

AUTHOR CONTRIBUTION FORM

Article Title:	
----------------	--

Authorship includes the following criteria. All authors listed in the publication must meet all of the criteria below:

- Making substantial contributions to the conception of the study, its design, data collection and processing, or analysis and interpretation;**
 - Approving the final version of the manuscript for publication;**
 - Accepting responsibility for the work as a whole, ensuring that it has been conducted, discussed, and concluded in accordance with scientific and ethical standards.**
- Authors who meet the above criteria should be listed in the order in which they appear in the manuscript. Individuals who do not meet all of the above criteria may be acknowledged under the "Acknowledgments" section at the end of the manuscript.
 - The corresponding author must provide data and additional information upon request after publication.

These conditions have been prepared in accordance with the guidelines of the Council of Science Editors (CSE) and the International Committee of Medical Journal Editors (ICMJE) (www.cse.org, www.icmje.org).

TYPE OF CONTRIBUTION	DESCRIPTION	CONTRIBUTING AUTHORS
IDEA/CONCEPT	Developing the hypothesis or central idea of the research and/or manuscript	
DESIGN	Designing and planning the methodology to achieve the study outcomes	
SUPERVISION	Organizing the conduct of the study, monitoring its progress, and taking responsibility
