EDITORIAL

Our dear readers,

We are happy to publish the new issue of our journal. JHSM has completed 5 years since its establishment. When we look at these five years, it is clearly understood that our journal has come a long way in a positive way. We are getting closer to our scientific goals day by day. As we mentioned before, we want to contribute to international literature at an increasing level and to increase the success bar of our journal by entering valuable international indexes such as SCI-Exp and Pubmed. We would like to thank all authors for submitting articles contributing to both domestic and international literature with their comprehensive scientific content for publication in our journal.

Sincerely yours

Alpaslan TANOGLU, MD, PhD
Editor-in-Chief
