

SUBJECT INDEX

TITLE	PAGE
A systematic review of verb production training in agrammatic Broca's aphasia	478
Analysis of mid-term radiological and functional results of conservative versus surgical intervention in non-displaced and minimally displaced scaphoid fractures	900
Assessing the role of inflammatory and nutritional biomarkers in the diagnosis of celiac disease	506
Assessment of frailty status in non-geriatric peritoneal dialysis and hemodialysis patients	239
Assessment of salt knowledge and habits in patients with high low-density lipoprotein cholesterol.....	353
Assessment of the relationship between vascular diseases and exposure to toxic metals vascular diseases and toxic metals	48
Assessment of the ROX index as a predictor of invasive ventilation in patients with community-acquired pneumonia	37
Association of serum pentraxin 3 levels with co-morbidities in acute ischemic stroke patients	358
Awareness of procedure specific pain management (PROSPECT) in pain management after total hip arthroplasty surgery among anesthesiology and reanimation physicians survey study	678
Between diffuse and limited: the unique identity of systemic sclerosis–overlap syndromes.....	913
Brain recurrence patterns in breast cancer patients with or without postoperative radiotherapy.....	725
Can levels of serum uric acid and HDL cholesterol effectively predict the presence of fatty liver in children with obesity?.....	234
Can seasonal differences affective on frequency and mortality of pulmonary embolism?	665
Clinical and laboratory characteristics of pediatric orthostatic hypertension: a retrospective study.....	338
Clinical and pathological evaluation of patients with leukocytoclastic vasculitis: a retrospective single-center rheumatology experience	485
Clinical significance of celiac truncus variations in gastric cancer surgery: a retrospective cohort study in the Turkish population.....	906
Comorbidity burden and the role of hydroxychloroquine in venous thromboembolism risk among rheumatoid arthritis patients: a retrospective case-control study	597
Comparison of iron, vitamin B12, and vitamin D levels in healthy children and children with speech and language disorders	218
Comparison of outcomes of banding, nail brace, and Winograd techniques in the treatment of Heifetz stage 2 ingrown toenails.....	159
Comparison of perinatal outcomes following emergency cervical cerclage with and without prolapsed fetal membranes	709
Comparison of SVEAT and HEART scoring in acute chest pain.....	546
Comparison of thoracic epidural and peripheral regional analgesia techniques for postoperative pain management in video-assisted thoracoscopic surgery (VATS) procedures: a retrospective study.....	583
Correlation between triglyceride-glucose index and length of intensive care unit stay in sepsis	253
Correlation of genetic mutations with inflammatory markers and micronutrient status in familial Mediterranean fever.....	396
Could niaouli aromatherapy oil be an option in the treatment of urinary tract infections in hemiplegic patients?	540
Current approaches in the diagnosis and treatment of organizing pneumonia	89
Decoding acute pyelonephritis: imaging signatures and patterns of renal involvement across modalities.....	751
Determination of knowledge level and vaccination status of nursing students regarding hepatitis B infection and hepatitis B vaccine	343
Differentiating AVP deficiency and primary polydipsia: a clinical and biochemical perspective.....	576
Does greater richness of experience lead to greater happiness in older adults?	60
Educational quality of YouTube videos on enhancing lactation in postpartum mothers: a cross-sectional observational study	703
Effect of internal ligation on the occurrence of trocar site hernia after laparoscopic sleeve gastrectomy.....	146
Effectiveness of artificial intelligence algorithms in predicting progression-free survival in epithelial ovarian cancer patients.....	687
Elevated expression of let-7b-3p enhances aggressiveness of larynx squamous cell carcinoma cells.....	27
Evaluating the information quality and readability on Turkish Websites about human papilloma virus.....	563
Evaluating the predictive performance of nutritional indices in postoperative outcomes following pancreaticoduodenectomy in the elderly.....	271
Evaluation of body-mass index in patients with coronary artery ectasia	404
Evaluation of children with allergic and non-allergic rhinitis and the effect of obesity/overweight in patients with allergic rhinitis	177
Evaluation of critical factors predicting the development of hepatorenal syndrome in hospitalized cirrhotic patients.....	15
Evaluation of internet addiction levels of dentistry students at Kafkas University in relation to various factors.....	777
Evaluation of local anesthesia knowledge levels of specialist/PhD dentists in Türkiye	618
Evaluation of mood disorders in healthcare workers working in COVID-19 services/polyclinics and their first-degree relatives.....	278
Evaluation of prenatal-postnatal outcomes and risk factors in fetal jejunoileal atresia.....	84
Evaluation of pulmonary hydatid cysts in children: 5-year data from a single center	230
Evaluation of socioeconomic status, nutritional habits and periodontal disease status of patients applying to the department of periodontology	297
Evaluation of the clinical, radiological, and microbiological characteristics of the patients with non-tuberculosis mycobacteria (NTM) growth in respiratory tract samples culture.....	496
Evaluation of the long-term autonomic dysfunction after the recovery of COVID-19 disease	72
Evaluation of wear and surface roughness after brushing simulator of different CAD/CAM materials.....	919
Fabricated or accurate? Ethical concerns and citation hallucination in AI-generated scientific writing on musculoskeletal topics	695
Free testosterone index and bioavailable testosterone as independent predictors of good coronary collateral circulation in CTO patients.....	810

SUBJECT INDEX

TITLE	PAGE
Frequency and risk factors of ulcerative colitis associated colorectal cancer referral center experience in non-endemic area.....	105
Gait, balance and functional independency in myopathy group of neuromuscular diseases, a cross-sectional evaluation.....	868
Gastrointestinal tumors of the small bowel: prognostic roles of tumor stage and inflammatory markers.....	164
Global research trends and future directions on periodontal furcation defects: a bibliometric analysis.....	818
Global research trends, citation impact, and collaboration networks in penile fracture: a bibliometric analysis.....	743
Glucose/potassium ratio as a prognostic marker in the emergency department for multiple trauma patients.....	602
Gynecological cancer awareness and socio-demographic determinants Among female academic physicians: a cross-sectional study.....	861
HALP score can predict the no-reflow phenomenon and in-hospital mortality after saphenous vein graft intervention.....	1
HER2 pozitif meme karsinomu dokularında CD1a ekspresyonu ve prognostik önemi.....	623
High versus low dialysate sodium: a single-center small-scale prospective study.....	196
Hiperbarik oksijen tedavisi, yüksek fruktozlu diyetin neden olduğu koklear hasarı hafifletir: sıçanlarda histopatolojik bir çalışma.....	518
Histopathological effects of intranasal mometasone furoate on adenoidal tissue in children undergoing adenoidectomy.....	492
HLA-B27 positivity and associated factors in spondyloarthritis patients from Türkiye: a single-center study.....	223
Identification of hub genes and enriched pathways in renal ischemia–reperfusion injury via integrative transcriptomic and network analysis.....	459
Impact of JAK2 V617F allele burden on clinical and laboratory parameters in polycythemia vera.....	559
Inflammatory biomarkers in Hashimoto’s thyroiditis: a comparative cross-sectional study.....	291
Influence of Enterococcus faecium, a probiotic component, on ion channels in colon cancer.....	43
Insights on the relationship between essential tremor and carpal tunnel syndrome: a letter to the editor.....	94
Intraoperative perineural hyaluronic acid injection does not improve outcomes after carpal tunnel release in moderate-to-severe CTS: a retrospective cohort study.....	451
Investigation of salivary miRNA-199a-5p levels in plaque-induced gingivitis.....	369
Investigation of self-care behaviours in a rat model of acute liver injury induced by paracetamol.....	391
Long-term regular exercise effect on retinal and choroidal structure: insights from real-life data.....	635
Medication adherence, treatment persistence, and discontinuation in rheumatoid arthritis: a single-center real-world study.....	716
Modified single-patch versus double-patch repair in complete atrioventricular septal defect: a comparative study of surgical and long-term outcomes.....	363
Morin hydrate prevents diabetic nephropathy by suppressing oxidative stress and 8-hydroxydeoxyguanosine in kidney tissues.....	770
Morphometric analysis of the spine in patients with single-level lumbar disc herniations: clinical study.....	311
Morphometric and morphologic analysis of the mental foramen using cone beam computed tomography.....	132
Morphometric and volumetric analysis of the bicipital groove in patients with biceps tendinitis: a comparative radiological study.....	855
Morphometry of the masseter muscle and topographic location of the masseteric nerve: anatomical study in terms of BTX-A and facial reanimation applications.....	126
MRI morphometric analysis of anatomical structures affecting transsphenoidal surgery in acromegaly.....	420
Multidrug-resistant bacteria in hospitalized patients with cystic fibrosis: a retrospective cross-sectional study.....	630
Naples prognostic score predicts acute kidney injury in acute coronary syndrome patients undergoing primary percutaneous coronary intervention.....	524
Odontogenic and non-odontogenic cysts in the jaws: a retrospective analysis.....	54
Optic nerve sheath diameter and postoperative cognitive dysfunction after cardiac surgery: a prospective observational study.....	847
Orthopedic injury patterns and clinical outcomes in electric scooter-related trauma.....	431
Pediatric genital burns: a 15-year experience from a tertiary burn center.....	834
Perceptions of child abuse and neglect among nurses: an investigation in family health centers.....	201
Performance of large language models on prosthodontics questions of the dentistry specialization examination: a comparative analysis (2014–2024).....	893
Perinatal outcomes of isolated non-visualization of the fetal gallbladder.....	642
Positional effects on femoral vein cross-sectional area: a prospective ultrasonographic study.....	529
Posterior malleolus fixation in trimalleolar fractures: comparison of functional outcomes of plate and screw methods.....	442
Postoperative analgesic efficacy of adjuvant anterior quadratus lumborum block in open inguinal hernia repair: a prospective randomized double-blinded study.....	840
Post-traumatic stress, psychological needs and empathy among professional and family caregivers.....	384
Predicting early mortality after CPR in the ICU: a multimodal analytical approach.....	410
Prediction of mortality in patients admitted to the intensive care unit due to respiratory failure; use of nutritional screening tools mNUTRIC and NRS-2002.....	111
Predictive value of progesterone receptor in advanced-stage breast cancer patients treated with CDK 4/6 inhibitors.....	375
Predictors of left atrial strain recovery in patients hospitalized with acute heart failure with reduced ejection fraction.....	283
Prevalence of neoplasms in acromegaly: a Turkish single-center retrospective study.....	33
Prognostic factors and treatment of patients with chondrosarcoma: a single institutional experience.....	657
Prognostic factors in intensive care unit patients with ventilator associated pneumonia: the role of comorbidity and clinical severity scores.....	799
Prognostic value of ALBI score in lung cancer patients with liver metastases and hepatic failure: a single-center experience.....	501
Prognostic value of the CALLY index in De Novo metastatic colorectal cancer: a retrospective study.....	513

SUBJECT INDEX

TITLE	PAGE
Receptor gene expressions and their association with biochemical parameters in primary hyperparathyroidism patients.....	607
Relationship between phase angle, nutritional status, and blood biochemical parameters in hemodialysis patients: an example study in Edirne city center	210
Relationship between type 2 diabetes and oral health status.....	436
Retrospective analysis of patients with upper gastrointestinal hemorrhage	535
Retrospective evaluation of mortality among stroke patients receiving thrombolytic therapy in the emergency department	589
Retrospective evaluation of serological and molecular test data related to CMV infections at İstanbul Faculty of Medicine Hospital.....	738
Rewiring chemotherapy response: venetoclax sensitizes human lung cancer cells to etoposide via enhanced DNA damage and ferroptotic pathways	925
Risk factors for post-transplant diabetes mellitus in kidney transplant recipients: a single-center retrospective study	933
Special needs reports for children: diagnosis distribution and age relationship in visual function.....	266
Spectrochemical evidence for the reversal of age-related testicular degeneration by young plasma in senile infertility	760
Spiritual care needs and influencing factors among inflammatory bowel disease patients	670
Spread through air spaces as a prognostic factor in resected non-small cell lung cancer	569
Strain echocardiography in inflammatory bowel disease: relationship with disease activity	792
Surgical outcomes of modified Ferguson hemorrhoidectomy for grade IV hemorrhoidal disease.....	652
The academic influence of thyroid imaging: a bibliometric perspective in radiology	246
The amplifying effect of maternal obesity on perinatal outcomes in gestational diabetes mellitus	551
The cerebro-placental-uterine ratio in predicting adverse perinatal outcomes in gestational diabetes: a prospective cohort study.....	190
The diagnostic value of eosinophil-to-lymphocyte ratio in predicting contrast-induced nephropathy in patients with ST-segment elevation myocardial infarction.....	120
The effect of 0.24% hyaluronic acid gel used after diode laser-assisted labial frenectomy on postoperative pain level and periodontal parameters: a randomized clinical research.....	152
The effect of Buzzy application on pain and comfort level during heel stick in newborns: a randomized controlled study	170
The effect of different polishing systems on the discoloration of composite resins: examples of commonly consumed beverages.....	22
The effect of filgrastim on hemodynamic parameters in naive rats.....	733
The effect of health literacy on spinal surgery decision in neurosurgery patients.....	331
The effect of inflammatory scores on the prognosis of malignant mesothelioma.....	67
The effect of vitamin D replacement therapy on insulin resistance: a retrospective study.....	647
The effects of bisphosphonates on inflammatory markers and atherosclerosis	447
The effects of patient triage management strategies on clinical outcomes and risk management in emergency departments: a prospective comparative study	8
The effects of Tai Chi exercise on motor functions in mild-to-moderate Parkinson's disease.....	140
The impact of body mass index on anxiety levels in patients presenting to the emergency department with dental pain: a comparative analysis using the state-trait anxiety inventory	783
The impact of health workforce and health expenditures on life expectancy and infant mortality rates in Turkiye.....	77
The increase in Aspergillus infections during and after the COVID-19 pandemic	261
The moderating role of insight in the relationship between object relations and defense mechanisms in adults	470
The relationship between advanced maternal age and adverse pregnancy outcomes.....	304
The relationship between episodic migraine headache and chronic constipation in adults.....	425
The relationship between maladaptive daydreaming and academic procrastination, depression, anxiety and stress levels in medical students.....	320
The relationship between nutritional parameters and pregnancy outcomes in abortus imminens.....	184
The relationship between sleep quality and inflammatory and biochemical parameters in hemodialysis patients	613
The role of Artificial Intelligence in Celiac disease support: analyzing ChatGPT's effectiveness for healthcare providers and patients.....	326
The role of triglyceride-glucose index and other atherogenic indices in predicting premature atherosclerosis in non-alcoholic fatty liver disease	886
Trends in animal research on experimental periodontal and peri-implant diseases: a bibliometric overview.....	874
Turkish men's views about male midwifery care: a cross-sectional study	828
Twenty years of research on total intravenous anesthesia (TIVA): bibliometric analysis and visual mapping with Web of Science data	97
You have missed cancer: the unwanted plot twist of benign surgeries	465
