EDITORIAL

Dear readers,

We are publishing the third issue of our journal in 2022 with a total of 26 (25 research articles and 1 case report). In this issue of COVID-19 articles, which made up almost half of the articles in the previous issues, we see it decreasing. Our journal is now indexed in TR-Dizin TÜBİTAK ULAKBİM since Jun, and thanks to this situation, the number of articles is gradually increasing. To be close to our goal, to improve our final quality, to apply to ESCI and PubMed in the near future is to make SCIE close and closer to our goal. Our journal's EndNote style was made for plagiarism cuisine Used as Ithenticate with CrossRef. It continues on this path rapidly.

The expenditure required for our readers of this issue.

Yours truly,

Prof. Aydın ÇİFCİ, MD
Editor-in-Chief

EDİTÖRDEN

Değerli okuyucularımız,

Dergimizin 2022 yılı üçüncü sayısını toplamda 26 (25 araştırma makalesi ve 1 olgu sunumu) makale ile çıkartıyoruz. Önceki sayırlarda neredeyse makalelerin yarısını oluşturan COVID-19 makalelerinin bu sayıda azaldığını görüyoruz. Dergimiz artık Haziran ayından itibaren TR-Dizin TÜBİTAK ULAKBİM'de ve bu durum sayesinde makale sayısı giderek artmaktadır. Amacımız yakın gelecekte birçok yeni dizine kabul edilerek bilimsel kalitemizi artırmak, ardından yakın bir zamanda ESCI ve PubMed müracaatı yaparak SCIE dergi olmak hedefimize biraz daha yaklaşmaktadır. Dergimizin EndNote stili oluşturuldu, intihal taraması için CrossRef ile Ithenticate kullanım sözleşmesi yapıldı. Bu yolda çalışmalarımız hızla devam etmektedir.

Bu sayının okuyucularımız için faydalı olacağını umuyorum.

Saygılarımla,

Prof. Dr. Aydın ÇİFCİ
Baş Editor
