Optimization of Cutting Forces During Turning of Composite Materials (Research Paper)	423 - 431
Effect of the Oscillator Length on the Characteristics of a Feedback Type Fluidic Oscillator (Research Paper)	432 - 438
The Role of the Risk Manager in Enterprise Risk Management Maturity Level of Construction Companies (Research Paper)	439 - 449
The Effect of the Length of the Customer Event History and the Staying Power of the Predictive Models in the Customer Churn Prediction: Case Study of Migros Sanal Market (Research Paper)	450 - 455
Performance Analysis of Queue Management Algorithms Between Remote-Host and PG-W in LTE Networks (Research Paper)	456 - 463
Theoretical and Experimental Investigation of Carbon Monoxide, Humidity and Temperature Relations in Zonguldak Province of Turkey (Research Paper)	464 - 470
Mechanical and Microstructure Properties of Aluminum 1050 Alloy Joined with TIG Welding Method (Research Paper)	471 - 477
Performance of Organic and Inorganic Acids in the Extraction of Vanadium from Silica Sand by Leaching Method (Research Paper)	478 - 482
Theoretical Investigation on Static Analysis of Pultruded GFRP Composite Beams (Research Paper)	483 - 490
Numerical Analysis of Heat Transfer of a Brazed Plate Heat Exchanger (Research Paper)	491 - 499
Investigation of refrigeration system performance using infrared image processing techniques for R22 and its alternatives, R438A and R417A refrigerants (Research Paper)	500 - 513
Investigation on the Use of Metagabbro Aggregates in High Strength Concretes Made with Different Mineral Additives (Research Paper)	514 - 522
Implementation of a Vibration Absorbers to Euler-Bernoulli Beam and Dynamic Analysis of Moving Car (Research Paper)	523 - 532
Photocatalytic Dye Removal And Mineralization From Wastewater (Research Paper)	533 - 539
