

SEMPOZYUM

SECOND INTERNATIONAL TURKISH GEOLOGY WORKSHOP

Türkiye jeolojisine katkı amacıyla ilki 1992 yılında Keele (İngiltere) de yapılan ve 3 yılda bir düzenlenen "Uluslararası Türkiye Jeolojisi Workshop" unun ikincisi 6 - 8. Eylül 1995 tarihleri arasında Sivas Cumhuriyet Üniversitesi Jeoloji Mühendisliği Bölümü tarafından gerçekleştirilmiştir.

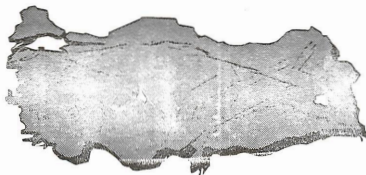

Toplantıda genel jeoloji, mineraloji - petrografi; maden yatakları - jeokimya, uygulamalı jeoloji disiplinlerine ait ülkemizde yapılmış özgün 78 araştırmancının bildiri ve poster sunumları yapılmıştır. Ayrıca bildiri sunumları yapılmayan Azerbaycanlı araştırmacıların kendi ülkelerine ait hazırladıkları 41 çalışmanın özü, abstract kitabında yer almıştır. Sunulan bildiriye ait makalelerin uluslararası bir jeoloji dergisinde basılması planlanmaktadır. Workshop abstract kitabında yer alan bildiri başlıkları ve yazarları aşağıda verilmiştir.

SECOND INTERNATIONAL TURKISH GEOLOGY WORKSHOP

"WORK IN PROGRESS ON THE GEOLOGY OF TURKEY"

September 6 - 8, 1995
Cumhuriyet University, Sivas - Turkey

ISBN 975-7631-30-2

ABSTRACTS

A THREE DAY INTERNATIONAL WORKSHOP
FOCUSING ON THE CURRENT RESEARCHES
ON THE GEOLOGY OF TURKEY

- Abbasov, A.B.**
Stratigraphy and paleoecological conditions of Cretaceous radiolarities formation of the Lesser Caucasus
- Akay, E. and Erdoğan, B.**
Stratigraphic evolution of the Çankırı basin between Yerköy, Yozgat And Sungurlu
- Akyazi, M. and Özgen, N.**
About the presence of *Selimina spinalis* İnan and *Laffiteina Boluensis* Dizer in the Upper Maastrichtian outcrops at Ilgaz Mountains (Çankırı)
- Alekperov, K.H.A.**
Pleistocene mollusc fauna of Caspia, Its geological and palaeogeographical importance
- Aleskerov, B.**
Main stages the development of tectonic movements and relief of Azerbaijan in Pleistocene
- Aliyev, A.D. and Belov, I.**
Alternative hydrocarbon sources of Azerbaijan
- Aliyev, G.A. and Babayev, Sh. A.**
Stratigraphic distribution of *Orbitolines* in Urgon deposits of the Lesser Caucasus
- Alieva, E.G., Birukova, L.N. and Aliev, S.A.**
On some palaeogeographic peculiarities of Azerbaijan Upper Pliocene-Pleistocene Basins (By oxygen isotopes)
- Aliev, S.A., Alieva, E.G. and Birukova, L.N.**
On temperature conditions of the Upper Pliocene - Quaternary basins in Azerbaijan
- Alieva, S.G. and Shakhbazova, V.G.**
Importance of Gastropods for stratigraphy of the Eastern Azerbaijan Quaternary deposits
- Alizade, S.A. and Karayev, T.S.**
Magmatic volcanoes of Azerbaijan and its geochronology
- Alpaslan, M., Guezou, J.C. and Boztuğ, D.**
Structural and metamorphic features of the Easternmost part of the Kırşehir Block
- Altunel, E. and Hancock, P.L.**
Characteristics of extensional travertine-filled fissures in Western Turkey
- Aral, F.**
Physico-mechanical properties of the Yıldızeli (Sivas) travertines and their significance in the construction sector
- Atakishiyev, R. and Alekberov, A.S.**
Upper Pliocene fauna of the mammals in the Western Azerbaijan and its palaeogeographical importance
- Atalay, Z.**
Tectono-stratigraphic and sedimentological characteristics of the Tertiary deposits in the W-SW Sivas, Turkey
- Atayeva, E.Z.**
Correlation of Miocene deposits of Azerbaijan and Turkey (The Eastern Anatolia)
- Azadaliyev, J.A.**
Geologic-genetic model of Copper-Porphyrif formations of geosyncline-folded fields (On the example of the Lesser Caucasus)
- Azadaliyev, J.A.,**
Some actual problems of the endogenic metallogeny of the Lesser Caucasus
- Azizbekova, A. R.**
Zonal scheme of Upper Cretaceous of Azerbaijan in Mediterranean System (By Foraminiferas)
- Babayev, Sh.**
The palaeotemperature regime of inhabitation of the Nummulite's of the Eocene Seas of Azerbaijan
- Babayeva, G.J. and Imamverdiev, N.A.**
Composition and conditions of primary melt crystallisation of Upper Pliocene-Quaternary collision magmatism of Lesser Caucasus
- Babazade, A.D., Karayev, T.S., Koshkarly, R.O. and Shakhbazova, V.G.**
Micropaleontological investigations of mud volcanoes of Azerbaijan
- Babazade, V.M., Ramazanov, V.G., Kalandarov, B.G., Hüseyinzadeh, R.A. and Fataliev, R.A.**
Peculiarities of location and preditional criteria of copper-porphyrif deposits of Azerbaijan

- Barka, A. A.**
Active tectonics of Anatolia: Preliminary results of the 1988-1994 GPS measurements
- Bilgiç, T., Alişan, C. and Tulu, N.**
The age and the microflora of the coal beds in Balkaya Region (Erzurum-Oltu)
- Bozkurt, E.**
Metamorphism of Palaeozoic schists in the Southern Menderes Massif: Field, petrographic, textural, and microstructural evidence
- Dalgıç, S.**
Geotechnical problems in the excavation of the Bolu Motorway Tunnel, Turkey
- Dirik, K. and Göncüoğlu, M.C.**
Neotectonic characteristics of the Central Anatolia.
- Doğan, M., Yılmaz, Y., Tüysüz, O. and Doğan, A. U.**
Oceanic island imprints of Pontides
- Doğan, A.U., Doğan, M., Yıldız, M., Karakaş, Z., Yıldız, A. and Kadioğlu, Y.K.**
Geology of the Mudurnu valley area with special emphasis on the Western extension of the North Anatolian Fault Zone, Bolu Province, Turkey
- Doğan, A.U.**
Mineralogy and crystal chemistry of zeolite group minerals in Nevşehir Province, Turkey
- Doğan, A.U., Doğan, M. and Barış, I.**
Characterization of fibrous asbestos type minerals from Çankırı, Turkey
- Erler, A. and Göncüoğlu, M.C.**
Geologic and tectonic setting of the Yozgat batholith
- Efendiye, A.A. and Efendiye, R.M.**
Organic matter of mud volcanoes waters of Azerbaijan
- Elmas, A.**
Geological evolution of the Northeast Anatolia
- Gadjiyev, Y.A. and Karayeva, R.S.**
Volcanoes as indicators of oil and gas presence in the South-Caspian Depression
- Gadiyeva, T.M., Aliyev, G.A. and Zohrabova, V.R.**
Hybrid hypothesis of flysch formation (On example of the South-East Azerbaijan)
- Garayev, S.**
On the use of geophysical techniques in the exploration of polymetallic ore deposits in the Great Caucasus Region, Azerbaijan
- Gasonov, T.A.**
A correlation of Jurassic deposits in Nakhichevan, Northern Iran and Northern Turkey
- Geydarov, A.S.**
Radioactive and alkaline elements in granitoids of the Lesser Caucasus
- Genç, S. and Güven, İ. H.**
Major element petrochemistry of the Upper Cretaceous - Palaeocene volcanics and implications for the geotectonic evolution of Eastern Pontides, Trabzon - Gümüşhane Region, NE Turkey
- Gökçe, A..**
Geological and genetic similarities within the antimony deposits and prospects in Turkey
- Gökten, E., Özaksoy, V. and Karakaş, K.**
Tertiary volcanic and tectonic evolution of Ayaş-Güdül-Çeltikçi Region (NW Ankara)
- Guezou, J.C., Poisson, A., Temiz, H. and Gürsoy, H.**
Southward back-thrusting along the northern margin of the Sivas Basin, Kinematics and Late Neogene basin setting.
- Gusnov, D.A. and Kerimov, R.B.**
Isotopy of sulphur sulphides and sources of ore formation solution of Gold-Sulphide deposits of the Lesser Caucasus (Azerbaijan)
- Gündoğan, İ. and Helvacı, C.**
Geology and recent evaporite formations of Bolluk and Tersakan Lakes, Konya, Turkey
- Gürbüz, K. and Uçar, L.**
Book view Miocene biohermal reef bodies in the Mut Basin, Southern Turkey
- Gürer, A.**
The deep conductivity structure of North Anatolian Fault Zone and İstanbul Sakarya Zones along Gölpaazarı-Akçaova Profile, NW Anatolia.
- Gürsoy, H., Tatar, O., Temiz, H., Guezou, J.C., Ünlügenç, U.C. and Poisson, A.M.**
Tectonostratigraphy and tectonic style of the Tercan-Çayırılı Basin, Northeast Anatolia
- Hipfel, B., Conrad, M. and Satır, M.**
Geochemical characteristics of thermal waters from the Seferihisar area, Western Turkey: A key to genesis and resources?
- İmamverdiev, N.A.**
Geochemistry of Late Cainozoic volcanic series of collision zones (Lesser Caucasus)
- Isajev, S.A.**
Biogeochemical and microstructural methods in palaeontology
- Kaçaroğlu, F., Değirmenci, M., and Cerif, O.**
Hydrogeological investigation of the Cumhuriyet University Campus Area and its vicinity, Sivas-Turkey
- Kadioğlu, Y.K., Güleç, N. and Ateş, A.**
Structural position of gabbroic rocks in Ağaören granitoid: Field observation and aeromagnetic data
- Kadioğlu, Y.K. and Güleç, N.**
Mafic microgranular enclaves and interaction between felsic and mafic magmas in Ağaören pluton: Evidence from petrographic features and mineral chemistry
- Kadir, S. and Baş, H.**
Diagenesis of Miocene vitric tuff in lacustrine environment (Koyunağılı-Mihalıççık) Eskişehir.
- Kangarly, T.N., Zamanov, Y.J. and Aliyev, A.M.**
The depth geological mapping prospecting undenuded and buried deposits of minerals in depression zones of Azerbaijan
- Kangarly, T.N.**
Tectonics of the Southeast Caucasus
- Karacık, Z. and Yılmaz, Y.**
Geology of the young plutonic and volcanic associations of the Ezine Region, NW Anatolia
- Karayev, T.A. and Ali-Zade, S.A.**
Biostratigraphic correlation of the Upper Cainozoic deposits of Azerbaijan with Eastern and South-Eastern Europe
- Karyagdı, S.K. and Vekilov, B.G.**
Comparison of Pontic deposits of Azerbaijan and Turkey
- Kavak, K.S., İnan, S., Poisson, A. and Guezou, J.C.**
Tectonostratigraphy of the Southern part of the Sivas Basin and its comparison with Landsat MSS Image
- Kerey, İ.E. and Bozkus, C.**
Tectonostratigraphic characteristics of the Narman-Oltu (Erzurum) Region
- Keskin, M., Pearce, J.A., Kempton, P.D. and Greenwood, P.**
New $\delta^{18}\text{O}$, Sr, Nd and Pb isotopic evidence for the extent of crustal contribution to the collision-related lavas on the Erzurum-Kars Plateau, North-Eastern Anatolia, Turkey
- Koçyiğit, A.**
Superimposed basins and their relations to the recent strike-slip fault zones: Refahiye superimposed basin adjacent to the North Anatolian Transform Fault (NATF), NE Turkey
- Kurtuluş, C.**
Examination of the continuation of the North Anatolian Fault Zone in The Marmara Sea, Turkey
- Koral, H.**
The deformational features of granitic bodies in the southern extension of the Stranca massif near Çatalca (İstanbul): Discussion in the regional context
- Makhmudov, H. I.**
Perlite of Azerbaijan and new fields of their using
- Mamedov, A.V.**
History of evolution of Caspian Sea in the Quaternary period
- Mamedov, A.B.**
Devonian correlation of Nakhichevanian autonomous republic with type sections of Ardenno-Rein area and Dinantian Basin and corresponding sections of other regions of the World
- Mamedov, A.I. and Shirinov, F.M.**
The model of development of the Paleogene granitoid complexes part of the Lesser Caucasus
- Mirzaga, M., Abdullayev, R.N., Mustafayev, M.A., Samedova, R.A., Shafiyev, Kh.I., and Ahmedova, T.G.**
Lesser Caucasus Shakhdag synclinorium Eocene volcanicity peculiarities

- Mittweide, S.K., Sinclair, W.D., Helvacı, C. and Karamanderesi, İ.H.**
Geochemistry of Quartz-Tourmaline nodules from İrmadan (Muğla-Yatağan), Türkiye
- Nirzaga, M.**
Rare-Earth Elements (REE) in Mesozoic Volcanics as the indicator of geodynamic conditions of their formation (Azerbaijan)
- Öncel, A.O., Molchan, G.M., Alptekin, Ö. and Kronrod, T.**
Estimation of seismic risk parameters on the Anatolian Fault Zones
- Örçen, S.**
Palaeobiogeography, biostratigraphy and palaeoecology of the Tertiary foraminifera of Beydağları Autochthonus, south of Teke Taurids
- Özçelik, O., Şengüler, İ. and Altunsoy, M.**
Organic facies characteristics of Eocene sediments in the Northern Gümüşhacıköy (Amasya) Region
- Özden, S., Öztürk, A., Poisson, A. and Guezou, J.C.**
Tectonostratigraphy of the northern margin of the Sivas Basin
- Özgen, N. and Akyazı, M.**
The Illeridian of Çibanköy (Tosya-Kastamonu)
- Över, S., Bellier, O., Poisson, A. and Andrieux, J.**
Recent stress states in the central North Anatolian Fault Zone (Turkey)
- Özcan, E.**
Stratigraphy and foraminiferal micropaleontology of the Upper Cretaceous sedimentary succession in NE Kahta (Adiyaman) Region: A biometric approach to orbitoidal foraminifera
- Özkul, M. and Görmüş, M.**
Depositional environment and age of the İncesu conglomerates
- Panahi, B.M. and Israfilov, R.H.**
On dependence between anomalies value of underground water regime and epicentral distance
- Parlak, O., Bozkurt, E., Delaloye, M. and Bingöl, E.**
The obduction direction of the Mersin ophiolite: Structural evidence from sub-ophiolitic metamorphics in the Central Tauride Belt, Southern Turkey
- Piper, J.D.A., Tatar, O., Gürsoy, H. and Temiz, H.**
Palaeomagnetic studies of crustal deformation in central Turkey
- Poisson, A.**
Geological map of the Sivas Basin. The F24 Quadrangle (Sivas East) scale: 1/100 000e
- Poisson, A., Guezou, J.C., Temiz, H., Gürsoy, H., İnan, S., Öztürk, A., Kavak, K. and Özden, S.**
The Sivas Basin in its tectonic setting. General evolution
- Poisson, A., İnan, N., Guernet, C., Lozouet, P., Müller, C., Poignant, A., and Riveline, J.**
Biostratigraphy of the Sivas Basin. New data and critical revision of the previous attributions
- Ramazanov, V.G., Veliev, Z.A., Hüseyinzadeh, R.A. and Khasaev, A.I.**
Peculiarities of location and prediction criteria of Copper-Porphyric deposits of Azerbaijan
- Rashidova, T.N.**
The structure of geological databases
- Rojay, B., Leventoğlu, H. and Toprak, V.**
Evolution of Peçenek Basin (Central Anatolia) and its implication on the nature of Tuzgözü Fault Zone
- Rustamov, M.I., Nazirova, N.A. and Aminifazi A.**
The granitof ormation stages in collision zone of Anatolian-Lesser Caucasus and Iranian Plates
- Rustamov, M.I. and Zenalov, M.B.**
Volcano-tectonic structures and ore-magmatic systems of Paleogenic Belts
- Saraç, A.N.**
Seismo-tectonic characteristics of the North Anatolian Fault Zone between Akyazı and Düzce (Bolu), Turkey
- Saraç, C. and Tercan, E.**
Ore reserve estimation at Tülovası borate deposit by geostatistical techniques
- Sarıfakuoğlu, E.**
Petrography and geochemistry of volcanics in Western Anatolia and their relation with tectonical lines
- Sayar, C.**
The Ordovician-Silurian boundary and Hirnantia fauna in Western Pontides, Turkey
- Sayar, S. and Gültekin, A.S.**
The stratigraphy, age and faunal community of Kangal Formation (Greenschist), Sivas, Turkey
- Schumacher, R.**
The Akdağ - Zelve ignimbrite eruption in Cappadocia
- Schumacher, R.**
A-type signature in a late high-K calcalkaline ignimbrite from the Central Anatolian Volcanic Province
- Schumacher, U.M.**
Problems of stratigraphical correlations of ignimbrites in Cappadocia
- Seyitoğlu, G.**
The age data from the West Turkish Graben System and their implications on the Late Cainozoic extensional tectonics in the Aegean Region
- Seidov, A., Aliyev, A., Safarova, O. and Zohrabova, V.**
The lithologic-mineralogical characteristic of mud volcanoes products
- Shiraliyev, A.B., Velizade, S.F. and Efendiyeva, E.N.**
Pyrite formation of the southern slope of the Greater Caucasus
- Süleymanova, S.F.**
The reservoirs of Oligocene deposits of the Eastern Azerbaijan
- Temiz, H., Guezou, J.C. and Poisson, A. M.**
Tectonostratigraphy and thrust tectonics of the central and eastern parts of the Sivas Basin, Central Anatolia
- Toprak, V., Savaşçın, Y., Güleç, N. and Tankut, A.**
Structure of Galatean Volcanic Province
- Toprak, V.**
Polygenetic and monogenetic volcanoes of Cappadocian Volcanic Province (Turkey)
- Turmuş, M. and Kerey, İ.E.**
Geological evolution of the Çamlıhemşin area in the East Pontide magmatic arc
- Uçurum, A., Larson, L.T. and Boztuğ, D.**
Geochemistry and petrology of the alkaline subvolcanic hosted iron deposit in the Karakuz Area, Northwest Hekimhan-Malatya, Turkey
- Yalçın, H. and Bozkaya, Ö.**
A new discovery of Cretaceous / Tertiary boundary from the Tethyan Belt, Hekimhan Basin, Turkey: Mineralogical and geochemical evidences
- Yalınız, M.K., Gönçüoğlu, M.C. and Floyd, P.**
Composition and petrogenetic significance of clinopyroxenes from gabbroic rocks: Sankaraman ophiolite, Central Anatolia.
- Yılmaz, A.**
Constraints on the structural evolution of the Sivas Basin, Central Turkey.
- Yılmaz, I. and Karacan, E.**
Geotechnical characteristics and mineralogy of clays used in Çamlığöze Dam (Suşehri-Sivas)'s clay core
- Yılmaz, S. and Boztuğ, D.**
Space and time relations of the three plutonic phases in a region between Dereli and Şebinkarahisar, South Giresun, Eastern Pontides, Turkey
- Yılmaz, Y., Yiğitbaş, E., Yıldırım, M., Genç, S.C., Elmas, A., Gürer, Ö.F., Bozcu, M., Gürpınar, O. and Serdar, H.S.**
Geology and development of the Tokat Massif
- Yiğitbaş, E. and Yılmaz, Y.**
An approach to post-Late Cretaceous strike-slip tectonics and its implications on Southeast Anatolian Orogen
- Yüksel, F.A. and Esnaf, Ş.**
Return period for earthquakes have been computed by using of Weibull Probability Distribution for each cities and Monte Carlo Simulation Method for the İstanbul in its future earthquakes scenario

6th INTERNATIONAL SYMPOSIUM ON FOSSIL ALGAE AND CARBONATE PLATFORMS

Karbonat Platformları ve Fosil Algleri Uluslararası Sempozyumunun 6. sı 18 - 22 Eylül 1995 tarihleri arasında Ankara MTA Kültür Sitesi'nde gerçekleştirildi. Uluslararası Fosil Alg Derneği tarafından düzenlenen ve Oslo (Norveç) Üniversitesi profesörlerinden D.A. Hoeg (†)'in anısına atfedilen sempozyumda çeşitli ülkelerden gelen araştırmacılar tarafından 33 bildiri ve ayrıca poster sunumları yapılmıştır. Sempozyum abstract kitabında yer alan bildirilerin başlıkları ve yazarları aşağıda verilmiştir.

6th INTERNATIONAL SYMPOSIUM ON FOSSIL ALGAE AND CARBONATE PLATFORMS

TO THE MEMORY OF PROFESSOR O. A. HOEG(†)
OF OSLO UNIVERSITY, NORWAY

ABSTRACTS ÖZLER

INTERNATIONAL FOSSIL ALGAE ASSOCIATION

18-22 SEPTEMBER 1995
ANKARA - TÜRKİYE

Ankara - 1995

THE RHODOIDS OF THE PONTAIN ISLANDS (MEDITERRANEAN,
TYRRHENIAN SEA).
Daniela BASSO

TAXONOMIC OF THE TWO SPECIES OF SOFT BOTTOM NON
GENICULATE FOSSIL CORALLINACEANS.
D.BASSO, P.FRAVEGA & G. VANNUCCI

LOWER CRETACEOUS ALGAE FROM PUDUREA CRAIULUI (APUSENI
MOUNTAINS, ROMANIA)
Ioan I. BUCUR

PALEOZOIC STRAMOLITHES AND CALCAREOUS ALGAE AS
INDICATORS OF NEAR-SHORE AND ISLAND FACIES AND
STRATIGRAPHICAL BREAKS
B.I.CHUVASHOV

TAXONOMY OF THE UNGDARELLACEAE
B.I. CHUVASHOV & A.L. ANFIMOV

BIOGEOGRAPHY OF PALEOZOIC CALCAREOUS ALGAE
B.I.CHUVASHOV, V.P. SHUYSKY, R.M. IVANOVA

A NEW FAMILY OF PALEO-MESOZOIC CALCAREOUS ALGAE
(ORDER BRYOPSIDALES)
O.DRAGASTAN, D.K. RICHTER, A.SARBU, M. POPA & I. CIUGULEA

CONTRIBUTION OF THE ALGAE TO THE AQUITANIAN
PALEOECOLOGY IN THE EASTERN TAURIDS (MUNZUR MOUNTAINS)
Göksekin ESELLER & Sefer ÖRÇEN

DEPOSITIONAL DISCONTINUITY AND BIOSEQUENCE CONCEPT.
EXAMPLE FROM THE APENNINE JURASIC CARBONATE PLATFORM
Anna FARINACCA & Valerio RUDOLFI

CENOZOIC ACETABULARIACEAE
P. GENOT

CALCEROUS CHLOROPHYTA FROM UKRAINIAN CENOZOIC
P. GENOT & J. SZCZETCHURA

BORED OOLITHES AND BIASED HYPOTHESIS ON THE ORIGINAL
MINEROLOGY OF SOME ANCIENT OOLITHS
Bruno GARNIER

OCCURRENCE OF GENUS *Falsolikanella* GRANIER DURING
HAUTERIVIAN-EARLYAPTIAN INTERVAL
Bruno GRANIER & Günter TRABOLD

NEW DATA ON A LIASSIC CLUB-SHAPED DASYCLADACEAN
Bruno GRANIER, André POISSON, Bruno FERRE, Roul DELOFFRE

REVISION OF GENERA *Physoporella*, STEINMANN and
Oligoporella, PIA (DASYCLADALES, GREEN ALGAE)
Tonci GRGASOVIC

A NEW FAMILY AFRODITICODIACEAE NEW FAM. SIPHONAL ALGAE
Tuncer GÜVENÇ

REVISION OF *Dimorpho siphonaceae* Shuysky 1987 SIPHONAL
ALGAE
Tuncer GÜVENÇ

STRATIGRAPHIC REPARTION OF CALCAREOUS ALGAE IN THE
ANATOLIAN PLATFORM
T.GÜVENÇ, İ.H. DEMİREL, C. OKUYUCU, Ş. YURTSEVER

KANSAPHYLLUM MOUNDS: A RARE MOUND TYPE IN THE UPPER
PALEOZOIC OF THE CARNIC ALPS.
Wolfram KRAFT

ALGAE DIVERSITY IN CRETACEOUS / TERTIARY BEDS OF CAVERY
BASIN, INDIA
