Dear Scientists,

We have prepared the second issue of the sixth year of our journal with your contributions and efforts.

We believe that the papers in this issue will contribute to researchers and scientists as in our other issues.

We believe that this issue of JUM will reach many universities and research institutions thanks to the painstaking work of our authors, referees and editors.

Due to the intensity of the papers coming to JUM, we have already started working to produce an additional issue in October 2023.

We thank all our colleagues for their contributions.

We look forward to your support from our esteemed researchers and authors in the next stages of our publication life.

We wish you a scientific life full of success..

Kind regards!

Assoc. Prof. Dr. Gökhan Çuvalcıoğlu
