Research Articles

Authors	Title	Pages
Noui HENDEL, Sarri DJAMEL, Sarri MADANI, Mounir SELLOUM, Faiza BOUSSAKRA, Ouahiba DRICHE	Screening for in vitro antioxidant activity and antifungal effect of <i>Artemisia campestris</i> L.	251-259
Mehmetcan AŞIK, Ali Kaan YETİK, Burak Nazmi CANDÖĞAN, Hayrettin KUŞÇU	Determining the yield responses of maize plant under different irrigation scenarios with AquaCrop model	260-270
Mehmet Caner ERSOY, Mehmet GÜMÜŞ	Profit Forecasting in Crop Production: The Case of Gazipaşa	271-278
Burçak İŞÇİ	Pollen characteristics of some grape cultivars (<i>Vitis vinifera</i> L.)	279-286
Belma ŞENOL, Özlem KAPLAN, Rizvan İMAMOĞLU, İsa GÖKÇE	Recombinant production and characterization of <i>Aspergillus niger</i> prolyl endopeptidase enzyme for gluten-free food production	287-293
Ayodeji OMOTEHINSE, Godwin OVUWORIE	Optimization of Small Castor Seed (<i>Ricinus Communis</i>) Oil Extraction Yield Using Response Surface Methodology	294-301
Ayse Neslihan DUNDAR, Elif YILDIZ, Ozen PARLAK, Emine AYDIN	Use of chia seed on regular and low-fat crackers, their antioxidant properties, and in-vitro bioaccessibility	302-309
Halil Ibrahim YILMAZ, Yalcın GONBE	Electric Energy Potential that can be Produced Using Cattle Manure in the Isparta Region	310-322
Samata BARAL, Santosh MARAHATTA, Anish SHRESTHA	Economics of production and marketing of mandarin in Parbat and Baglung districts of Nepal	323-328
Nihal ACARSOY BILGIN, Bulent YAGMUR, Adalet MISIRLI	Preliminary Study on Investigation of the Use of Effective Microorganism Applications in Walnut	329-334
Ayodeji OMOTEHINSE	Analysis of Some Factors Affecting the Growth of Castor Shrub and Suitability of its Seed Oil in Industrial Application	335-342
Emine DEMIRBAS, Gursel HATAT KARACA	Effect of oregano water on <i>Pythium</i> density in soil and damping-off disease on bean plants	343-351
Seid MUHIE, Nurcan MEMIS, Cihat OZDAMAR, Zeynep GOKDAS, Ibrahim DEMİR	Biostimulant priming for germination and seedling quality of carrot seeds under drought, salt and high temperature stress conditions	352-359
Remzi UGUR, Muhammet Ali GUNDESLI, Esra BULUNUZ PALAZ	PCPM (<i>Prunus cerasifera</i> X <i>Prunus microcarpa</i>) hybrid rootstock candidate: Identification and production possibilities with hardwood cutting	360-364
Cem TOKATLI, Fikret USTAOGU	Evaluation of a Household Drinking Water Purification System Performance in terms of Organic – Inorganic Water Pollution Indicators and Ecological – Health Risk Assessment Indices	365-373
Serpil ADAY, Cigdem U PALA, Belgizar AYANA CAM, Sami BULUT	Combined effects of acidification and high-pressure processing on microbial inactivation, bioactive compounds and antioxidant activity of liquorice root sherbet	374-384
Ibrahim YENIGUN, Muharrem ORAL, Mahmut KARACIZMELI, Sinan UYANIK	Closure of Göbekli Tepe: Erosion?	385-392
Hasan MARAL	Contributions to the terrestrial Parasitengona Fauna (Acari: Trombidiformes: Prostigmata) of Diyarbakır and Mardin (Turkey)	393-397
Nur CEYHAN GUVENSEN, Dilek KESKIN	Statistical determination of in-vitro antimicrobial effects of extracts of marjoram (<i>Origanum majorana</i> L.) from Muğla, Turkey	398-404
Medet ITMEC, Ali BAYAT	Determination of the optimum operating parameters of an axial fan used on the conventional air blast orchard sprayer	405-412
Ayse Nur SONGUR BOZDAG, Funda Pinar CAKIROGLU	Covid-19 outbreak and household food waste: Evidence from Turkey	413-424
Aysel VEYISOGLU, Demet TATAR	Screening of Acidophilic Actinobacteria That Show Activity against Paddy Pest Fungi	425-432
