#### **TURKISH JOURNAL OF ENGINEERING (TUJE)**

Turkish Journal of Engineering (TUJE) is a multi-disciplinary journal. The Turkish Journal of Engineering (TUJE) publishes the articles in English and is being published 3 times (January, May, September) a year. The Journal is a multidisciplinary journal and covers all fields of basic science and engineering. It is the main purpose of the Journal that to convey the latest development on the science and technology towards the related scientists and to the readers. The Journal is also involved in both experimental and theoretical studies on the subject area of basic science and engineering. Submission of an article implies that the work described has not been published previously and it is not under consideration for publication elsewhere. The copyright release form must be signed by the corresponding author on behalf of all authors. All the responsibilities for the article belongs to the authors. The publications of papers are selected through double peer reviewed to ensure originality, relevance and readability.

#### **AIM AND SCOPE**

The Journal publishes both experimental and theoretical studies which are reviewed by at least two scientists and researchers for the subject area of basic science and engineering in the fields listed below:

- Aerospace Engineering
- Environmental Engineering
- Civil Engineering
- Geomatic Engineering
- Mechanical Engineering
- Geology Science and Engineering
- Mining Engineering
- Chemical Engineering
- Metallurgical and Materials Engineering
- Electrical and Electronics Engineering
- Mathematical Applications in Engineering
- Computer Engineering
- Food Engineering

#### **PEER REVIEW PROCESS**

All submissions will be scanned by iThenticate® to prevent plagiarism. Author(s) of the present study and the article about the ethical responsibilities that fit PUBLICATION ETHICS agree. Each author is responsible for the content of the article. Articles submitted for publication are priorly controlled via iThenticate ® (Professional Plagiarism Prevention) program. If articles that are controlled by iThenticate® program identified as plagiarism or self-plagiarism with more than 25% manuscript will return to the author for appropriate citation and correction. All submitted manuscripts are read by the editorial staff. To save time for authors and peer-reviewers, only those papers that seem most likely to meet our editorial criteria are sent for formal review. Reviewer selection is critical to the publication process, and we base our choice on many factors, including expertise, reputation, specific recommendations and our own previous experience of a reviewer's characteristics. For instance, we avoid using people who are slow, careless or do not provide reasoning for their views, whether harsh or lenient. All submissions will be double blind peer reviewed. All papers are expected to have original content. They should not have been previously published and it should not be under review. Prior to the sending out to referees, editors check that the paper aim and scope of the journal. The journal seeks minimum three independent referees. All submissions are subject to a double blind peer review; if two of referees gives a negative feedback on a paper, the paper is being rejected. If two of referees gives a positive feedback on a paper and one referee negative, the editor can decide whether accept or reject. All submitted papers and referee reports are archived by journal Submissions whether they are published or not are not returned. Authors who want to give up publishing their paper in TUJE after the submission have to apply to the editorial board in written. Authors are responsible from the writing quality of their papers. TUJE journal will not pay any copyright fee to authors. A signed Copyright Assignment Form has to be submitted together with the paper.

### **PUBLICATION ETHICS**

Our publication ethics and publication malpractice statement is mainly based on the Code of Conduct and Best-Practice Guidelines for Journal Editors. Committee on Publication Ethics (COPE). (2011, March 7). Code of Conduct and Best-Practice Guidelines for Journal Editors. Retrieved from [http://publicationethics.org/files/Code%20of%20Conduct\\_2.pdf](http://publicationethics.org/files/Code%20of%20Conduct_2.pdf)

### **PUBLICATION FREQUENCY**

The TUJE accepts the articles in English and is being published 3 times. January, May, September a year.
