

Welcome Address of the Congress President

Anatomy 2021;15(Suppl 2):Siv ©2021 Turkish Society of Anatomy and Clinical Anatomy (TSACA)

Dear Neuroscientists,

It is my pleasure to welcome you all to the 19th Turkish Neuroscience Congress that is organised by the Neuroscience Society of Turkey between 21–23 November, 2022. Due to the COVID-19 pandemic, our congress is held online. Digital facilities are provided by Yeditepe University for this virtual meeting.

From molecular and cellular neuroscience to behavior, development to imaging and methodology to experimental models and new strategies, on all aspects of neuroscience, there are six plenary lectures, three symposia, four panels, two workshops and a total of 78 oral and 30 poster presentations included in the scientific program. The keynote speakers include Professors Erin Schuman (Max Planck Institute for Brain Research), Alev Erişir (University of Virginia), Ali Ertürk (Institute for Tissue Engineering and Regenerative Medicine, Munich), Cenk Ayata (Harvard Medical School), Mehmet

Fatih Yanık (ETH Zurich, Institute for Neuroinformatics) and Georg Northoff (University of Ottawa).

In this congress, esteemed neuroscientists from Turkey and internationally, with representation from FENS, IBRo and SfN will be joining. We aim to present an academic platform for sharing new developments and facilitating collaborations for new research projects in neuroscience.

We would like to gratefully thank you for your support that made this congress possible, and your participation and are looking forward to meeting you online starting on Sunday (November 21, 2021) afternoon at the 19th Turkish Neuroscience Congress.

Sincerely,

Congress President

Prof. Dr. Bayram Yılmaz (Neuroscience Society of Turkey)
