

CONTENTS

-Research Article-

1.	On Stationarity of Variance Calculation Series Ongun Yücesan	161
2.	Production of Nanostructured Fasteners with High Shear and Fatigue Strength for Using in Aircraft Components Kazım Buğra Gürbüz, Mustafa Taşkın	165
3.	Design and Simulation of a Conformal Micro-Strip Patch Antenna at GNSS L1/ E1 Frequency Band Betül Yılmaz	171
4.	Virtual Training Applications in Aviation BITE Test Application Yunus Sarıkaya, Hakan Aydoğan, Faruk Aras	178
5.	Innovative Morphing UAV Design and Manufacture Sezer Çoban, Tuğrul Oktay	184
6.	Investigation of Dry Sliding Wear Behavior of CFRP Composite Used in New Generation Aircraft Wings Mustafa Gök, Yılmaz Küçük, Murat Pehlivanlı and Azmi Erdoğan	190
7.	Air-traffic Flow Prediction with Deep Learning: A Case Study for Diyarbakır Airport Ömer Osman Dursun	196
8.	Understanding the Sintering Behavior and its Effect on the Thermal Conductivity of YSZ Coatings for Gas Turbine Applications Garip Erdoğan	204
9.	Obtaining Condition Monitoring Data for the Prognostics of the Flight Time of Unmanned Aerial Vehicles Melih Erşen, Mehmet Konar	209
10.	A PESTEL Analysis of The Impacts of COVID-19 Crisis on Air Transportation Sector's Future Adem Pınar	215
11.	Determining and Evaluating The Strategies of Air Cargo Freight Forwarders to Increase Business Volume with AHP Method Filiz Mızrak, Gonca Reyhan Akkartal	226
12.	Stock Price Prediction with Box-Jenkins Models: Delta Airlines Application Muhammed Fatih Yürük	233
13.	Air Cargo Carrier Selection: The Case of Turkey Serdar Alnıpak, Yusuf Can Tunaboşlu, Sefa Ceyhan	242
14.	Drone Technology in Transportation Management: A Systematic Review and Framework for Future Research Muhammed Turgut, Bilal Şeker	251
15.	The Mediating Role of Emotional Labor in Linking Organizational Learning and Organizational Identification in the Aviation Industry Duygu Uludağ, Melis Soyer, Merve Mert	262
16.	Measurement of Process-Performances of Turkish Airports Using Network Data Envelopment Analysis Miraç Eren, Murat Ahmet Doğan	272
17.	Bibliometric Analysis of Academic Publications on Artificial Intelligence and Aviation Keywords with VOSviewer Taha Utkan Uslu, Birsen Açık	284
18.	Investigation of the Effect of the Instrument Landing System on Flights to Konya Airport between 2019-2022 Years Ersin Öktemer, Fatih Alpaslan Kazan	293
19.	Effects of Meteorology Data on Crew Resource Management in Aviation Altuğ Aykan Bayazitoğlu, Habibe Güngör	300

- Review Article -

20.	The Importance of Periodic Oral and Dental Health Examination of Aircrew Gürkan Raşit Bayar, Güneş Sanal, Şükrü Hakan Gündüz, Abdurrahman Engin Demir	310
21.	Elevating Aviation Education: A Comprehensive Examination of Technology's Role in Modern Flight Training Nazmi Dinçer	317
