EDITORIAL

Our dear readers,

We are proud to publish the fourth issue of our journal for 2022 with valuable articles from each other. We strive to increase the scientific quality of our journal, which addresses all areas of health sciences and is followed by a wider audience over time. Principally, we want to contribute to international literature at an increasing level and to increase the success bar of our journal by entering indexes such as Scopus, PubMed and SCI-Expanded. I would like to thank all authors for submitting articles contributing to both domestic and international literature with their comprehensive scientific content for publication in our journal. We hope that this issue will be useful to our readers.

Sincerely yours.
