Publication Principles & Representation of Footnotes and Reference

Editor

Academic circles and popular media alike have been discussing the changes in the global economic and political balance of power. Whatever the future may bring; the region of Africa, Europe and Asia, i.e. the Old World, which was the cradle of world civilizations for millennia, is destined to play a significant role in shaping the world again.

The Afro Eurasian Studies has been established in summer 2011 to offer a respected peer-reviewed outlet for the scholarly research in social and administrative sciences, which would shed light on the history and the current state of economic, political and social dynamics of Africa, Europe and Asia. The journal welcomes original manuscripts in English on a range of subject matters including economics, finance, management, political science, public policy and international relations with particular focus on the Afro Eurasian region.

About the Publisher

The Afro Eurasian Studies is published by MÜSİAD (Independent Industrialists' and Businessmen's Association); a non-governmental and non-profit business association headquartered in Istanbul, Turkey. Established in 1990, MÜSİAD assists their members in their endeavors in business, investments and international trade with over 100 local branches worldwide.

Beyond services to its members, MÜSİAD has been acting as a non-governmental organization contributing to the economic and social development of Turkey and the countries in the region through international activities. MÜSİAD has also been an influential participant of the economic and policy discussions in Turkey through its research activities and publications.

As a culmination of the research experience accumulated over they years, the Economic and Social Research Center within MÜSİAD has embarked upon the challenge of publishing an international journal. Thus the Afro Eurasian Studies has been born in Turkey, at the epicenter of Afro Eurasia, out of a desire to contribute to the international discourse on the new dynamics of the region.
