EDITORIAL

We are proud of having published the second volume and second issue of the *Journal of Health Sciences and Medicine*. In this issue, we publish a review of the issues, addressing a wide audience, related to vitamin D deficiency which is one of the current issues in our country, and acromegaly. Our research articles and case reports are also included. One of our research articles is the relationship between glycemic control and platelet indices in Type 2 diabetes patients. In addition to internal medicine, endocrinology and metabolism sections, this article contains detailed information and comments for practitioners and family physicians. Our other research article in the field of midwifery is directed at midwives and nurses, but it also concerns gynecologists and obstetricians. Our other research articles on drug resistance and antibiotic resistance cover the current and current issues in medicine. These articles, which are prepared with detailed discussions about detailed study methodology and results, will contribute to the literature. We think that two case reports will be interesting for our readers. To carry the scientific quality of our journal up to a higher number is the goal of our Editor and Editorial Board. Our journal also addresses research articles, reviews, case reports, brief reports and letter to the editor for medical students, medicine branches as well as other areas of health sciences of nurses, midwives, health management, child development, physiotherapy and rehabilitation, and nutrition and dietetics. I hope that this issue will be useful to our readers and to be able to enter the *TR Dizin-ULAKBİM* Index as soon as possible, and I hope that our journal will be published regularly with rich content. Yours truly.

EDİTÖRDEN

Journal of Health Sciences and Medicine adlı dergimizin 2. cilt, 2. sayısını çıkartmış olmanın gururunu yaşamaktayız. Bu sayımızda, geniş okuyucu kitlesine hitap eden ve ülkemizdeki güncel konulardan biri olan D vitamini eksikliği ile ilgili ve akromegali konularında derleme yayımlamaktayız. Araştırma makalelerimiz ve olgu sunumlarımız da yer almaktadır. Araştırma makalelerimizden biri, tip 2 diyabet hastalarında glisemik kontrol ve platelet indeksleri arasındaki ilişki konusundadır. Bu makalemiz dahiliye, endokrinoloji ve metabolizma bölümleri yanında, pratisyenler ve aile hekimlerine yönelik detaylı bilgi ve yorumlar içermektedir. Ebelik alanındaki diğer araştırma makalemiz, ebeler ve hemşirelere yönelik olmakla birlikte kadın hastalıkları ve doğum uzmanlarını da ilgilendirmektedir. İlaç direnci ve antibiyotik duyarlılığı konulu diğer araştırma makalelerimiz, tıpta güncel olan ve üzerinde çok çalışılmakta olan konuları kapsamaktadır. Detaylı çalışma metodolojisi ve sonuçlara yönelik kapsamlı tartışmalar içeren bu makaleler literatüre katkı sağlayacaktır. İki adet olgu sunumunun, okuyucularımıza ilginç geleceğini düşünüyoruz. Dergimizin bilimsel kalitesini her sayıda daha da yukarıya taşımak, Editör ve Yayın Kurulu'nun hedefini oluşturmaktadır. Dergimiz araştırma makaleleri, derlemeler, olgu sunumları, kısa raporlar ve editöre mektup bölümleri ile; tıp öğrencileri, tüm tıp ve diğer alanları olan hemşireler, ebeler, sağlık yönetimi, çocuk gelişimi, fizyoterapi ve rehabilitasyon, beslenme ve diyetetik bölümü ile diğer bölümlerin sağlık ile ilgili tüm bölümlerine de hitap etmektedir. Bu sayının okuyucularımıza faydalı olmasını, en kısa sürede *TR Dizin-ULAKBİM* indeksine girebilmeyi ümit eder, dergimizin düzenli şekilde ve zengin bir içerikle yayın hayatına devam etmesini dilerim. Saygılarımla.

CONTENTS / İÇİNDEKİLER

Research Article / Araştırma Makalesi

Relationship between glycosylated hemoglobin and plateletcrit of type 2 diabetes patients..... 40

Tip 2 diyabet hastalarında glikolize hemoglobin ve plateletcrit arasındaki ilişki

The overview of postgraduate thesis within the department of midwifery site (2004-2017) in Turkey 44

Türkiye’de ebelik anabilim dalında yapılan (2004-2017) lisansüstü tezlerin incelenmesi

Determination of polymyxin B, minocycline, colistin and phosphomycin susceptibilities in *Acinetobacter baumannii* strains showing carbapenem resistant multidrug resistance phenotype..... 49

*Karbapeneme dirençli, çoklu ilaç direnci fenotipi gösteren *Acinetobacter baumannii* suşlarında polimiksin B, minosiklin, kolistin ve fosfomisin duyarlılıklarının belirlenmesi*

Preparation of clinical decision support systems related to infection control measures and evaluation of effectiveness 54

Enfeksiyon kontrol önlemlerine ilişkin klinik karar destek sistemlerinin hazırlanması ve etkililiğinin değerlendirilmesi

Review / Derleme

Current approach to vitamin D insufficiency and deficiency 58

Vitamin D yetersizliği ve eksikliğine güncel yaklaşım

Acromegaly 62

Akromegali

Case Report / Olgu Sunumu

Metastatic renal cell carcinoma diagnosed by humerus metastasis: case report..... 68

Humerus metastazı ile tanı konulan metastatik renal hücreli karsinom: olgu sunumu

Pure Leydig cell tumor: a rare case report..... 72

Saf Leydig hücresi tümörü: nadir bir olgu sunum
