

ARAŞTIRMA MAKALESİ / RESEARCH ARTICLE

Effect of a Restrictive Fluid Therapy Strategy Without Routine Maintenance Fluids on Acid-Base Balance and Renal Function in Critically Ill Patients	194-203
Investigation of Pregnancies with Toxoplasmosis Infection	204-211
Acil Servise Başvuran Adli Göz Vakalarının Değerlendirilmesi	212-219
Evaluation of the Relationship Between the Number of Cesarean Sections and Maternal and Neonatal Mortality and Morbidity in Patients with Placenta Percreta	220-229
Evaluation of Nutritional Status in Patients with Cirrhosis	230-234
Determinants of Treatment Failure and Recurrence in Scabies: A Single-Center Retrospective Study of 332 Cases	235-241
Initiating Holey for High-Volume Prostates: Impact on Learning Curve and Perioperative Outcomes	242-250
Investigation of Sample Rejection Reasons According to Pre-Preanalytical Errors, Which are Quality Indicators in the Central Laboratory of a University Hospital	251-257
Multivariate Determinants of One-Year Mortality Post-Surgery for Unstable Intertrochanteric Fractures in the Elderly	258-265
Association Between Dental Caries and Oxidative Stress Parameters in Children	266-273
Investigation of Serum Plasma Total Oxidant/Antioxidant, Thiol-Disulfide, and Asprosin Levels in Fibromyalgia Patients	274-282
Vincristine-induced Peripheral Neuropathy in Pediatric ALL: A Prospective EMG Study	283-289
Çocukluk Çağı Nötropenisinin Klinik ve Etiyolojik Özellikleri: Tek Merkezli Retrospektif Bir Çalışma	290-298
Spinal versus General Anesthesia in Vaginal Hysterectomy: A Retrospective Multicenter Study on Postoperative Recovery and Pain Outcomes	299-305
Efficacy of Glutamine Therapy in Pediatric Acute Diarrhea Patients Aged 3-36 Months With and Without Malnutrition	306-312
Assessing Oral Glucose Tolerance Test in Children with Cystic Fibrosis	313-321

ARAŞTIRMA MAKALESİ / RESEARCH ARTICLE

Tam Düzeltme Ameliyatı Yapılmış Fallot Tetralojili Hastaların Orta Dönem Sonuçlarının Araştırılması ve Reoperasyonu Etkileyen Faktörlerin Değerlendirilmesi	322-330
Investigation of the Effects of Two Major Green Tea Ingredients on Seizure-Associated High-Frequency Oscillations In Vitro	331-338
The Evaluation of the Relationship Between Meld-Na Score and Organometric Measurements Obtained from Computed Tomography in Patients Followed for Liver Cirrhosis	339-347

DERLEME / REVIEW

Plant-Derived Extracellular Vesicles in Brain Aging: Biological Properties and Molecular Mechanisms	348-359
