Aim and Scope

Turkish Journal of Internal Medicine (TJIM) is an international peer-reviewed scientific journal that publishes manuscripts describing both clinical and basic science research in medicine. Manuscripts must describe original data that has not been published previously nor submitted for publication elsewhere. Manuscripts that adhere to the TJIM submission guidelines and are deemed appropriate for the scope of the journal are sent to two reviewers who are specialists in the field. The reviewers' comments are then considered by the members of the TJIM Executive Editorial Board who discuss the suitability of each submission. The final decision for all submitted manuscripts rests with the Editor-in-Chief.

The journal publishes in the field of original research, case report, reviews, short report, short communication and letters to the editor are published only in English.

Editorial Board of TJIM complies with the criteria of the International Council of Medical Journal Editors (ICMJE), the World Association of Medical Editors (WAME) , and Committee on Publication Ethics (COPE).

The journal is published quarterly (January, April, July and October).

No fee is required for publishing the manuscript.

All articles are detected for similarity.

Abstracting & Indexing

The journal is abstracted and indexed with the following: Google Scholar, ResearchGate, SciLit, CrossRef, ResearchBib, Asos Index, WorldCat, ROAD, Türkiye Atıf Dizini (Türkiye Citation Index), TURK MEDLINE, DRJI (Directory of Research Journals Indexing), CiteFactor (Impact Factor: 0.22).
