ORCID ID :.....

Address:

Author Contribution Statuses: Idea:; Design:; Data Collection:; Data Analysis and/or Interview:; Literature Review:; Article Writing:.....; Critical Review:

Author contribution status should be filled in appropriately using the authors' first and last surname initials. Authors should contribute to at least 3 areas.

Ethics Committee Approval:

The ethics committee approval must include the name of the committee, approval number and date. The ethics committee approval form must be uploaded to the system during the manuscript submission process. Ethical approval must also be obtained for studies involving animals. It must be stated that the studies were conducted in accordance with the principles of the Declaration of Helsinki. If ethics committee approval was not obtained, an explanation must be provided as to why. Institutional approval must be stated, including the name of the institution and the date.

Institutional Approval:.....

The institutional approval must include the name of the approving committee, the approval number, and the date. The institutional approval form must be uploaded to the system during the manuscript submission process. If institutional approval has not been obtained, a written explanation must be provided stating the reason.

Participant Consent:

Informed consent must be obtained from participants (or from the parents or legal guardians of children under the age of 18) in research articles and case reports, and this must be stated in the relevant section.

Financial Support:

If there is no financial support, this should be stated. If financial support has been received, the name of the institution, the project number if it is a project study, and grant information must be specified.

Conflict of Interest:

If there is no conflict of interest, this should be stated. If there is a conflict of interest, the reason should be explained.

Acknowledgement:

If no acknowledgement is provided, this must be stated. Individuals, institutions, or resources that contributed to the preparation and execution of the study should be acknowledged.

If the work has been presented elsewhere (conference, paper, poster, etc.), produced from a thesis or supported by a project, this should be stated.
