Dear Scientists,

We have left two years with your contributions and efforts. JUM has reached hundreds of universities and research institutions worldwide. We are working hard to reach more universities and researchers.

In the first issue of the third year, we published 13 valuable works that will attract your attention.
As all the people of the world, we are experiencing the sadness of the COVID-19 epidemic. With the studies in this issue, we hope, you will take you out of this troubled world and spend time in the healthy world of mathematics.

We would like to thank our authors, referees and colleagues for their editing work for their contribution to this issue.

We expect support from our esteemed researchers and writers for our magazine, which will be published in July 2020.

We wish you a scientific life full of success.

Best regards!

Assoc. Prof. Dr. Gökhan Çuvalcıoğlu
