.) hastalığının biyolojik kontrol ajanı olarak potansiyeli ve arpacık soğanı büyümesi ve üretiminin artırılması
 Yulmira Yanti, Hasmiandy Hamid, Nurbailis Nurbailis, Ilham Wibowo
- Management of Egyptian broomrape [*Phelipanche aegyptiaca* (Pers.) Pomel] using biofungicide (*Trichoderma* spp.) in tomato** 61
 Domateste biyofungisit (*Trichoderma* spp.) kullanılarak Mısırlı canavar otu [*Phelipanche aegyptiaca* (Pers.) Pomel]'nin ücadelesi
 Esra ÇİĞNİTAŞ, Gürkan BAŞBAĞCI
- Otospermum glabrum* extracts: antioxidant properties and bioactivity against fungal pathogens and *Aphis fabae*** 69
Otospermum glabrum özleri: fungal patojenlere ve *Aphis fabae*'ye karşı antioksidan özellikler ve biyoaktivite
 Mohammed ALLOUANI, Noui HENDEL, Dahou MOUTASSEM, Djamel SARRI, Madani SARRI, Abdallah KHERBACHE, Meriem SAHRAOUI
